Meeting Policies and Regulations

Order of Agenda

The Planning Commission may alter the order of the agenda to consider special requests and variances first, followed by replats requiring a public hearing second and consent agenda last. Any contested consent item will be moved to the end of the consent agenda.

Public Participation

The public is encouraged to take an active interest in matters that come before the Planning Commission. Anyone wishing to speak before the Commission may do so. The Commission has adopted the following procedural rules on public participation for virtual meetings:

- Anyone wishing to speak before the Commission should sign up to speak via phone 832-393-6624 or email <u>Speakercomments.pc@houstontx.gov</u>, 24 hours in advance.
- 2. If the speaker wishes to discuss a specific item on the agenda of the Commission, it should be noted in the email or when the speaker calls.

3. All comments submitted 24 hours in advance in writing will be made part of the agenda under- public comments.

- 4. Keep your phone or computer on "MUTE" unless identified by the Chair to speak. When your name is called, unmute your phone by pressing your mute button or *6, or unmute your computer. State your name, spell your last name, and make your comments. When you are done, please mute yourself.
- 5. If the speaker wishes to discuss any subject not otherwise on the agenda, time will be allocated or allotted after all agenda items have been processed and "public comments" are taken.
- For each item, the applicant is given first opportunity to speak and is allowed two minutes for an opening presentation. The applicant is also allowed a rebuttal after all speakers have been heard; two additional minutes will be allowed.
- 5. Speakers will be allowed two minutes each for specially called hearing items, replats with notice, variances, and special exceptions.
- 6. Speakers will be allowed 1 minute each for all consent agenda items.
- 7. If a speaker has a translator (foreign language or sign language), that individual will be given twice the amount of time.
- 8. When an item has been deferred to a future agenda, speakers will be allowed to speak again when the item appears on the next agenda, but will be limited to one minute.

- 9. Time limits will not apply to elected officials.
- 10. No speaker is permitted to accumulate speaking time from another person.
- 11. Time devoted to answering any questions from the Commission is not charged against allotted speaking time.
- 12. The Commission reserves the right to limit speakers if it is the Commission's judgment that an issue has been sufficiently discussed and additional speakers are repetitive.
- 13. The Commission reserves the right to stop speakers who are unruly or abusive.

Limitations on the Authority of the Planning Commission

By law, the Commission is required to approve subdivision and development plats that meet the requirements of Chapter 42 of the Code of Ordinances of the City of Houston and related regulations. The Commission cannot exercise discretion nor can it set conditions on plats meeting all requirements. If the Commission does not act on a Sec. I Platting Activity A-F and K. Consent Agenda item within 30 days, the item is deemed approved. The Commission's authority on platting does not extend to land use. The Commission cannot disapprove a plat because of objections to the use of the property. All plats approved by the Commission are subject to compliance with applicable requirements of other departments and public agencies, e.g., water, sewer, drainage, or utilities.

Contacting the Planning Commission

Should you have materials or information that you would like for the Planning Commission members to have pertaining to a particular item on their agenda, contact staff at 832-393-6600. Staff can either incorporate materials within the Agenda packets, or can forward or distribute at the meeting.

Contacting the Planning Department

The Planning and Development Department is located at 611 Walker Street on the Sixth Floor. Code Enforcement is located at 1002 Washington Street.

Mailing address is: P.O. Box 1562 Houston, Texas 77251-1562

Website is www.houstonplanning.com

E-mail us at: Planning and Development Anna.Sedillo@houstontx.gov

Plat Tracker Home Page: www.HoustonPlatTracker.org

www.HoustonPlanning.com or (832) 393-6600

WELCOME to a meeting of the City's Planning and Development Department. Your input is valued. Commissioners take action according to established standards; see rules or policies for details. Staff is available to help orient you on meeting procedures. For the City's I SPEAK language line, including traducción en Español, call (832) 393-3000.

Virtual Electronic Meeting Rules: See adjustments for remote meeting participation on our web pages at <u>www.houstonplannning.com</u>. Call 832-393-6624 for details or email comments to: <u>Speakercomments.pc@houstontx.gov</u>. The Chair may also choose to recognize speakers during the meeting.

Physical Meeting Rules: Submit a SPEAKER FORM to be recognized as a speaker. Turn in the completed, legible form to the staff near the front desk, normally before the item is called for consideration. Organized groups may submit forms in a desired speaker sequence to staff. However, the Chair may take items out of order.

One recognized speaker at the podium at a time. As your name is called, move to the podium to speak, or announce from your seat if you wish to decline. Any handouts can be provided to staff near the podium, for distribution while you begin speaking. Speaker's time cannot be allocated to another person. Speaker's times are normally 1-2 minutes or as otherwise identified.

At the podium, state your name for the record. Ideally, also state your position on the item, and then deliver your comments. A bell is rung if the allowed speaking time is exceeded. There may also be questions for you, from the Chair or recognized Commissioners, before you return to your seat. No audible expressions from the audience, including no applause, boos, or verbal outbursts.

Speakers with general comments can sign up to speak during the public comment section of the agenda. Turn in visitor badges at the building's check stations at departure.

The Houston Planning Commission will conduct this meeting both in-person and virtual via Microsoft Teams. The Commission will have the option of participating by videoconference using Microsoft Teams in accordance with the provision of Section 551.127 of the Texas Government Code that have not been suspended by order of the Governor. This platform will allow for two-way video/audio communication with the members of the Houston Planning Commission who choose to attend virtually.

To join the March 16, 2023 Houston Planning Commission please see the following options:

- In-person meeting at: 900 Bagby Street, City Council Chamber, Public Level, Houston, Texas
- Microsoft Teams by installing the Microsoft Teams app; or
- Web Browser: <u>https://bit.ly/3l1wC9n;</u> or
- Phone: +1 936-755-1521 Conference ID: 895 207 144#

Visit website (https://plattracker.houstontx.gov/edrc/Login.aspx) for agenda details.

This online document is preliminary. It may not contain all the relevant materials and information that the Planning Commission will consider at its meeting. The official agenda is posted at City Hall 72 hours prior to the Planning Commission meeting. Final detailed packets are available online at the time of the Planning Commission meeting.

Martha L. Stein, Chair

City of Houston Ordinance No. 2023-____

AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF HOUSTON, TEXAS, BY AMENDING SEVERAL SECTIONS OF CHAPTER 42 OF THE CODE OF ORDINANCES, AND ADDING A NEW SECTION 42-xx, ALL AMENDMENTS RELATING TO MULTI-UNIT RESIDENTIAL PERFORMANCE STANDARDS; CONTAINING FINDINGS AND OTHER PROVISIONS RELATING TO THE FOREGOING SUBJECT; DECLARING CERTAIN CONDUCT TO BE UNLAWFUL AND PROVIDING A PENALTY THEREFOR; PROVIDING FOR SEVERABILITY; AND DECLARING AN EMERGENCY.

WHEREAS, City Council recognizes that a greater range of naturally occurring affordable housing options is necessary to address the lack of affordable housing available within the city; and

WHEREAS, development incentives will encourage more compact development

patterns and small-scale multi-unit housing options; and

WHEREAS, development incentives will encourage access and proximity to

mobility options and to make better use of land closer to existing infrastructure; and

WHEREAS, the City Council finds and determines that the city should make every

effort to promote responsible affordable housing development within the inner city; and

WHEREAS, the City Council desires to adopt an ordinance providing for multi-unit

residential standards to incentivize desirable development patterns; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HOUSTON, TEXAS:

Section 1. That the findings contained in the preamble of this Ordinance are determined to be true and correct and hereby adopted as part of this Ordinance.

Section 2. That Chapter 42 of the Code or Ordinances, Houston, Texas, is hereby amended as set forth in **Exhibit A**, attached hereto and incorporated herein.

Section 3. That the City Attorney is hereby authorized to direct the publisher of the Code to make such non-substantive changes to the Code as are necessary to conform to the provisions adopted in this Ordinance, and to make such changes to the provisions adopted in this Ordinance conform them to the provisions and conventions of the published Code.

Section 4. That, if any provision, section, subsection, sentence, clause, phrase, of this Ordinance, or the application of same to any person or set of circumstances, is for any reason held to be unconstitutional, void or invalid, the validity of the remaining portions of this Ordinance or their application to other persons or sets of circumstances shall not be affected thereby, it being the intent of the City Council in adopting this ordinance that no portion hereof or provision or regulation contained herein shall become inoperative or fail by reason of any unconstitutionality, voidness or invalidity of any other portion hereof, and all provisions of this Ordinance are declared to be severable for that purpose.

Section 5. Any violation of any provision of Chapter 42, as herein adopted and made a part of the City of Houston Code of Ordinances, is a misdemeanor punishable upon conviction by a fine as established by Section 1-6 of the City of Houston Code of Ordinances.

Section 6. That a public emergency exists requiring that this ordinance be passed finally on the date of its introduction as requested in writing by the mayor; therefore, this

ordinance shall be passed finally on that day and shall take effect at 12:01 a.m. on the

_____, 2023.

PASSED, ADOPTED and APPROVED this _____ day of _____, 2023.

Mayor of the City of Houston

Prepared by Legal Dept. ______ KM/ Senior Assistant City Attorney III Requested by Margaret Wallace Brown Director, Department of Planning and Development L.D. File No. 000000____

EXHIBIT A

Amendments to Chapter 42, Code of Ordinances of the City of Houston

Sec. 42-1. Definitions.

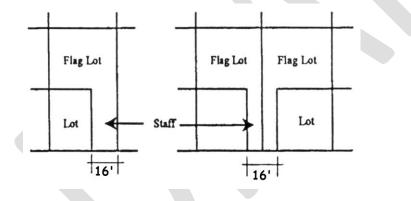

Alley shallmeans a public or private right-of-way that is not used primarily for through traffic and that provides vehicular access to rear or side entrances to buildings or properties that front on an adjacent street.

<u>Courtyard Access Drive shall mean a private drive that provides driveway access to parking</u> from the street or alley within Courtyard style development meeting the requirements of <u>Sec. 42-194.</u>

Director of solid waste means the director of the department of solid waste management or histheir designee.

Façade means the exterior wall of any building on a property that faces a public street abutting the property or a courtyard meeting the requirements of Sec. 42-194.

Flag lot shallmeans a lot whose frontage on and access to the street right-of-way is provided by a narrow driveway, access easement or other parcel of land referred to as the "staff" of the flag lot and all lots abutting the staff use it for shared vehicular access.

Ground floor façade means the façade of a building along a transit-oriented development public street or walkable places street, as applicable, between the finished floor height of the ground floor and the vertical height of eight feet a courtyard meeting requirements of Sec. 42-194.

<u>Market Based Parking shall mean that there is no city required minimum parking</u> requirements and parking can be provided based on market needs when the property is within ½ mile of other modes of transit such as rail stations, high frequency bus stops, blue route bus stops in opportunity zones, transit stations, park and ride stations or within ¼ mile of high comfort bike paths.

Multi-family residential shall mean the use of property with one or more buildings on a parcel designed for and containing an aggregate of three or more dwelling units. Multi-family residential includes apartments, condominiums, triplexes and quadraplexes.

Narrow Lots shall mean the lots that have less than 40 feet of frontage on a street or shared driveway.

Single-family residential shall mean the use of a lot with one building designed for and containing not more than two separate unit with facilities for living, sleeping, cooking, and eating therein. A lot upon which is located a free-standing building containing one dwelling unit and a detached second dwelling unit of not more than 900 square feet shall also be considered single-family residential. A building that contains one dwelling unit on one lot that is connected by a party wall to another building containing one dwelling unit on an adjacent lot shall be single-family residential.

Sec. 42-8. Forms authorized

The director is authorized to promulgate forms to use in the implementation of this chapter, including forms for standardized language to be used on the face of subdivision plats and development plats. Prior to the use of any form, the city attorney or the city attorney's designee shall review the form for legal sufficiency and approve each form the city attorney or the city attorney's designee, in <u>histheir</u> sole professional judgment, determines to be legally sufficient.

Sec. 42-79. Reconsideration of subdivision plat approval conditions.

- (a) At the request of the owner of a proposed subdivision, at any time during the period a previous commission approval of a subdivision plat remains valid, but prior to the time that the subdivision plat is filed of record, the commission may reconsider any requirement or condition of approval imposed by it. A request for reconsideration shall:
 - (1) Be made in writing;
 - (2) Be submitted to the director in conformance with the provisions of section 42-53 of this Code regarding the submittal of subdivision plats;
 - (3) State the specific requirement or condition of approval requested to be reconsidered and the reasons for reconsideration; and
 - (4) Be accompanied by the applicable fee.
- (b) Upon consideration of a request for reconsideration, the commission shall reaffirm its previous actions or shall approve the request for reconsideration, with or without conditions, as the commission finds the merits of the situation warrant. The director shall not calendar a request to reconsider the same requirement or condition of approval once the commission has rendered a decision upon a request for reconsideration unless the applicant presents new information that was not known by the applicant at the time of the original reconsideration.

(c) If the relief requested by the applicant requires a variance or special exception, the applicant shall submit a complete amended application for the subdivision plat that contains all of the information required by section 42-47 or 42-48 of this Code, as applicable, and the commission shall make the findings necessary for the granting of a variance or special exception, as applicable, in considering the request for reconsideration.

(d) Each request for reconsideration shall be subject to all public hearing and notification requirements that applied to the subdivision plat for which the request for reconsideration is made or that apply to the request for reconsideration. The applicant shall be responsible for providing current information pursuant to section 42-49 of this Code.

Sec. 42-46. Development plat submittal requirements.

An application for the approval of a development plat shall be filed with the department, and shall:

- (1) Be made on an application form provided by the department;
- (2) Provide two copies <u>a copy</u> of a survey sealed and certified by a Texas registered professional land surveyor showing:
 - a. The location of each existing building, structure or improvement;
 - b. Each easement and right-of-way within or abutting the boundary of the surveyed property, tied to a street intersection or landmark; and
 - c. The dimensions of each sidewalk, alley, square, park or other part of the property intended to be dedicated to public use or for the use of purchasers of property fronting on or adjacent to the sidewalk, alley, square, park or other part.

The survey does not have to be recent so long as it illustrates all contiguous property under one ownership or common control;

- (3) Include three copies <u>a copy</u> of a site plan illustrating:
 - a. Proposed and existing buildings (where applicable), stairways, fences and adjacent roadways;
 - b. Parking that meets the applicable requirements of this chapter and chapter 26 of this Code;
 - c. Landscaping that meets the applicable requirements of chapter 33 of this Code;
 - d. <u>Location of bulk container and Sscreening</u> for bulk containers that meets the applicable requirements of article VI of chapter 39 of this Code; and
 - e. Location of gang mailboxes or cluster box units that are constructed in the public street pursuant to section 40-13 of this Code, as applicable; and
- (4) Be accompanied by the applicable filing fee.

Sec. 42-122. Right-of-way widths.

The minimum right-of-way required for each of the following types of streets or public alleys shall be as follows, subject only to the street width exception areas established pursuant to section 42-123 of this Code:

Major thoroughfares	(1) The lesser of 100 feet or the right-of-way
	specified by the street hierarchy classification
	established by the major thoroughfare and
	freeway plan; or
	(2) 100 feet for streets designated on the
	major thoroughfare and freeway plan for
	which a street hierarchy classification is not
	established
Collector streets designated on the major	The right-of-way width established by the
thoroughfare and freeway plan	major thoroughfare and freeway plan
Other collector streets	(1) 60 feet; or
	(2) 50 feet if all properties on both sides of
	the collector street consist of single-family
	residential lots, MUR's and other uses that
	are allowed on a 50' right-of-way that do not
	have driveway access to the collector street.
Local streets	(1) 50 feet if adjacent to exclusively single-
	family residential lots, MUR's and other uses
	that are allowed on a 50 feet right-of-way; or
	(2) 60 feet if adjacent to any other
	development
Transit-oriented development street not	60 feet
designated as a major thoroughfare or	
collector street on the MTFP	
Walkable places street	The right-of-way width established by the
	walkable places plan
	The right-of-way width otherwise required
	by this division for street segments
	designated on the walkable places plan for
	which a substitute right-of-way width is not
	established
Public alleys	20 feet
Type 1 permanent access easement	The width required if the permanent access
	easement were a public street
Type 2 permanent access easement	28 feet
	201000

The right-of-way width of a type 2
permanent access easement is coterminous
with the pavement width and the terms are
used interchanged. The width shall be
measured from edge to edge across the
surface of the pavement

Sec. 42-124. Right-of-way transition.

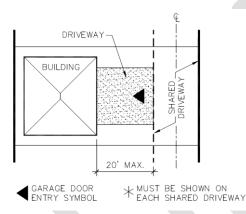

Where a transition from one right-of-way width for any type of street to a different right-of-way width is proposed, the transition shall conform to the geometric design guidelines of the design manual or to other geometric design guidelines that are approved by the Director of Houston Public Works if in <u>histheir</u> professional opinion the proposed transition is warranted by the circumstances and achieves the intent and purpose of this section.

Sec. 42-130(a). Intersection exceptions.

- (a) Nothing in the intersection standards established by sections 42-127 through 42-129 of this Code shall require:
 - (1) The crossing of a single existing pipeline by a street more than every 2,000 feet;
 - (2) The crossing of multiple existing pipelines by a street more than once every ½ mile;
 - (3) The crossing of an existing railroad track (other than an industrial lead) or an existing major creek or bayou in a drainage easement having a width of 300 feet or more by any street other than a major thoroughfare;
 - (4) The crossing of a drainage channel required by a governmental entity with flood control jurisdiction to be located in a recorded drainage easement having a required width of 220 feet or more by a street more than every ½ mile;
 - (5) The crossing of an drainage channel required by a governmental entity with flood control jurisdiction to be located in a recorded drainage easement having a required width of less than 220 feet and more than 100 feet by a street more than every 2,000 feet;
 - (6) The crossing of a stormwater detention facility required by a governmental entity with flood control jurisdiction by a street more than once every 2,000 feet;
 - (7) The crossing by any street other than a major thoroughfare of any portion of Addicks Reservoir, Barker Reservoir, Sheldon Reservoir, the Houston Ship Channel or Lake Houston that is wider than 100 feet; or
 - (8) The crossing of any portion of a golf course by a local street more than once every 2,800 feet, provided that the golf course provides 60 feet of frontage at the location where each street intersection would otherwise occur.

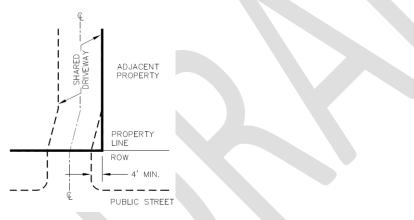

Sec. 42-145. General layout and arrangement for all shared driveways.

- (a) A subdivision plat within the city may provide for a lot that takes access from a shared driveway within the same subdivision plat as the lot in accordance with the following requirements:
 - (1) A shared driveway shall have a minimum width of 18 feet except as provided in section 42-146 of this Code;
 - (2) No part of a shared driveway shall be more than 200 feet from a type 1 permanent access easement or a public street that is not an alley and that contains a roadway. The distance shall be measured along the centerline of the shared driveway starting from the intersection with the type 1 permanent access easement or the public street.
 - (3) A shared driveway may be any length if all lots that take access from the shared driveway have frontage in the amount of the minimum lot width required by section 42-185 of this Code on a type 1 permanent access easement or a public street that is not an alley and that contains a roadway;

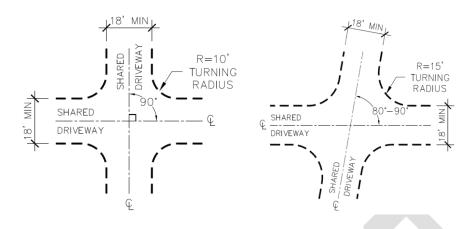

- (4) The length of a driveway that connects to a shared driveway shall be 20 feet or less as measured from the edge of the shared driveway <u>as long as the total length of the</u> <u>shared driveway plus driveway does not exceed 200 feet from a type 1 permanent</u> <u>access easement or a public street that is not an alley and that contains a roadway;</u>
- (5) Any parking space in a subdivision containing a shared driveway shall provide sufficient space for turning movements as depicted on the drawings of the space requirements for off street parking referenced in Section 3112.4.5 of the *Construction Code;*
- (6) A shared driveway containing a reverse curve shall have a centerline radius of 65 feet or more. A reverse curve within a shared driveway shall be separated by a tangent of 25 feet or more; and

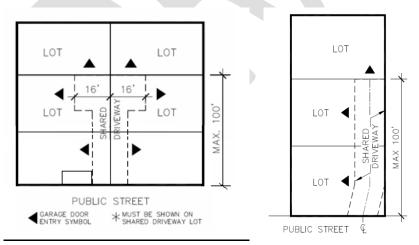

- (7) A shared driveway that intersects with a major thoroughfare shall not provide gated vehicular access to the shared driveway unless the gate is set back 25 feet or more from the right-of-way of the major thoroughfare.
- (b) A shared driveway shall not intersect with a type 2 permanent access easement, a private alley, or connect to, or be the extension of, a shared driveway created by an adjacent subdivision. A shared driveway shall intersect with at least one type 1 permanent access easement or public street that is not an alley in accordance with the following requirements:
 - The shared driveway shall intersect with a public street that has a roadway width 18 feet or more as measured at the narrowest point of the roadway adjacent to the tract;
 - (2) The shared driveway shall intersect with a type 1 permanent access easement or a public street at a 90-degree angle except as needed to comply with item (3) of this subsection; and
 - (3) The shared driveway shall be set back at least four feet from the boundary of the subdivision plat measured at the point of intersection with the public street.

- (c) Intersections within a shared driveway shall comply with the following requirements:
 - Intersections shall be spaced a minimum of 65 feet apart measured from the closest edges of the shared driveway and shall not intersect at less than an 80-degree angle; and
 - (2) A shared driveway with a width of 18 feet or more shall provide for a 10-foot turning radius at every 90-degree angle in the shared driveway and shall provide for a 15-foot turning radius at every angle less than 90 degrees but equal to or greater than 80 degrees in the shared driveway.

- (d) A subdivision plat containing a shared driveway shall provide a three-foot wide emergency access easement along each boundary of the subdivision plat that does not abut a public street. No objects or obstructions shall be placed within the emergency access strip except that a fence may be permitted if it provides for pedestrian gate access for emergency services.
- (e) Each garage entry door on each lot within a subdivision plat that takes access from a shared driveway shall be parallel to the length of the shared driveway <u>allowing sufficient</u> <u>room for turnaround per IDM</u>. The garage entry door may be perpendicular to the length of the shared driveway when the shared driveway complies with the following performance standards:
 - No more than three six lots with no more than three lots on either side of the length of the shared driveway take access from the shared driveway;

- (2) The shared driveway does not intersect a major thoroughfare or collector street; and
- (3) The shared driveway is less than or equal to 100 feet in length.

Sec. 42-150. Building line requirement.

(a) An improvement that requires a building permit shall not be constructed within the building line requirement established by this chapter. Each subdivision plat and development plat shall show all applicable building lines and the following note:

"Unless otherwise indicated, the building lines [b.l.], whether one or more, shown on this subdivision plat are established to evidence compliance with the applicable provisions of Chapter 42, Code of Ordinances, City of Houston, Texas, in effect at the time this plat was approved, which may be amended from time to time."

- (b) The building line requirements established by this chapter are minimum standards. Where deed restrictions provide for a greater building line or setback, the deed restrictions shall control over the provisions of this chapter.
- (c) A special minimum building line requirement established pursuant to subdivision B of this division shall control over all other provisions of this chapter relating to building line requirements.
- (d) The following chart is a summary of certain building line requirements of this chapter and is intended for illustrative purposes only. In case of any conflict between the chart and the text of this chapter, the text shall control.

Type of Street or Private Roadway	Tract Description	Minimum Building Line Requirement
All Public Streets	Within the central business district	No requirement
Major Thoroughfares	In general	25 feet
	Single-family residential backing on a major thoroughfare	10 feet, if the lot meets the standards of section 42-152(b)
	Not single-family residential and abutting a major thoroughfare with a planned right-of-way width of 80 feet or less	15 feet, if the reserve meets the standards of section 42-153
	Retail commercial center abutting a major thoroughfare with a planned right-of-way width of 80 feet or less	5 feet, if the reserve meets the standards of section 42-154(a)
		zero feet, if the reserve meets the standards of section 42-154(b)
	SFR lots with vehicular access from flag staff, shared driveway, alley, PAE or courtyard access drive	15' if the ROW width is 80' or less
	Tracts used for MUR per Sec. 42-237	15' if the ROW width is 80' or less
Primary Streets	All tracts	Zero feet and subject to the standards of section 42-164
Secondary Streets	All tracts	See applicable public street classification
		Zero feet, if the lot or reserve meets the standards of section 42-164
Collector Streets	Not single-family residential and across the street from a single-family residential lot with a platted building line of 10 feet or more	Lesser of 25 feet or the greatest building line on the single-family residential lots
	Single-family residential	25 feet, if the lot meets the standards of section 42-156(a)

Summary of Minimum Building Line Requirements

		10 feet, if the lot meets the standards of section 42-157(b)
		5 feet, if the lot meets the standards of section 42-157(c)
		zero feet, if the lot meets the standards of section 42-157(d)
	SFR lots within courtyard style development	5 feet Courtyard style development Sec. 42-194
	Tracts used for MUR	<u>5 feet per MUR Sec. 42- 237</u>
	All others	10 feet
Local streets	Not single-family residential and across the street from a single-family residential lot with a platted building line of 10 feet or more	Lesser of 25 feet or the greatest platted building line on the single-family residential
	Single-family residential	20 feet, if the lot meets the standards of section 42-156(b)
		10 feet, if the lot meets the standards of section 42-156(b) or section 42-157(b)
		5 feet, if the lot meets the standards of section 42-157(c)
		zero feet, if the lot meets the standards of section 42-157(d)
	SFR lots within courtyard style development	5 feet per Courtyard style development Sec. 42-194
	Tracts used for MUR	5 feet per MUR Sec. 42-237
	All others	10 feet
Private Streets	All tracts	5 feet for habitable structures
Type 2 Permanent Access Easements	All tracts	5 feet
Shared Driveways	All tracts	3 feet, if the lot meets the standards of section 42-159(a)
		zero feet, if the lot meets the standards of section 42-159(b)

Sec. 42-151. Exceptions to building line requirement.

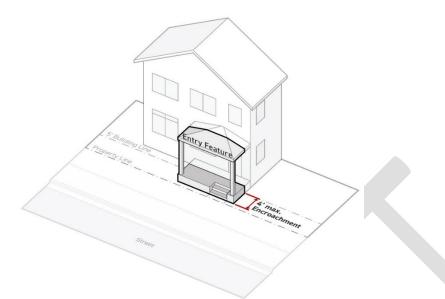

- (a) A tract within the central business district shall not be subject to a building line requirement.
- (b) For a building line requirement of ten feet or greater established by this article, an encroachment shall be permitted as follows:
 - (1) An encroachment of up to 30 inches into the building line requirement shall be permitted for eaves, bay windows, balconies, fireplace chimneys, decorative features, and habitable area if:
 - a. The encroachment is cantilevered into the building line requirement and is not supported by other means;
 - b. The lowest point of the encroachment is at least nine feet higher than the highest point of the building foundation;

- c. The encroachment for habitable living area for each floor does not have an area greater than 50 percent of the total area of the building façade for that floor; and
- (2) An encroachment of up to five feet into the building line requirement shall be permitted for open stairways and wheelchair ramps.
- (c) For a building line requirement less than ten feet established by this article along a collector or local street, an encroachment of up to 30 inches shall be permitted for eaves, bay windows, balconies, fireplace chimneys, decorative features, and habitable living area if:
 - (1) The encroachment is cantilevered into the building line requirement and is not supported by other means;
 - (2) The lowest point of the encroachment is at least nine feet higher than the highest point of the building foundation;
 - (3) The encroachment for habitable living area for each floor does not have an area greater than 50 percent of the total area of the building façade for that floor; and
 - (4) The encroachment is not within ten feet of aboveground utility lines except those individual service lines used to connect the building to the utility lines, as measured horizontally from the point of the encroachment closest to the utility lines.

(d) For single family residential lots, lots within courtyard style development per Sec. 42-194 or MUR tracts per Sec. 42-237 with a building line requirement of five feet or greater established by this article, an encroachment of the entry feature per Sec. 42-165 shall be permitted within the building line provided;

(1) The vehicular access is from the rear/side via alley, flag staff, shared driveway, PAE or courtyard access drive;

- (2) The entry feature encroaches no more than 4 feet into the building line on the first floor if there is adequate room for sidewalks and all utilities with no structures above the entry feature and;
- (3) The encroachment is not within ten feet of aboveground utility lines except those individual service lines used to connect the building to the utility lines, as measured horizontally from the point of the encroachment closest to the utility lines.

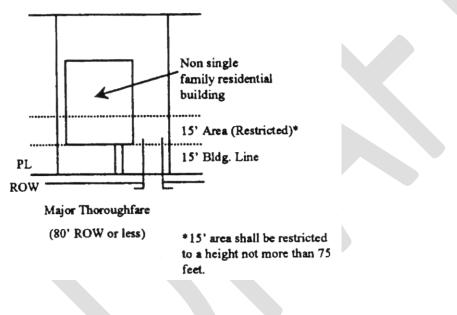

- (de) An encroachment of up to 30 inches into the building line requirement along a type 2 permanent access easement established by this article shall be permitted if:
 - (1) The encroachment is cantilevered into the building line requirement and is not supported by other means; and
 - (2) The lowest point of the encroachment is at least nine feet higher than the highest point of the building foundation.
- (e-f) Encroachments into the building line requirement along a shared driveway established by this article shall be permitted if:
 - (1) The encroachment is cantilevered into the building line requirement and is not supported by other means; and
 - (2) The lowest point of the encroachment is at least 12 feet higher than the highest point of the shared driveway paving.
- (f-g) An encroachment into the building line requirement as provided by this article shall be permitted for any building that has received a certificate of appropriateness issued pursuant to article VII, chapter 33, of this Code, relating to historic preservation, evidencing approval of the encroachment into the building line requirement.
- (g-h) An existing building may encroach into the building line requirement established by this article if:
 - (1) The existing building was constructed in accordance with the building line requirement that was in effect at the time the building was constructed;
 - (2) Additional construction on the portion of the existing building that encroaches into the building line requirement does not expand the size, footprint, or any dimension of the encroachment;
 - (3) The portion of the existing building that encroaches into the building line requirement is not reconstructed in a way that replaces the structural elements of the encroachment; or

(4) A subdivision plat filed with the department after July 24, 2015, that includes a tract containing the existing building depicts the encroachment as a dual building line and contains a plat notation that requires compliance with the terms of this section.

Sec. 42-153. Optional performance standards for a major thoroughfare within the city with a planned right-of-way of 80 feet or less—In general

Except for along a walkable places street or transit-oriented development street, a building line requirement of 15 feet is authorized for a tract in the city that has frontage on a major thoroughfare with a planned right-of-way of 80 feet or less if the applicant submits a subdivision plat that includes plat notations that require compliance with the following performance standards or a development plat that demonstrates compliance with each of the following performance standards, as applicable:

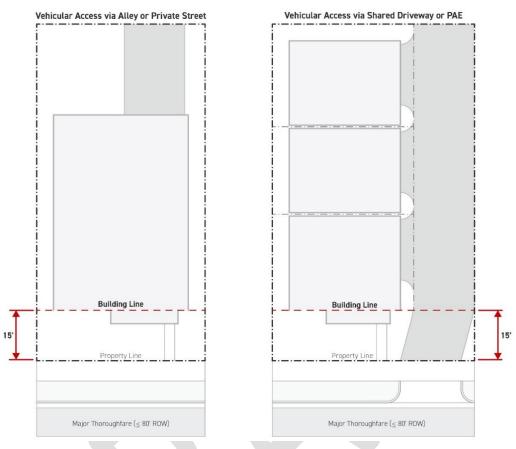

(a) <u>A building line requirement of fifteen feet is authorized for tract with uses other than single family residential</u> adjacent to the major thoroughfare <u>provided</u>;

- (1) The subdivision plat does not provide for single family residential use
- (<u>1</u>2) Any private street or private drive crossing the building line is substantially perpendicular to the adjacent major thoroughfare and the building line;
- (23) The area within the building line is not used for parking, driveways, or any other auto-related uses such as access to a drive-through window;
- (<u>3</u>4) A clearly defined pedestrian walkway that is separate from any private street or private drive is established across the building line perpendicular to the sidewalk providing a connection

from the public sidewalk along the major thoroughfare to an entrance to a building or the development;

- (45) The sidewalk and safety buffer standards of article XXII of chapter 40 of this Code;
- (<u>5</u>6) The height of any building within 15 feet behind the building line is restricted to not more than 75 feet, as measured in accordance with the Building Code;
- (<u>6</u>7) Trees that are within 25 feet of the property line adjacent to the major thoroughfare are protected as corridor trees pursuant to article V of chapter 33 of this Code;
- (78) The building line conforms to the visibility triangle required by section 42-161 of this Code at the intersection of a major thoroughfare and any other street;
- (89) For any property used for nonresidential purposes, the maximum height of any fence, wall, berm, or combination thereof within the building line is 36 inches in height measured from mean grade;
- (910)For multi-family residential uses, any fence, wall, berm, or combination thereof within the building line that is more than 36 inches high, but less than eight feet high, measured from mean grade is at least two feet from the property line adjacent to the major thoroughfare and the space created thereby is used and maintained for landscape plantings; and
- (1011) For purposes of section 33-127(b) of this Code, the number of required shrubs shall be equal to the number of required street trees multiplied by five, which required shrubs shall be distributed along the street frontage of the property in the landscape strip.
- (b) A building line requirement of fifteen feet is authorized for single-family residential lots that take vehicular access via an alley, flag staff, shared driveway, PAE or courtyard access drive per Sec. 42-194 provided;
 - (1) The units along the major thoroughfare front the street with an entry feature per Sec. 42-165
 - (2) Any flag staff, shared driveway, PAE or private drive crossing the building line is substantially perpendicular to the adjacent major thoroughfare and the building line;
 - (3) The area within the building line along the major thoroughfare is not used for parking;
 - (4) A decorative non-opaque fence is provided along the major thoroughfare
 - (5) All Parking is located 20 feet away from the ROW
 - (6) A development shall not provide gated vehicular access to the flag staff, shared driveway or <u>PAE unless the gate is set back 25 feet or more from the right-of-way of the major</u> <u>thoroughfare.</u>
 - (7) A clearly defined pedestrian walkway that is separate from any flag staff, shared driveway, or PAE is established across the building line perpendicular to the sidewalk providing a connection from the public sidewalk along the major thoroughfare to an entrance to the development;
 - (8) The sidewalk and safety buffer standards of article XXII of chapter 40 of this Code are met;

- (c) A building line requirement of fifteen feet is authorized for multi-unit residential (MUR) tracts per Sec. 42-237 that take vehicular access via an alley, or a private drive provided;
 - (1) The units along the major thoroughfare front the street with an entry feature per Sec. 42-165
 - (2) Any private drive crossing the building line is substantially perpendicular to the adjacent major thoroughfare and the building line;
 - (4) The area within the building line along the major thoroughfare is not used for parking or any other auto-related uses;
 - (5) Parking is in rear or on the side of the property
 - (6) A clearly defined pedestrian walkway that is separate from any private drive is established across the building line perpendicular to the sidewalk providing a connection from the public sidewalk along the major thoroughfare to an entrance to the development;
 - (7) The sidewalk and safety buffer standards of article XXII of chapter 40 of this Code are met;
 - (8) Trees that are within 25 feet of the property line adjacent to the major thoroughfare are protected as corridor trees pursuant to article V of chapter 33 of this Code;

(9) Any fence, wall, berm, or combination thereof within the building line that is more than 36 inches high, but less than eight feet high, measured from mean grade is at least two feet from the property line

adjacent to the major thoroughfare and the space created thereby is used and maintained for landscape plantings.

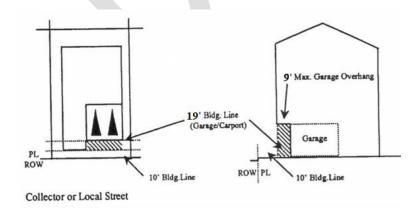

Sec. 42-155. - Collector and local streets—Uses other than single-family residential.

- (a) The building line requirement for a tract used or to be used for other than single-family residential purposes adjacent to a street that is a collector street or local street that is not an alley shall be ten feet unless otherwise required or authorized by this chapter.
- (b) The building line requirement for property used or intended for to be used for other than single-family residential purposes adjacent to a street that is a collector street or local street and that is not an alley and across which street are located single-family residential lots having platted building lines greater than ten feet shall be the lesser of 25 feet or the greatest building line on the single-family residential lots directly across the street from the property.

(c) The building line requirement for tracts used or to be used for multi-unit residential purposes per Sec. 42-237 adjacent to a collector street or local street that is not an alley shall be as identified in Sec. 42-237 unless otherwise required or authorized by this chapter.

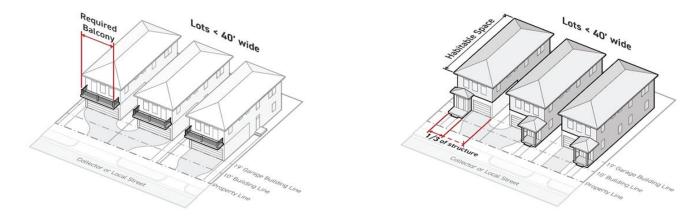

Sec. 42-157. Optional performance standards for collector streets and local streets—Single-family residential.

- (a) The performance standards for building lines in the city are intended to:
 - (1) Foster a design framework applicable to the city; and
 - (2) Assure that pedestrian use of sidewalks is not impeded by vehicles blocking the sidewalks.
- (b) The building line requirement for a subdivision or development in the city restricted to singlefamily residential use adjacent to a collector street or a local street that is not an alley shall be:
 - (1) Ten feet for the principal structure; and
 - (2) Notwithstanding the other provisions of this section, 17 19 feet for a garage or carport facing the street. A building above the garage or carport may overhang the building line up to seven nine feet, and

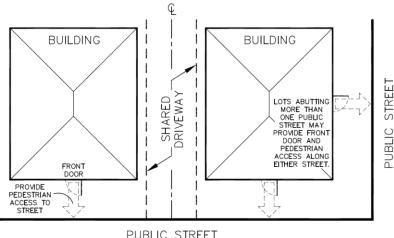

(3) For lots with garage facing the street, 1/3 of the structure along the street must be occupiable space with front door facing the street. This 1/3 of the structure can be located within the 9 feet ahead of the garage building line or within 4 feet behind the garage building line. For lots narrower than 40', if not able to meet the 1/3 requirement, then functional balconies must be provided on the second floor.

- (c) A front building line requirement of five feet is authorized for all or a portion of the lots in a subdivision or development in the city that is restricted to single-family residential use adjacent to a collector street or a local street that meets one of the following performance standards:
 - (1) Vehicular access to a driveway, garage or carport is available only from the rear/side of each lot through an alley, flag staff, PAE or courtyard access drive, and each dwelling unit on a lot that is adjacent to a public street has a front door with an entry feature per Sec. 42-165 that faces the public street and provides pedestrian access to the public street provided there is adequate room for sidewalks and all utilities; or
 - (2) Vehicular access to each lot is provided by a shared driveway and:

- a. The shared driveway meets the requirements of division 2 of article III of this chapter relating to shared driveways;
- b. Each dwelling unit on a lot that is adjacent to a public street has front door with an entry feature per Sec. 42-165 that faces the public street and provides pedestrian access to the public street; and
- c. All electrical service installations for the development are installed according to Centerpoint Energy's service standards for the underground installations including the dedication of any easements required by Centerpoint Energy for the underground installation.
- (d) A front building line requirement of zero feet is authorized for all or a portion of the lots in a subdivision plat in the city that is restricted to single-family residential use adjacent to a collector street or local street that meets the following performance standards:
 - The subdivision is solely a replat of a lot on a corner at the intersection of two public streets; (1)
 - (2) Each lot in the replat provides for one or more shared driveways so that every dwelling unit will share a shared driveway with at least one other dwelling unit; and
 - Each dwelling unit on a lot that is adjacent to a public street has a front door with an entry (3) feature per Sec. 42-165 that faces the public street and provides pedestrian access to the public street.
 - (4) All electrical service installations for the development are installed according to Centerpoint Energy's service standards for the underground installations including the dedication of any easements required by Centerpoint Energy for the underground installation.

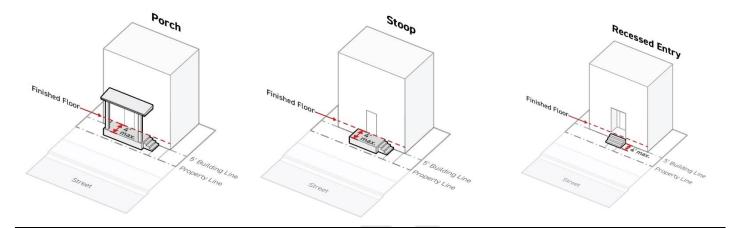

PUBLIC STREET

Sec. 42-165. Entry Feature performance standards for units fronting the street The concept is to create optional performance standards that allow a 5-foot building line for developments with rear/side access if units fronting the street meet entry feature criteria.

Front Entrance:

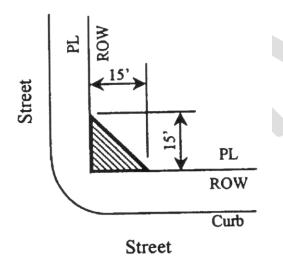

- <u>Definition: The primary pedestrian doorway located on the ground floor of a building facade</u> <u>along a street. A garage door is not considered a front entrance.</u>
- <u>Standards:</u>
 - Each lot with frontage on a street, not including and alley, must provide at least one street-facing entrance.
 - <u>To be considered street-facing, an entrance must face the street it is intended to</u> <u>serve. An entrance directly accessed from a porch, stoop or recessed entry counts as</u> <u>a street-facing entrance, regardless of if it faces the street.</u>
 - <u>The required entrance must provide both pedestrian ingress and egress to the ground story of a building.</u>
 - <u>The required entrance must provide access to occupiable space.</u>
 - <u>The required entrance must provide a minimum 3-foot wide pedestrian connection</u> to the nearest public sidewalk.
 - The required entrance must include one of the following:
 - <u>Porch;</u>
 - <u>Stoop; or</u>
 - <u>Recessed entry.</u>
 - A porch or stoop can encroach up to 4 feet into a required building line.
 - <u>Must provide a separate pedestrian access gate for each front entrance pedestrian</u> walkway along the sidewalk.
 - Must be setback 1' from the property line

Sec. 42-161. Visibility triangles.

The building line for property adjacent to two intersecting streets shall not encroach into any visibility triangle, the triangular area adjacent to the intersection of any street established by measuring a distance of 15 feet from the point of intersection of two streets along the right-of-way of each of the intersecting streets and connecting the ends of each measured distance, to assure adequate visibility sight lines for vehicular traffic approaching the intersection. The maximum height of the visibility triangle shall be 20 feet as measured vertically from the ground.

For lots located on collector or local streets that take rear/side access per 42-188 and qualify for reduced building line of 5 feet, an encroachment into the visibility triangle is allowed above 10 feet as measured vertically from the ground.

Sec. 42-164. Transit-oriented development streets and walkable places streets

(a) This section shall apply to any improvement requiring a building permit or development within a lot on a walkable places street or transit-oriented development street.

- (b) The portion of a lot or development that is adjacent to a primary street shall have a building line requirement of zero feet and the lot or development must comply with the requirements of article IV of this chapter.
- (c) A building line of zero feet is authorized for the portion of a lot or development that is adjacent to a secondary street if the lot or development complies <u>with</u> the requirements of article IV of this chapter. Any lot or development that does not meet the standards of this subsection must be in compliance with the standard building line requirement otherwise required by this article for the corresponding type of street and tract description.

(d) Except when a special minimum building line requirement is applicable, this section shall prevail over the building line requirement otherwise required or authorized by this chapter.

Sec. 42-180. General lot design standards.

- (a) Each lot in a subdivision plat shall be of sufficient size and shape to:
 - (1) Allow for the construction of a single-family residential building that meets the requirements of this Code, the Construction Code, and the design manual;
 - (2) Accommodate an easement for all public and private utilities necessary to serve the singlefamily residential building constructed thereon;
 - (3) Ensure that direct vehicular access is provided from a street, <u>flag staff</u>, shared driveway, or alley <u>unless it meets the courtyard style development requirements of Sec. 42-194</u>; and
 - (4) Provide for the number of parking spaces required by section 42-186 and article VIII of chapter 26 of this Code, as applicable. The size and dimensions of a parking space shall be in conformance with the requirements of the Construction Code.

(b) A lot that will not be served by a wastewater collection system shall meet the minimum requirements of the Texas Commission on Environmental Quality. The applicant shall provide a letter from the Texas Commission on Environmental Quality evidencing compliance with the minimum requirements. In addition, a lot without wastewater collection service that is platted in a special flood hazard area, as determined under the National Flood Insurance Program, shall meet the applicable requirements of the Texas Commission on Environmental Quality, the city, and the county engineer of the county in which the lot is located with respect to the location of the onsite sewage system.

Sec. 42-181. Single-family residential lot size.

- (a) The minimum lot size for a single-family residential lot with wastewater collection service shall be as shown below except for lots within courtyard style development meeting the requirements of Sec. 42-194:
 - (1) 5,000 square feet for a lot within the extraterritorial jurisdiction; or
 - (2) 3,500 square feet for a lot within the city.
- (b) The lot size for a single-family residential lot with wastewater collection service may be less than the minimum lot size provided by subsection (a) if the subdivision plat meets the performance standards of either:
 - (1) The compensating open space performance standards of section 42-182 of this Code; or

- (2) For a subdivision plat within the city, the performance standards of section 42-184 of this Code.
- (c) A subdivision plat shall not include a lot that is less than 1,400 square feet unless the plat meets the following performance standards:
 - (1) The property to be platted is located within the city <u>and all lots within the subdivision take</u> <u>vehicular access from the rear/side via flag staff, shared driveway or PAE;</u>
 - (2) The average lot size within the subdivision plat is greater than or equal to 1,400 square feet. A lot that is larger than 3,500 square feet shall be counted as 3,500 square feet for purposes of the average lot size calculation of this subsection;
 - (3) For the purposes of this subsection, blockface shall have the meaning of 42-1 and further shall include the distances measured from and to shared driveways, intersecting or terminating with shared driveways.
 - (<u>4</u>3) If the subdivision plat contains one or more blockfaces in their entirety, the average lot size of each blockface within the subdivision plat is greater than or equal to 1,400 square feet; and
 - (54) If a subdivision plat includes a lot with a lot size less than 3,500 square feet, any subsequent replat of a lot within the subdivision plat shall maintain an average lot size that is greater than or equal to 1,400 square feet. The average lot size for each subsequent replat shall be based on all lots within the original subdivision plat containing a lot with a lot size less than 3,500 feet. The subdivision plat and all subsequent replats of lots within the subdivision plat shall contain a plat notation stating the requirements of this item.
- (d) <u>The maximum lot size for single family residential lots within courtyard style development per Sec.</u> <u>42-194 is 3,500 square feet;</u>
- (de) The minimum lot size for lots without wastewater collection service shall be in accordance with the requirements of subsection (b) of section 42-180 of this Code;

(e-f) A special minimum lot size requirement established pursuant to subdivision B of this division shall control over all other provisions of this section.

Sec. 42-184. Optional performance standards for the reduction in lot size within the city.

A subdivision plat for property located within the city may provide for a single-family residential lot size of less than 3,500 square feet, but not less than an average of 1,400 square feet, for lots with adequate wastewater collection service, if the subdivision plat meets the following performance standards and includes plat notations requiring compliance with the following performance standards:

- (1) More than 60% of the area of each lot that is less than 3,500 square feet is not covered by buildings, or for a subdivision plat that is solely a replat of a lot on a corner at the intersection of two public streets, more than 75% of the area of the lot is not covered by buildings;
- (2) The subdivision plat provides for at least 150 square feet of permeable area on each lot that is less than 3,500 square feet; and
- (3) The number of single-family residential dwelling units that can be constructed within the proposed subdivision plat does not exceed an equivalent density of 27 units to the gross acre of all land within the boundaries of the subdivision plat.

(4) An equivalent density of 35 units to the gross acre of all land within the boundaries of the subdivision plat is allowed if all lots within the subdivision take vehicular access from the rear or side via an alley, flag staff, shared driveway or PAE.

Sec. 42-185. Minimum width of a lot.

- (a) The minimum width of any lot along a street or shared driveway shall be 20 <u>feet unless otherwise</u> <u>allowed by this ordinance</u>.
- (b) The minimum width of any lot <u>in a subdivision</u> within the city may be 15 feet if <u>all lots within the</u> <u>subdivision plat take vehicular access from the rear/side via flag staff, shared driveway or PAE and</u> the subdivision plat conforms to the following performance standards:
 - (1) The average width of all lots within the subdivision plat is greater than or equal to 18 feet. A lot with a width greater than 30 feet shall be counted as 30 feet for purposes of the average lot width calculation of this subsection;
 - (2) For the purposes of this subsection, blockface shall have the meaning of 42-1 and further shall include the distances measured from and to shared driveways, intersecting or terminating with shared driveways.
 - (23) If the subdivision plat contains one or more blockfaces in their entirety, the average lot width of each blockface within the subdivision plat is greater than or equal to 18 feet; and
 - (34) If a subdivision plat includes a lot with a width of less than 20 feet, any subsequent replat of a lot within the subdivision plat shall maintain an average lot width that is greater than or equal to 18 feet. The average lot width for each subsequent replat shall be based on all lots within the original subdivision plat containing a lot with a width less than 20 feet. The subdivision plat and all subsequent replats of lots within the subdivision plat shall contain a plat notation stating the requirements of this item.

Sec. 42-186. Parking for single-family residential uses.

- (a) Each subdivision plat or development plat providing for a single-family residential use shall provide at least two off-street parking spaces per dwelling unit on each lot except that, in those instances where a secondary dwelling unit of not more than 900 gross square feet is provided, dwelling unit is not more than 1500 sf, only one space shall be required per dwelling unit.
- (b) If the first unit already has two off-street parking spaces;
 - 1. When a secondary dwelling unit of not more than 900 <u>1000 gross square feet is provided, no</u> <u>additional off-street parking spaces shall be required</u>.
 - 2. <u>When a second dwelling unit is greater than 1000 sf but less than 1500 sf</u>, only one additional off-street parking space shall be required.
 - 3. <u>When a second dwelling unit is greater than 1500 sf, 2 additional off-street parking spaces</u> <u>shall be required.</u>
- (c) Each courtyard style development plat per Sec. 42-194 providing for a single-family residential use shall provide one off-street parking space for every dwelling unit less than or equal to 1000 sf and 2 off-street parking spaces per dwelling unit if the units are between 1001-1500 sf.

Single family residential	
Dwelling unit size	Required parking
1500sf or less	<u>1 parking space</u>
More than 1500sf	2 parking spaces
Market based parking near other modes of transit	<u>0 parking space</u>
One additional parking per every 6 units in shared dr	iveway or PAE developments on site
Second dwelling unit	
If first unit has two parking spaces already	
<u>1000 sf or less</u>	<u>O parking spaces</u>
<u>1001 sf -1500 sf</u>	<u>1 parking space</u>
More than 1500 sf 2 parking spaces	
Courtyard style development	
Dwelling unit size	Reduced parking
1000sf or less	<u>1 parking space</u>
<u>1001sf-1500sf</u>	2 parking spaces
Market based parking near other modes of transit	0 parking space
One additional parking per every 6 units on site	

- (d) Lots meeting the requirements of sec 42-188 (d), (e) or (f)(2)a. and courtyard style developments or tracts used for multi-unit residential developments are exempt from 42-186 and Chapter 26 Division 2 of the Code of Ordinances if the property is within ½ mile of transit (rail stations, high frequency bus stops, blue route bus stops in opportunity zones, transit stations, or park and ride stations) or within ¼ mile of high comfort bike paths.
- (e) For lots meeting the requirements of sec 42-188 (d), (e) or (f)(2)a. and courtyard style developments per Sec 42-194 or tracts used for multi-unit residential developments per Sec. 42-237, required parking may be located off the lot or unit but within the development.
- (f-b) Each subdivision plat providing for a single-family residential use on property located within the city that includes a shared driveway or a type 2 permanent access easement with six or more dwelling units shall provide one additional parking space for every six dwelling units within the subdivision plat boundary. Dwelling units on a lot that includes a parking space in excess of the parking requirements of subsection (a) of this section shall not be counted in determining the required number of additional parking spaces required by this subsection. Each additional parking space shall conform to the following requirements:
 - (1) The size and dimensions of the parking space shall be in conformance with the requirements of the Construction Code;
 - (2) The parking space shall be placed within the boundaries of the subdivision plat; unless the parking space abuts:

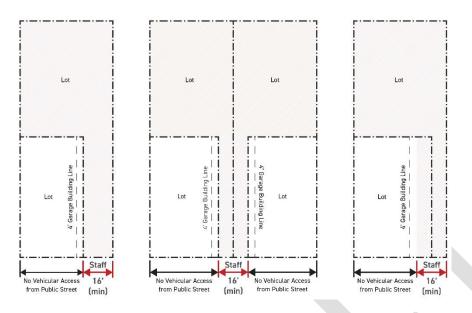

a. continuous curb along a public street that is adjacent to or within the plat boundary and that is not a major thoroughfare; or

b. Culverts installed in accordance with the requirements of the design manual along an open ditch street adjacent to or within the subdivision plat boundary;

- (3) For a subdivision plat where the lots abut a type 2 permanent access easement and take vehicular access only from a private alley, a parking space may be included within the type 2 permanent access easement;
- (4) The parking space shall not be placed within a shared driveway or within a lot;
- (5) The parking space shall not be placed where parking is prohibited by law; and <u>the parking space shall be placed a minimum of 20 feet from the property line of designated major thoroughfares and major collectors on the most recent Major Thoroughfare and Freeway Plan and from existing high-comfort bike lanes;</u>
- (6) The parking space shall be accessible to all residents of each dwelling unit of the subdivision plat via an internal path of either the shared driveway, type 2 PAE paving or an improved walkway surface within the subdivision meeting accessibility requirements in accordance with IDM standards with a minimum width of 3 feet in accordance with Ch 40 sidewalk regulations.

Sec. 42-187. Flag lots.

- (a) Each flag lot <u>development</u> shall provide for <u>combined</u> vehicular access to the principal portion of <u>theall lots</u> through the staff.
- (b) If a flag lot derives its access solely from its own staff, t The minimum width of the staff shall be 20 16 feet and can be split equally among all lots. The entire width of the staff need not be paved.
- (c) If a flag lot derives its access in common with another lot, the combined common access shall have a minimum width of 20 feet. All lots with street or shared driveway frontage narrower than 40' and abutting the flag staff must take vehicular access from the staff. If the garage is parallel to the length of the flag staff, the distance between the face of the garage and the farthest edge of the staff shall be 20 feet.
- (d) <u>The total length of the staff and driveway cannot be longer than 200 feet from the street ROW with paving.</u>

(d e) Any area required to be used for vehicular access purposes shall be depicted by a note on the subdivision plat that restricts the portions of the lots for ingress and egress only and that precludes construction of any building, structure, wall or fence within those portions. If the vehicular access is to be shared, t-The plat note shall clearly indicate the joint or shared nature of the access.

Sec. 42-188. Lot access to streets

- (a) Each lot shall have access to a street or shared driveway that meets the requirements of this chapter and the design manual, subject to the limitations of this section <u>except for lots within</u> <u>courtyard style development per Sec. 42-194.</u>
- (b) A single-family residential lot shall not have direct vehicular access to a major thoroughfare unless:
 - (1) The lot takes vehicular access to a major thoroughfare through a shared driveway that meets the requirements of subdivision B of division II of this article; or <u>the lot takes vehicular access</u> to a major thoroughfare through a flag lot staff that meets the requirements of Sec 42-187.
 - (2) The lot is greater than one acre in size and the subdivision plat contains a notation adjacent to the lot requiring a turnaround on the lot that prohibits vehicles from backing onto the major thoroughfare.
- (c) Lots that front on or take access from a permanent access easement must be a part of a unified development scheme where the owners of all lots within the subdivision are legally bound together by deed restriction, contract or any other constituted and binding homeowners association, corporation, or other organization with, as one of its purposes, the continued care and maintenance of all commonly owned properties within the subdivision, particularly the areas established as permanent access easements, and the authority and means to impose binding assessments upon the lot owners for that purpose. Each subdivision plat that contains a permanent access easement shall contain the following notation on the face of the plat:

"THIS SUBDIVISION CONTAINS ONE OR MORE PERMANENT ACCESS EASEMENTS THAT HAVE NOT BEEN DEDICATED TO THE PUBLIC OR ACCEPTED BY THE CITY OF HOUSTON OR ANY OTHER LOCAL GOVERNMENT AGENCY AS PUBLIC RIGHTS-OF-WAY. THE CITY OF HOUSTON HAS NO OBLIGATION, NOR DOES ANY OTHER LOCAL GOVERNMENT AGENCY HAVE ANY OBLIGATION, TO MAINTAIN OR IMPROVE ANY PERMANENT ACCESS EASEMENT WITHIN THE SUBDIVISION, WHICH OBLIGATION SHALL BE THE SOLE RESPONSIBILITY OF THE OWNERS OF PROPERTY IN THIS SUBDIVISION."

Lots within a courtyard style development must be a part of a unified development scheme where the owners of all lots within the subdivision are legally bound together by deed restriction, contract or any other constituted and binding homeowners association, corporation, or other organization with, as one of its purposes, the continued care and maintenance of all commonly owned properties within the subdivision, particularly the areas established as courtyards, parking, pedestrian pathways and courtyard access drives, and the authority and means to impose binding assessments upon the lot owners for that purpose. The common areas and courtyards within the development cannot be replatted into any other use and are subject to 42-193. Each subdivision plat that contains a courtyard style development shall contain a notation on the face of the plat.

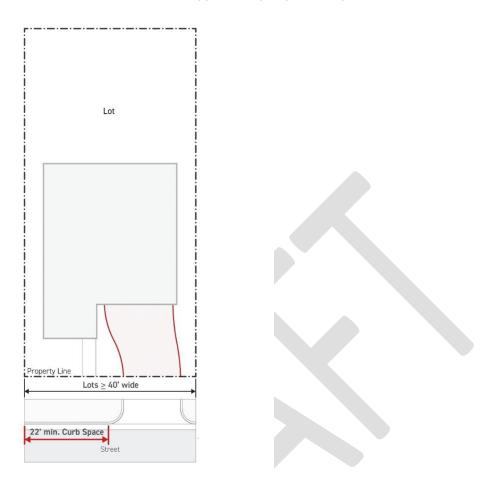

(d) All properties abutting an alley will take vehicular access from the alley or flag staff, shared driveway, PAE that connects to the alley when possible

(e) All corner properties adjacent to an undeveloped or inaccessible alley, vehicular access shall be

- 1. from the alley after improving it OR;
- 2. from the side street via flag staff, shared driveway or PAE that connects to alley when possible.

(f) If property is adjacent to an undeveloped or inaccessible alley midblock or is not abutting an alley,

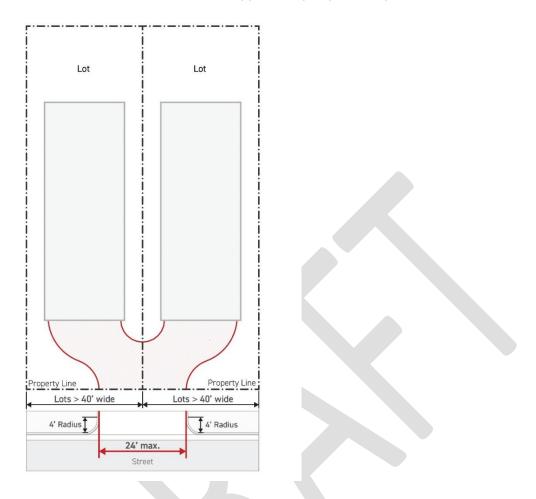

1. When proposing lots with 40 feet or more frontage on a public street, at least 22 feet of frontage must be unobstructed curb space, and 1/3 of the structure facing the street must be occupiable space.

2. When proposing one or more lots with less than 40 feet of frontage on a public street, the following shall apply:

a. Vehicular access will be through the flag staff, a shared driveway or PAE; OR

b. Vehicular access can be through a combined driveway approach with a maximum width of 24, being 12 feet for each lot, on property less than or equal to 15,000 sf. Individual driveways shall be maximum 12 feet wide for a narrow lot when proposing an odd number of lots that are less than 40 feet wide.

- (d) When a tract along a transit-oriented development street or walkable places street is subdivided, a single-family residential lot within this new subdivision shall not be designed to have direct vehicular access to the TOD street or WP street unless <u>opting-in and</u>:
 - (1) The lot takes vehicular access to the TOD street or WP street through a shared driveway that meets the requirements of subdivision B of division II of this article; or

(2) The lot is greater than one acre in size and the subdivision plat contains a note prohibiting vehicles from backing onto the transit-oriented development street or walkable places street and requiring the turnaround to be located wholly outside the pedestrian realm.

Sec. 42-190. Tracts for non-single-family use-Reserves.

- (a) A tract of land that is not restricted to single-family residential use shall not be designated on a subdivision plat as a lot but shall be designated as a reserve and shall be subject to those provisions of this chapter pertaining to reserves.
- (b) A subdivision plat shall identify each reserve by alphabetical letter and shall show the total acreage of the reserve within the delineated reserve boundaries. The applicant may note on the plat the use intended for each reserve. The applicant shall identify a reserve tract for which it has not determined a use as an unrestricted reserve.

(c) Each reserve shall meet the following requirements for minimum size, the type and width of street or shared driveway on which it may be located, and the minimum frontage, as applicable to the type of reserve:

TYPE OF RESERVE	MINIMUM SIZE	TYPE OF STREET OR SHARED DRIVEWAY	MINIMUM STREET OR SHARED DRIVEWAY WIDTH	MINIMUM STREET OR SHARED DRIVEWAY FRONTAGE
Unrestricted reserve	5,000 sq. ft.	public street	60 feet (50 feet in a street width exception area)	60 feet
MUR Reserve per Sec. 42-237	<u>3500sf</u>	public street or type 1 permanent access easement	60 feet (50 feet in a street width exception area)	<u>50 feet</u>
Restricted reserve – Courtyard per Sec. 42-194	<u>480sf</u>	public street or type 1 permanent access easement	<u>50 feet</u>	<u>12 feet</u>
Restricted reserve—Lift station	Minimum size required by the design manual	public street or type 1 permanent access easement	50 feet	20 feet
		Temporary access easement if the reserve meets the standards of section 42-19 ^O (d)	Temporary access easement if the reserve meets the standards of section 42-19 <u>0</u> (d)	
Restricted reserve— Compensating open space	240 sq. ft.	public street or type 1 permanent access easement	50 feet	12 feet
		type 2 permanent access easement	28 feet	
		shared driveway	16 feet	
Restricted reserve— Landscape or open space	None required	None required	None required	None required
Restricted reserve— Recreation	5,000 sq. ft.	public street or type 1 permanent access easement	50 feet	50 feet
		<u>Type 2 PAE</u>	<u>28 feet</u>	<u>50 feet</u>
		Shared driveway	<u>16 feet</u>	<u>50 feet</u>
Restricted reserve— Drainage or detention	None required	public street	50 feet	20 feet
		permanent access easement	28 feet	
		shared driveway owned by homeowners association	16 feet	16 feet

		None if adjoining existing reserve restricted to drainage or detention	None if adjoining existing reserve restricted to drainage or detention	None if adjoining existing reserve restricted to drainage or detention
Restricted reserve— Wastewater treatment, water production, or water repressurization	5,000 sq. ft.	public street or type 1 permanent access easement	50 feet	50 feet
		Temporary access easement if the reserve meets the standards of section 42-190(d)	Temporary access easement if the reserve meets the standards of section 42-190(d)	
		None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization	None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization	None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization
Restricted reserve—Parking	Minimum size requirement for a parking space specified in the Construction Code	public street or type 1 permanent access easement	50 feet	Minimum width of a parking space required by the Construction Code
		type 2 permanent access easement	28 feet	
		shared driveway	16 feet	
Restricted reserve—All other	5,000 sq. ft.	public street	60 feet (50 feet in a street width exception area)	60 feet

(d) A reserve may take access via an access easement temporarily until the adjacent public streets within the general plan are platted with abutting sections if all of the following conditions are met:

- (1) The reserve is specifically restricted to lift station, wastewater treatment, water production, or water repressurization;
- (2) The access easement is temporary and non-exclusive that must be recorded prior to the recordation of the plat in a form approved by the city attorney;
- (3) The access easement aligns with the public street pattern identified in the current approved general plan;

- (4) The minimum width of the access easement must be 30 feet with all-weather road surface and shall comply with all applicable Design Manual, Fire Code, city, county, and Texas Commission of Environmental Quality (TCEQ) requirements; and
- (5) The minimum street width and minimum frontage requirements otherwise required by this section must be met as other sections abutting the reserve are recorded."

Sec. 42-191. One-foot reserves.

Subdivision plats shall provide a one-foot reserve within the street right-of-way as a buffer strip dedicated to the public to prevent access to public streets when a proposed public street stub ends into adjacent acreage or where the proposed public street is adjacent to the plat boundary and abutting acreage.

The following notation shall be placed upon the face of the subdivision plat:

"ONE-FOOT RESERVE DEDICATED TO THE PUBLIC IN FEE AS A BUFFER SEPARATION BETWEEN THE SIDE OR END OF STREETS WHERE SUCH STREETS ABUT ADJACENT PROPERTY, THE CONDITION OF THIS DEDICATION BEING THAT WHEN THE ADJACENT PROPERTY IS SUBDIVIDED OR RE-SUBDIVIDED IN A RECORDED SUBDIVISION PLAT, THE ONE-FOOT RESERVE SHALL THEREUPON BECOME VESTED IN THE PUBLIC FOR STREET RIGHT-OF-WAY PURPOSES AND THE FEE TITLE THERETO SHALL REVERT TO AND REVEST IN THE DEDICATOR, HISTHEIR HEIRS, ASSIGNS OR SUCCESSORS."

Sec. 42-230. Application requirements.

- (a) In addition to the information otherwise required to be submitted for a development plat, a development plat that provides for the development of one or more multi-family <u>or multi-unit</u> residential buildings shall provide the following information:
 - The number of separate buildings that will contain multi-family multiple residential dwelling units;
 - (2) The location of the principal entrance to each multi-family multiple residential building;
 - (3) The total number of dwelling units;
 - (4) An itemized listing of multi-family residential dwelling units existing and proposed within the property indicating the number of bedrooms in each dwelling unit; and
 - (5) The number, location and dimensions of off-street parking spaces required to serve the dwelling units pursuant to section 42-234 of this Code or section 26-492 Article VIII.

(b) When property is replatted to remove a one-foot restricted reserve, the subdivision plat shall additionally provide all of the information required for a development plat and required by subsection (a) of this section and shall be deemed a development plat for the purposes of this division.

Sec. 42-233. Fire protection.

(a) Fire hydrants shall be located along each private street in a manner that will allow firefighting apparatus to park and connect by hose to a hydrant not more than 300 feet away and reach any part of any building within the development with a 200-foot-long hose extending from the equipment. The hose distance shall be measured as laid on the ground, around buildings, fences

and other obstacles, and not as an aerial radius from a hydrant or parked equipment. Notwithstanding the foregoing, fire hydrants shall be located not more than 600 feet apart, unless the fire chief approves a different configuration where, in <u>histheir</u> professional judgement, fire protection needs can be adequately provided.

- (b) If a multi-family residential building will be constructed over and across a private street, the unobstructed overhead clearance of the multi-family residential building shall be not less than 14 feet measured between the highest point of the private street paving under the building and the lowest part of the building or associated parts thereof.
- (c) The fire chief shall review and approve each development plat that provides for one or more multifamily residential buildings and shall provide the director with recommendations regarding the adequacy of the design of the development to provide sufficient emergency access to all buildings by firefighters and firefighting equipment, considering the kinds of equipment and methods of firefighting in use by the fire department of the city, the location of buildings in the proposed development and their relationship to existing and proposed fire hydrants and any other factors that may affect the safety and general welfare of the public and the occupants of the buildings to be constructed.

Sec. 42-251. Applicability.

- (a) The regulations contained in this division shall be applicable to all property within the city limits of the city proposed to be developed in whole or in part for single family residential, <u>multi-unit</u> <u>residential</u> or multifamily residential purposes for which a subdivision plat or development plat is required, unless otherwise noted herein.
- (b) These regulations do not apply to replats of land owned by a governmental unit.

Sec. 42-252. Park dedication required.

- (a) Each single-family residential subdivision, <u>multi-unit residential development</u>, and multifamily residential development shall provide one or a combination of the following for park or open space purposes:
 - (1) Fee simple dedication of land suitable in type and location for development of parks within the park sector in which the subdivision or development is located, which land may be, but is not required to be, located within the subdivision or development creating the dedication requirement; or
 - (2) Payment of fees in lieu of the dedication of land for parks in the amount established in section 42-253 of this Code.
- (b) The amount of land required to be dedicated for parks shall be proportionate to the development calculated on the basis of the following formula:

<u>10 ac. × No. of DU ×</u> <u>PPDU</u> <u>1000</u>

Where:

DU = the number of dwelling units in the development;

PPDU = 1.8, the number of persons per dwelling unit for each dwelling unit; and

1000 = the number of residents per 10 acres of park land.

- (c) Recordation of a subdivision plat subject to the requirements of this section shall require one or a combination of the following necessary to satisfy the requirements of subsection (a) of this section taking into account any credits authorized pursuant to section 42-254 of this Code:
 - (1) For land dedicated to parks within the subdivision, a fee simple dedication on the subdivision plat of the required park land as approved by the parks director;
 - (2) For land dedicated to parks outside the subdivision, evidence of recording in the appropriate real property records of a deed of the required park land as approved by the parks director;
 - (3) For land established as private park, identification of the required amount of private park as one or more restricted reserves with the following notation on each private park reserve within the subdivision:

'RESERVE RESTRICTED TO PRIVATE PARK PURSUANT TO CHAPTER 42 OF THE CODE OF ORDINANCES, CITY OF HOUSTON, TEXAS. THIS PRIVATE PARK DESIGNATION MAY NOT BE CHANGED WITHOUT APPROVAL OF THE PLANNING COMMISSION OF THE CITY OF HOUSTON, TEXAS.'

Land established as a private park for the purposes of this section may not be replatted to change this designation pursuant to section 212.0146 of Chapter 212 without the approval of the commission. The commission shall not approve a replat that would change the private park designation unless it determines that alternative private park space that satisfies the requirements of this subsection is available within the original subdivision generating the dedication requirement.

- (4) Confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount established pursuant to section 42-253 of this Code; or
- (5) A statement on the plat that payment of a required fee in lieu of dedication has been deferred and shall be paid at the then-current fee prior to the issuance of a building permit for each single-family dwelling unit within the subdivision.
- (d) Issuance of a building permit for a single-family dwelling unit in a subdivision subject to the requirements of this section for which the payment of fees in lieu of dedication has been deferred pursuant to item (5) above shall require confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount per dwelling unit then required by section 42-253 of this Code.
- (e) Issuance of a building permit for a <u>multi-unit residential or</u> multifamily residential development subject to the requirements of this section shall require one or a combination of the following necessary to satisfy the requirements of subsection (a) of this section taking into account any credits authorized pursuant to section 42-254:
 - (1) For land dedicated for park purposes, evidence of recording in the appropriate real property records of a general warranty deed of the required park land as approved by the parks director;

- (2) Identification of the required amount of private park on an approved development plat; or
- (3) Confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount established pursuant to section 42-253 of this Code.
- (f) If the calculation in subsection (b) of this section results in a requirement of less than one-half acre for property located in the area within and bounded by Interstate Highway 610 or one acre for property located in the area outside of Interstate Highway 610, the parks director may require the developer to pay the fee in lieu of land dedication as provided in section 42-253 of this Code. The parks director may approve the dedication of less than one-half acre of property in the area within and bounded by Interstate Highway 610 or one acre of property in the area outside of Interstate Highway 610 if the proposed park is a pocket park the need for which is identified in the Parks Master Plan, is adjacent to an existing park or other public space, provides access to a park, or otherwise presents an opportunity to enhance the city parks system consistent with the Parks Master Plan. This limitation, however, shall not apply to limit the size of compensating open space, which shall be governed by section 42-182 of this Code.
- (g) Notwithstanding any other provision of this section, the owner of property for which dedication is required may pay a fee in lieu of dedication in the amount determined pursuant to section 42-253 of this Code, and the parks director shall not refuse any payment of a fee in lieu of dedication.

Sec. 42-273. Major activity center designation.

- (a) The city council may designate any area within the city as a Major Activity Center that meets each of the following criteria:
 - (1) The area contains two or more major thoroughfares or abuts a freeway, tollway, or transit corridor street;
 - (2) The area is comprised of at least 400 acres of land;
 - (3) The area is comprised of at least 10,000,000 square feet of gross floor area developed for uses other than single-family residential use;
 - (4) Not more than three percent of the area is in use for or restricted to single-family residential use;
 - (5) The area contains properties used for two or more of the following uses: office, commercial, institutional, or multi-family.
 - (6) The area is comprised of contiguous tracts and contains no out tracts as determined by the director in <u>histheir</u> sole professional judgment.
- (b) The city council may expand the boundaries of a MAC to include any area abutting the MAC if the boundaries of the MAC as expanded continue to satisfy the criteria of subsection (a) of this section.
- (c) An application for the designation or expansion of a MAC shall be filed with the department by one or more owners of property within an area that meets the criteria of subsection (a) of this section and shall be made on an application form provided by the department. The director shall forward applications that meet the criteria of subsection (a) of this section to the commission which shall hold a public hearing on the application.

- (d) The director shall cause notice to be given of a public hearing before the commission to each owner of property within the proposed MAC or area proposed to be added to a MAC and each owner of property in use for or restricted to single-family residential use within 250 feet of the proposed area as shown on the current appraisal district records. Notice shall be given by United States mail no later than 30 days before the date of the public hearing. The applicant shall give notice of the public hearing before the commission by posting at least two signs within the boundaries of the proposed MAC no later than 30 days before the date of the public hearing. The signs shall be placed at locations selected by the director as reasonably calculated to be seen by occupants of property within the proposed MAC and facing at least one public right-of-way. Each sign shall be a minimum of four by eight feet in size, and shall contain at a minimum the following items of information:
 - (1) That the area is being considered for designation as a MAC;
 - (2) A general description of the area being considered for designation;
 - (3) The date of the public hearing on the designation; and
 - (4) The name and telephone number of a person within the department who can be contacted for additional information.

If the director, in <u>histheir</u> sole discretion, determines that the size, configuration, traffic patterns or other characteristics of the proposed area warrant the placement of additional signs, the director shall cause an appropriate number of additional signs to be posted. All costs associated with the notice provisions of this section are to be paid by the applicant.

- (e) After the close of the public hearing, the commission shall vote on whether to recommend to the city council the designation of the proposed area that meets the criteria of subsection (a). If the commission votes to recommend the designation of the proposed area, by majority vote of those members present and voting, the director shall forward the recommendation to city council for consideration. If the commission does not vote to recommend the designation of the proposed area, the action of the commission with respect to the application is final. If the commission does not recommend designation of an area as a MAC or as an addition to a MAC, the department shall not accept an application for designation of the same or substantially the same area for one year following the date of the commission action.
- (f) Upon receipt of the recommendation of the commission, the city council shall hold a public hearing on the recommendation. After the close of the public hearing the city council shall consider the recommendation of the commission and, consistent with the criteria of subsection (a), approve or deny the proposed designation. The decision of the city council with respect to a designation shall be final. If the city council does not designate an area proposed as a MAC, the department shall not accept an application for designation of the same or substantially the same area for one year following the date of the city council action.

Sec. 42-237. Multi-Unit Residential (MUR) Performance Standards

One or more buildings on a single tract designed for and containing 3 to 8 dwelling units that meets the MUR performance standards. Multi-Unit Residential includes multiple duplexes, triplexes, quadruplexes, apartments and condominiums.

1.1.1. Intent

A. To incentivize a greater range of naturally occurring affordable housing options.

B. To encourage more small-scale multi-unit housing options.

- <u>C. To promote more compact development patterns with street facing homes.</u>
- D. To promote access and proximity to an expanded set of mobility options.
- E. To better utilize land closer to existing infrastructure.
- F. Fire safety services can be provided from the public street

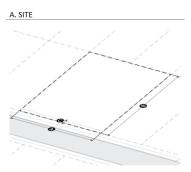

1.1.2. Applicability

The MUR performance standards apply as shown below:

	Site with No Buildings	Site with Existing Buildings			gs
		Site	New Building	Existing	Addition to Existing Building
Site Dimensions	•	•	-	-	-
Dwelling Units	•	•	-	-	-
Building Line	•	-	•	-	•
Vehicle Access	•	•	-	-	-
Parking Ratios	•	•	-	-	-
Parking Location	•	-	•	-	•
Massing	•	-	•	-	•
Transparency	•	-	•	-	•
Pedestrian Access	•	•	-	-	-
	= Standard	s apply	- = Standards	s are not app	licable

1.1.3. Summary of performance standards

1.1.3. SUMMARY OF PERFORMANCE STANDARDS

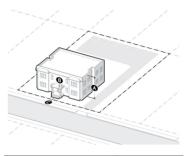

1. Site Dimensions	Sec. XX
a Site frontage (min)	50'
b Depth (max)	150'
2. Dwelling Units	Sec. XX
Per site (min/max)	3/8
3. Building Lines	Sec. XX
C Street (min)	5'
4. Front Yard Fencing	Sec. XX
Height (max)	4'

1. Vehicle Access	Sec. XX
Access from alley (where existing)	Required
a Curb cuts per street front (max)	1
b Drive width (min/max)	10'/16'
2. Parking Ratios	Sec. XX
Spaces per unit (min)	
Up to 1,500 SF	1
More than 1,500 SF	2
Guest spaces (min)	1 per 6 units
Spaces required within ½ mile of transit/ ¼ mile of high comfort bike lane	Market-based
3. Parking Location	Sec. XX
On-site	Required
Off-site	Not allowed
Between building and street	Not allowed

C. BUILDINGS/STREET ACTIVATION

1. N	Aassing	Sec. XX	
а	Building height (max)	30'	
2. P	edestrian Access	Sec. XX	
В	Street-facing entrance	Required	
с	Pedestrian connection to public sidewalk	Required	

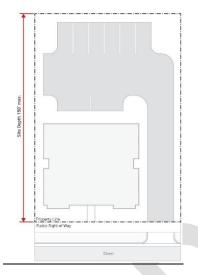

1.1.4. Performance standards

Projects that use the MUR performance standards must meet the following requirements.

A. Site Dimensions

<u>1. Site Frontage: A site must have 50' frontage on a public street right-of-way that meets the requirements of Sec. 42-122, not including an alley.</u>

2. Site Depth: No portion of a site can be more than 150 feet from a public street right-of-way containing a roadway, not including an alley.

<u>B. Dwelling Units: A site must contain at least 3 dwelling units but can have no more than 8 dwelling units.</u>

C. Building Lines: The building line requirement for a habitable structure along a public street right-ofway, not including an alley is 5 feet except along major thoroughfares. A reduced building line of 15 feet is authorized for a habitable structure along major thoroughfares with right-of-way 80 feet or less. Provide pedestrian connections to the sidewalk.

D. Front Yard Fencing: A fence in a front yard should be non-opaque decorative fence and no more than <u>4' in height.</u>

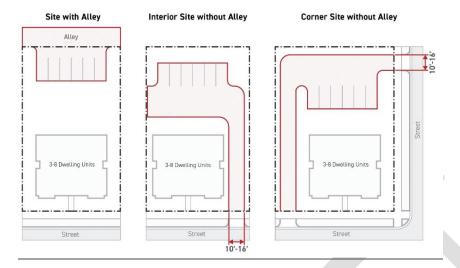

E. Vehicle Access

1. Where the property abuts an alley, vehicular access is provided from that alley.

2. On an interior site without alley access, or along an undeveloped alley, one driveway (curbcut) to or from a street is allowed.

3. On a corner site without alley access, vehicular access is provided from the side street. No more than two driveways (curb-cuts), one per street frontage are allowed per site.

4. A drive to or from a street must be at least 10 feet wide but can be no wider than 16 feet.

F. Parking Ratios

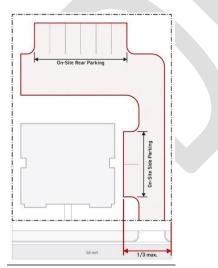

1. One parking space must be provided for every dwelling unit 1,500 square feet or less in size.

2. Two parking spaces must be provided for every dwelling unit over 1,500 square feet in size.

3. One guest parking space must be provided for every 6 dwelling units.

4. Market based parking for property located within ½ mile of transit (rail stations, high frequency bus stops, blue route bus stops in opportunity zones, transit stations, or park and ride stations) or within ¼ mile of high comfort bike paths. 5. When market-based parking is applied, one bike parking space must be provided per each dwelling unit.

<u>G. Parking Location: All required parking spaces must be provided on-site. When provided, all off-street</u> parking must be located to the side or rear of any improvements on the property.

H. Massing

1. Building Height:

a. No building on the site can exceed 30 feet in height.

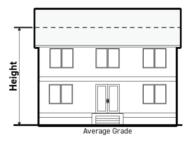

b. Maximum building height is measured as the number of feet from average grade to:

i. The mid-point of the roof, for a building with a pitched roof (with slope more than 3:12);

ii. The top of the roof deck, for a building with a flat roof (with slope 3:12 or less); and

iii. The topmost point of the structure, for all other structures.

PITCHED ROOF BUILDING

FLAT ROOF BUILDING

J. Pedestrian Access

1. Street-Facing Entrance

a. All units along the street must provide street-facing entrance

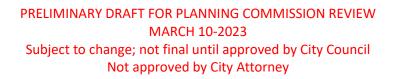

b. To be considered street-facing, an entry feature must face the street it is intended to serve. An entrance directly accessed from an entry feature counts as a street-facing entrance, regardless of if it faces the street or not.

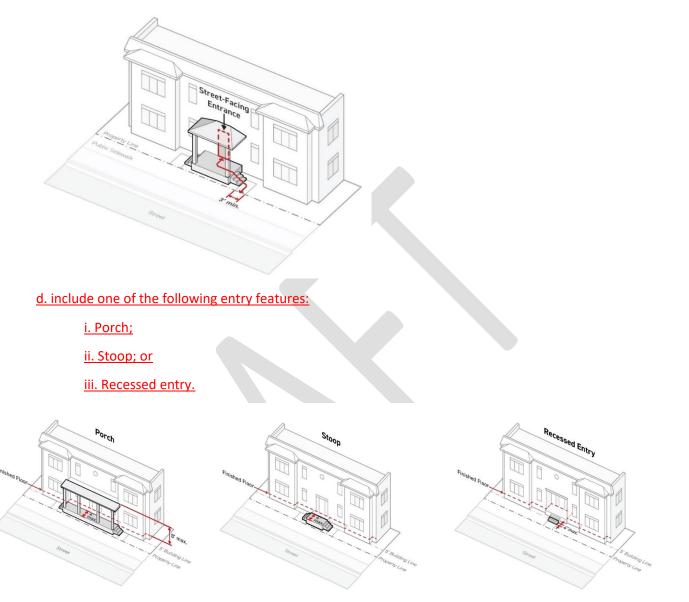

2. Entrance Standards: The required entrance must

a. provide both pedestrian ingress and egress to the ground floor of a building.

b. provide access to occupiable space.

c. provide a minimum 3-foot-wide pedestrian connection to the nearest public sidewalk.

3. Encroachment: A porch or stoop can encroach up to 4 feet into the required building line provided there is adequate room for sidewalks and all utilities, and it does not have structures above the first floor.

Sec. 42-194. Courtyard Style Development Performance Standards

<u>A group of small single-family residential lots arranged around a shared open space that meets the</u> <u>Courtyard style development performance standards. Units can be attached or detached but no more</u> <u>than 2 units can be on an individual lot.</u>

1.2.1. Intent

- A. To incentivize a greater range of naturally occurring affordable housing options.
- B. To encourage smaller single-family residential homes that provide functioning open space.
- C. To promote compact development patterns.
- D. To promote access and proximity to an expanded set of mobility options.
- E. To better utilize land closer to existing infrastructure.

1.2.2. Applicability

<u>A. These standards can only be used on property platted as a unified courtyard style development with</u> <u>single-family restricted lots, reserves and courtyard access drive. Courtyard here does not include roof</u> top courtyards.

B. The Courtyard style development performance standards apply as shown below.

	Site with No Buildings	Site with Existing Buildings			
		Site	New Building	Reuse of Existing Building	Addition to Existing Building
Site Dimensions	•	•	-	-	-
Building Line	•	-	٠	-	٠

3. P	edestrian Access	Sec. XX
С	Street-facing entrance	Required
D	Pedestrian connection to	Required

1.2.4. Performance Standards

Projects that use the Courtyard style development performance standards must meet the following requirements.

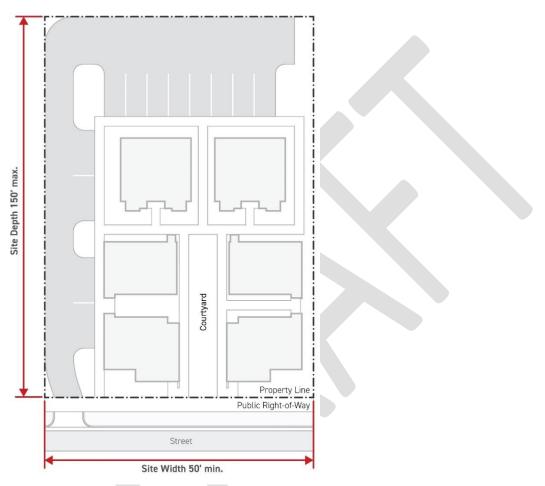

A. Site Requirements

Courtyard (min)

<u>1. Site Frontage: A site must have frontage 50-foot frontage on a public street right-of-way that meets</u> the requirements of Sec. 42-122, not including an alley.

2. Site Depth: No portion of a site can be more than 150 feet from a public street right-of-way containing a roadway, not including an alley.

3. Site Width: A site must be at least 50 feet in width.

- 4. Lot Area: No individual lot can be more than 3,500 square feet in area.
- 5. Unit Size: No unit on a site can exceed 1,500 square feet in floor area.
- 6. Number of Lots: A site must contain at least 3 lots.

7. Lot Frontage:

Each lot on the site must have frontage on one of the following:

a. A public street or alley that meets the requirements of Sec. 42-122;

b. A courtyard that meets the requirements of Sec. 1.2.4.C;

c. A courtyard access drive that meets the requirements of Sec. 1.2.4.D.

d. A pedestrian pathway that is at-least 3 feet wide and connects the dwelling units to courtyard space, parking, and public street.

B. Building Lines

<u>1. Street: The building line requirement for a habitable structure along a public street right-of-way other</u> than major thoroughfare and not including an alley, is 5 feet. A reduced building line of 15 feet is authorized for a habitable structure along major thoroughfares with right-of-way 80 feet or less. Provide pedestrian connections to the sidewalk. All units along the public street must face the street with an entry feature.

2. Courtyard: The building line requirement for a structure along a courtyard is 0 feet but there must be at least 20 feet between opposing building facades across the courtyard, measured from edge to edge of the courtyard, including any pedestrian walkways. A courtyard must be at least 12 feet wide and 12 feet deep.

C. Courtyard Requirements

1. General Requirements

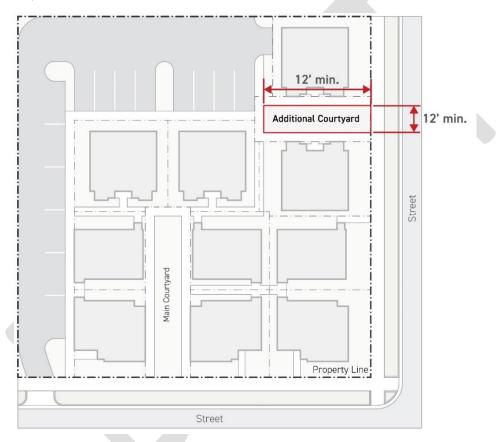

a. In total, 150 square feet of courtyard area must be provided on-site for every lot.

b. At least one courtyard must be provided on-site, and that courtyard must be at least 480 square feet in area, measured from edge to edge of the courtyard, including any pedestrian walkways. This must be designated as the main courtyard for the project.

c. A least half of all lots must front the main courtyard. To be considered fronting, at least 50% of the width or depth of the lot must front the main courtyard. This could be the front, rear or side lot line.

<u>d. Lots and buildings that front the main courtyard must meet the courtyard activation</u> requirements as described below.

e. Additional courtyards are allowed in order to meet the 150 square foot per lot requirement, but additional courtyards don't have to meet the minimum area of 480 square feet but must meet the minimum width and depth standards below to receive credit for the courtyard requirement.

f. Courtyards must be located at grade and may be a mix of impervious or pervious material and may contain elements such as patios, seating areas, landscaping, lighting, and pedestrian walkways.

2. Courtyard Activation

a. Each lot with frontage on the main courtyard must provide an entrance that faces the courtyard.

i. The entrance must provide both pedestrian ingress and egress to the first floor of a building.

ii. The entrance must provide access to occupiable space.

iii. The entrance must provide a minimum 3-foot-wide pedestrian connection to the main courtyard.

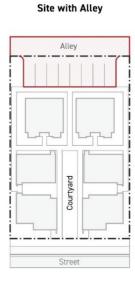

b. A fence with frontage on the main courtyard cannot exceed 3.5 feet in height. If a fence is installed, a pedestrian access gate must be provided for access to the main courtyard.

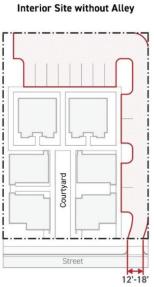

D. Vehicle Access

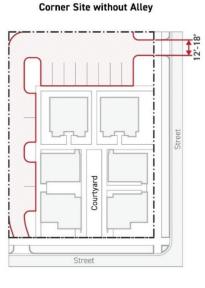

<u>1. Where an alley that meets the requirements of Sec. XX abuts a site, all vehicle access must take place from that alley.</u>

2. On a site without alley access, or abutting an undeveloped alley midblock, a driveway (curb-cut) is allowed every 75 feet along each street frontage, measured along the property line from edge to edge of the pavement from all existing and proposed driveways located on-site only - does not apply to abutting properties.

<u>3. A driveway to or from a street must be at least 12 feet wide but can be no wider than 18 feet,</u> measured from edge to edge of driveway along the property line.

E. Parking Ratios

1. One parking space must be provided for every dwelling unit 1,000 square feet or less in size.

2. Two parking spaces must be provided for every dwelling unit over 1,000 square feet in size.

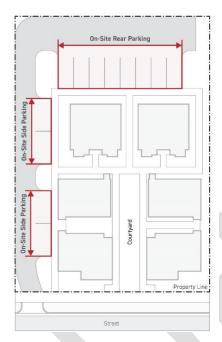

3. One guest parking space must be provided for every 6 lots.

4. Market based parking for property located within ½ mile of transit (rail stations, high frequency bus stops, blue route bus stops in opportunity zones, transit stations, or park and ride stations) or within ½ mile of high comfort bike paths. 5. When market-based parking is applied, one bike parking space must be provided per each dwelling unit.

F. Parking Location

1. All required parking spaces must be provided on-site located on the rear or side of the site.

2. Consolidated parking located to the side or rear of the site that is detached from individual lots is allowed. Pedestrian access must be provided from consolidated parking areas to each lot the parking area is intended to serve.

3. When provided, no parking space can be located between a street or courtyard and building facade that faces a street or courtyard.

G. Massing

1. Building Height

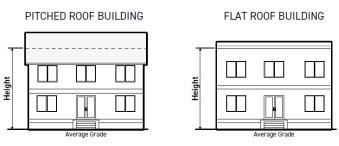

a. No building on the site can exceed 30 feet in height.

b. Maximum building height is measured as the number of feet from average grade to:

i. The mid-point of the roof, for a building with a pitched roof (more than 3:12);

ii. The top of the roof deck, for a building with a flat roof (3:12 or less); and

iii. The topmost point of the structure, for all other structures.

2. Encroachments

The following encroachments are allowed beyond the maximum height limit:

Building Elements and Equipment Attached to or integrated onto the top of a building, not intended for human occupation. Examples include HVAC equipment, wind turbines, solar panels, solar water heaters, exhaust ducts, smokestacks, ventilation fans, chimneys, flues, and vent stacks.	3' max
Safety Barriers Used for safety, screening or protection. Examples include fencing, walls, parapets and railings.	6' max
Vertical Circulation Floor area used only for rooftop access.	10' max
Unenclosed Structures Attached to or integrated onto the roof of a building, intended for human shelter or activity. Examples include shade structures, cabanas, pergolas, outdoor dinning, permanent seating, peehives, and cooking facilities.	8' max

I. Pedestrian Access

<u>1. Street-Facing Entrance</u>

a. All lots with frontage on a public street, not including an alley, must provide at least one street facing entry feature.

b. To be considered street-facing, an entrance must face the public street it is intended to serve. An entrance directly accessed from a porch, stoop or recessed entry counts as a street-facing entrance, regardless of if it faces the public street.

2. Entrance Standards

<u>a. The required entrance must provide both pedestrian ingress and egress to the first floor of a</u> building.

b. The required entrance must provide access to occupiable space.

c. The required entrance must provide a minimum 3-foot-wide pedestrian connection to the nearest public sidewalk.

d. The required entry feature must include one of the following:

i. Porch;

<u>ii. Stoop; or</u>

iii. Recessed entry.

3. Encroachment

A porch or stoop can encroach up to 4 feet into the required building line and cannot have structures above the first floor.

Margaret Wallace Brown Director P.O. Box 1562 Houston, Texas 77251-1562

T. 832.393.6600 F. 832.393.6661 www.houstontx.gov

_____, 2023

Dear Property Owner:

Reference Number: 2022-2901; Alani Homes at Carolwood replat no 1; a replat of **Alani Homes at Carolwood**, being Lots 1-3, Block 1, as recorded in Film Code 695794 of the Harris County Map Records.

The property is located along east of North Wayside Drive, along Carolwood Drive. The purpose of the replat is to create one (1) single-family residential lots. The applicant, **Naz Sayed**, with Aliana Corporation LLC, on behalf of ALIANA CORPORATION LLC, the developer, can be contacted at **832-627-0927**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at planning.publichearing@houstontx.gov or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted by the deadline will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• Local Government Code 212.015. The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

Application Number: 2023-0028 Plat Name: Ashland Patio Homes partial replat no 1 Applicant: BGE, Inc. Date Submitted: 01/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

To allow a lot restricted to single-family residential to be replatted to permit the use of the property for commercial development; To allow a commercial reserve to be less than 5000 s.

Chapter 42 Section: 42-193(c)(1) 42-181

Chapter 42 Reference:

42-193 (c)Property within a subdivision plat that contains lots restricted to single-family residential or residential use may be replatted to amend a plat restriction only as provided below:(1) A plat restriction limiting the use of property to residential or single-family residential use may be amended to permit the use of that property only for landscape, park, recreation, drainage, or open space uses.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

n/a

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

This site is in the Heights located on Ashland Street, north of W. 20th St., west of Rutland St., and south of W. 21st St. Originally platted in 1894 with no restrictions or building setback lines, the parcel was replatted in 2011 to create a single-family lot. Currently, there is a two-story, 2,420 s.f. existing single-family home on the lot. The current owner intends to utilize the existing home as commercial office space.

The Heights contains many small parcels unsuitable for current development standards. Most of the existing businesses in the area were constructed prior to the current subdivision and parking regulations which has resulted in creating an overall unique character in this trending and continually growing urban area. The entire parcel is 3,517 s.f. which is typical of many of the commercial tracts nearby. Many nearby residents currently work from home, and the owner of this home would like to keep the existing character of the building and not demolish it. By allowing the use of a single-family residential lot for commercial office space, the character of the home will be preserved with minimal impact to nearby residents. The existing pedestrian realm width is 19.5 feet and contains a 5' sidewalk. There will be a minimum 4' landscape buffer and proposed 6' sidewalk along Ashland St. to satisfy current commercial use pedestrian realm standards.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The Heights contains many small parcels that make it difficult to redevelop under current subdivision regulations. The characteristics of the local buildings in the area, including homes, businesses, and restaurants are typically built close to the street and create a unique urban area. Changing the use of the lot does not contradict the original intent of the originally platted subdivision

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent of the ordinance will be preserved because the originally platted subdivision of the Heights did not have restrictions or building setback requirements. This area has long been a mixed-use area in close proximity to the established commercial area of the Heights. The parking lot will be maintained by the sophisticated boutique hotel which will be managed with high standards.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Safety and welfare will be preserved by providing specific parking for hotel guests without the need to park on public streets in front of residential homes nearby. There will be a 6' sidewalk along Ashland that will encourage pedestrian walking to the main hotel entrance. The proposed lot will follow the regulations of Ch. 33 by planting the required street trees and shrubs along Ashland St.

(5) Economic hardship is not the sole justification of the variance.

The intent behind the transformation of the existing single-family platted lot into commercial use is to allow the existing structure to remain with limited impact to nearby residents. Prior to replatting in 2011, the original subdivision had no use restrictions or building setback lines. Many businesses in this mixed-use area of the Heights operate out of homes that were previously being used for single-family homes, and there is an increasing number of people having the option to work from home. A conversion in the area would not be uncommon and will complement the trending overall urban character of the Heights.

Dear Property Owner:

Reference Number: 2023-0028; Ashland Patio Homes partial replat no 1; partial replatting of **Ashland Patio Homes**: Lot 2, block 1, as recorded in Film Code no 639017 of the Harris County Map Records.

The property is located along and east of Ashland Street north of W. 20th Street. The purpose of the replat is to create one (1) restricted reserve, restricted to parking, landscaping, open space, drainage, detention, and incidental utility purposes. The proposed reserve is intended to provide a 7-space asphalt parking lot for a nearby five story boutique hotel see the attached exhibit. The applicant, **Ralph Lopez Gerald Grissom**, with **BGE**, **Inc.**, on behalf of **Newberg Road Partners**, **L.P.**, **a Texas limited partnership**, can be contacted at **281-558-8700**.

Pursuant to Local Government Code 212.015 and the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300' of the boundary of the plat. A variance is being requested with this application. The variance(s) request is attached.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, February 16, 2023, at 2:30 PM City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted by the deadline will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Greg Travis Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak

212.015 (c) If the proposed replat requires a variance and is protested in accordance with this subsection, the proposed replat must receive, to be approved, the affirmative vote of at least three-fourths of the members present of the municipal planning commission or governing body, or both. For a legal protest, written instruments signed by the owners of at least 20 percent of the area of lots or land immediately adjoining the area covered by the proposed replat and extending 200 feet from that area, but within the original subdivision, must be filed with the municipal planning commission or governing body, or both, prior to the close of the public hearing.

NOTE: YOU MUST LIVE OR OWN PROPERTY IN THE PROTEST AREA TO QUALIFY FOR THREE-FOURTHS AFFIRMATIVE VOTE OF PLANNING COMMISSION. THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots, and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly, and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots, and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly, and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

February 23, 2023

Dear Property Owner:

Reference Number: 2023-0222; Dearborn Place partial replat no 2; a partial replat of "**Dearborn Place**," being all of Lots 1-3 and the west 40 feet of Lot 4, Block 1, as recorded in Volume 6, Page 58 of the Harris County Map Records.

The property is located at the southeast intersection of W Alabama Street and S Shepherd Street. The purpose of the replat is to create one unrestricted reserve. The applicant, **Jason Barringer**, with Landpoint, on behalf of Kensinger Donnelly, can be contacted at **832-904-7085**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at <u>planning.publichearing@houstontx.gov</u> or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. • Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

March 8, 2023

Dear Property Owner:

Reference Number: 2023-0338; Gulfway Terrace partial replat no 1; a partial replat of Gulfway Terrace, being Lot 4 and a Sewage Treatment Plant Site, in Block 22, as recorded in Vol. 43, Pg. 57 of the Harris County Map Records.

The property is located northwest and along Hinds Street and Vennard Road. The purpose of the replat is to create four (4) single-family residential lots. The applicant, **Lucero Magana**, with Windrose, on behalf of Casa Floors, the developer, can be contacted at **713-458-2281**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at <u>planning.publichearing@houstontx.gov</u> or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted by the deadline will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

APPLICANT'S Reconsideration Of Requirement Request Form

Application No:	2023-0245
Plat Name:	Mission Green North partial replat no 3 and extension
Applicant:	Vogler & Spencer Engineering, Inc.
Date Submitted:	02/03/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific requirement or condition being sought:

We are requesting changing the 25' Building Line to a 10' Building Line to gain space on the limited site so that install a backup electric generator measuring approximately 8'-4" – 30'-5" may be installed.

Chapter 42 Section: 156 (a)

Chapter 42 Reference:

Collector and Local Streets- Single-family residential. a.) Except as otherwise required or authorized by this chapter, the building line requirement for a lot restricted to single-family residential use shall be 25 feet along the front of a lot and ten feet along the back and sides of a lot adjacent to a collector street that is not an alley.

If this request requires a variance or special exception, the applicant must comply with the Plat Submittal Requirements and provide a completed Variance Request Information Form or Special Exception Information Form.

STATEMENT OF FACTS:

The only place the proposed generator will fit within the tract, is encroaching the existing 25' B.L. Please see variance form.

Application Number: 2023-0245 Plat Name: Mission Green North partial replat no 3 and extension Applicant: Vogler & Spencer Engineering, Inc. Date Submitted: 02/03/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

To allow a 10' Building line in lieu of the 25' building line required.

Chapter 42 Section: 42-150

Chapter 42 Reference:

Local streets Not single-family residential and across the street from a single-family residential lot with a platted building line of 10 feet or more Lesser of 25 feet or the greatest platted building line on the single-family residential

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Mission Bend MUD No. 1 needs a generator to sustain power at the water plant during extreme weather events. This water plant site is divided into two pieces by existing parallel gas pipeline and utility easements measuring 36' width. Normally water plants are one contiguous tract of land. The empty space on the east portion of the plant will be used for a surface water metering station. The only option for the proposed generator will be encroaching the existing 25' Building Line recorded by the original plat.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The hardship is the result of extreme weather events such as hurricanes and freezes and the need to continue to provide water to the district during these events. For example, During Winter Storm Uri, the water plant lost power for multiple hours and as a result the residents were put on a boil water notice due to loss of pressure.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The visual corridor width will be maintained because the proposed generator will be only 11' tall.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The operator rarely needs to perform maintenance on a generator- he can program it to run automatically. There also will be a 6-foot-tall fence constructed on the 10' building line to protect the operator from errant vehicles. The proposed generator is designed according to COH and TCEQ regulations which to preserve public health, safety, and welfare. Plans have been approved by Fort Bend County and City of Houston.

(5) Economic hardship is not the sole justification of the variance.

On the contrary, it will cost the MUD to install the generator, but it is worth the cost to ensure a constant and clean supply of water to the public.

February 10, 2023

Dear Property Owner:

Reference Number: 2023-0245; Mission Green North partial replat no 3 and extension; a replat of **"Mission Green North";** being Reserve A, Block 2, as recorded in Slide No. 7928 of the Fort Bend County Map Records and including a 0.4344 acre of land in the John McDonald Survey, Abstract No. 291, Fort Bend County, Texas.

The property is located east along Lobera Street, north of Beechnut Street and east of Clodine Road. The purpose of the replat is to create a reserve restricted to water plant use and to reduce the building line from 25' to 10'. The applicant, **Patrick Cook**, with Vogler & Spencer Engineering, Inc, on behalf of the developer, Mission Bend Municipal Utility District No 1, can be contacted at **713-782-0042**.

Pursuant to Local Government Code 212.015 and the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300' of the boundary of the plat. A variance is being requested with this application. The variance(s) request is attached.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, at 2:30 PM City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. Public Hearing Notice

212.015 (c) If the proposed replat requires a variance and is protested in accordance with this subsection, the proposed replat must receive, to be approved, the affirmative vote of at least three-fourths of the members present of the municipal planning commission or governing body, or both. For a legal protest, written instruments signed by the owners of at least 20 percent of the area of lots or land immediately adjoining the area covered by the proposed replat and extending 200 feet from that area, but within the original subdivision, must be filed with the municipal planning commission or governing body, or both, prior to the close of the public hearing.

NOTE: YOU MUST LIVE OR OWN PROPERTY IN THE PROTEST AREA TO QUALIFY FOR THREE-FOURTHS AFFIRMATIVE VOTE OF PLANNING COMMISSION. THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots, and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly, and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• Local Government Code 212.015. The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

February 22, 2023

Dear Property Owner:

Reference Number: 2023-0333; Pinemont Meadows; a partial replat of **"Pinemont Forest Annex**," being a replat of Lots 1 & 2, as recorded in Volume 27 Page 33 of the Harris County Map Records.

The property is located at the north along Pinemont Street and west Brinkman Street. The purpose of the replat is to create five (5) single family lots and one (1) reserve. The applicant, **Steven Henderson**, with **Windrose**, on behalf of Acada, Inc., can be contacted at **713-458-2281**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at <u>planning.publichearing@houstontx.gov</u> or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

February 23, 2023

Dear Property Owner:

Reference Number: 2023-0329; Southland Place partial replat no 5; a partial replat of **"Southland Place**," being all of Lot 16, Block 2, as recorded in Volume 14, Page 14 of the Harris County Map Records.

The property is located along and west of Lozier Street between Luca Street and Zephyr Street. The purpose of the replat is to create two single-family residential lots. The applicant, **Donna Eckels**, with PRO-SURV, on behalf of the developer, can be contacted at **281-996-1113**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at <u>planning.publichearing@houstontx.gov</u> or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted by the deadline will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots, and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly, and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• **Variance.** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

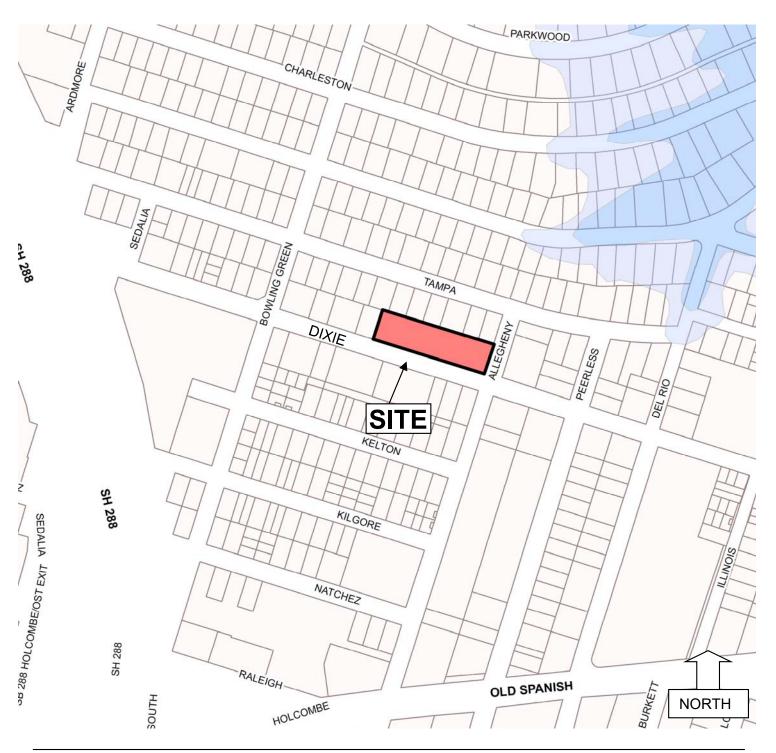

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

February 20, 2023

Dear Property Owner:

Reference Number: 2023-0318; Sunterra Sec 31 partial replat no 1; a partial replat of "Sunterra Sec 31," being the private right-of-way of Myrtle Glass Drive as recorded under County Clerk File No 2212974 O.P.R.W.C.T.

The property is located within Sunterra Sec 31 as the private right-of-way of Myrtle Glass Drive, north of Clay Road and east of Schlipf Road. The purpose of the replat is to change the privavte street name of "Myrtle Glass Drive" to "Stingray Cove Drive." The applicant, **Mayra Hernandez**, with Quiddity Engineering, LP, on behalf of Astro Sunterra, LP, can be contacted at **832-913-4030**.

Pursuant to the City of Houston's Code of Ordinances, Chapter 42 the Planning Commission has established a public hearing date for this item. As required, the Planning Department is sending you written notice of the public hearing. The requirements for notification specify that this notice be mailed to all owners of property within 300ft of the boundary of the plat.

Be advised that state law requires the Houston Planning Commission to approve each subdivision plat and replat that complies with the provisions of Chapter 42 and any other applicable laws and requirements. This replat does not include any variance requests. If the replat meets the subdivision rules and regulations of Chapter 42, the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc. If you have any questions regarding this replat and/or the subdivision rules and regulations related to this plat, you may contact staff with the Planning and Development Department via email at planning.publichearing@houstontx.gov or call (832)393-6600.

The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted by the deadline will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL

Terminology

• **Subdivision plat.** A graphical presentation of a particular surveyed tract of land laying out street rights-of-way, lots, and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly, and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.

• **Subdivision replat.** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.

• **Deed restrictions.** Are private covenants between property owners that are recorded with the appropriate county clerk's office that bind all or some property owners in a neighborhood or subdivision to follow a specific set of guidelines. Typically, deed restrictions are designed to limit activities, building layout and design, and / or land uses. A replat does not amend or remove any deed restrictions.

• **Extraterritorial jurisdiction (ETJ).** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.

• **Chapter 42.** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.

• **Local Government Code 212.015.** The state law section that describes the purpose and requirements of property owner notification when preparing certain replats.

• Variance. A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.

Planning Commission Body, Authority and Obligation

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 20 members and meets every two weeks per their adopted Commission meeting schedule.

• Should a replat meet the subdivision rules and regulations of Chapter 42 and not include a variance request the Planning Commission is obligated to approve the replat. These subdivision rules and regulations do not include the site's land use, structure(s), parking, lighting, drainage, etc.

Planning Department Staff Authority and Obligation

• Development Services Division reviews subdivision plats and replats for compliance with the rules and regulations described in Chapter 42 and in Local Government Code 212.015 and prepares recommendations for Planning Commission consideration.

• Should a plat or replat meet the above rules and regulations of Chapter 42 the staff is obligated to recommend approval subject to minor corrections and further coordination with other agencies that have required more detailed information.

• For a development within Houston's incorporated city limits a site plan locating structure(s), parking, and landscaping is reviewed when a building permit is filed. This plan receives an administrative approval if it complies with other development rules and regulations. Should the site plan not comply, or the applicant wishes to deviate from these standards, a development plat variance may be presented to the Planning Commission.

Application Number: 2023-0217 Plat Name: Trails of Katy Sec 6 partial replat no 1 Applicant: Quiddity Engineering - Katy Date Submitted: 01/23/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To not provide additional compensating open space with this partial replat and get credit for the excess COS from the original plat instead.

Chapter 42 Section: 42-183

Chapter 42 Reference:

(a) Compensating open space may be used to reduce the minimum lot size requirement only to the extent that the area proposed to be dedicated to compensating open space meets the standards of this section. (f) Any area used for compensating open space: (1) Shall be restricted for the use of owners of property in and residents of the subdivision. (2) Shall be owned, managed, and maintained under a binding agreement among the owners of property in the subdivision.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

The partial replat consists of 6 lots under 5,000 sq. ft. out of the Trails of Katy Sec 6 recorded plat. The subdivision lies within the City of Houston Extra Territorial Jurisdiction and Fort Bend County limits. The residential section is located at the southwest intersection of Kingsland Boulevard and Cane Island Parkway. The reason for the replat is to move lot lines so the building pads can properly fit into each lot. The land between the six lots is being re-distributed and two of the lots remain the same size. This replat will not increase the overall number of lots originally platted within the Trails of Katy Sec 6. The original plat had 56 lots under 5,000 sq. and 28,500 sq of open space was required per Sec. 42- 183. The developer provided 32,263 sq. of compensating open space with a surplus of 3,763 sq with the original recorded plat to amenitize and enhance the development. The six lots have a total square footage of 14,923 sq. The average lot size is 2,487 sq. The required COS for this replat would be 3,600 sq. which is less than the 3,763 sq. surplus COS provided with the original plat. We ask the Commission takes in consideration the COS surplus provided and apply it to the partial replat. Not providing additional COS with this partial replat would allow for the lots to be properly developed and contributing to reasonable use of the land.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

These circumstances are not the result of a hardship created by the applicant. The development

has more than the required COS. Every owner will benefit from the amenities.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The spirit of the ordinance will be uphold given the original recorded exceeded the COS requirement. The six lots are not new lots. The six lots are being amended slightly.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Granting of the variance will not be injurious to public health, safety, or welfare. To the contrary, the subdivision will benefit from the COS in place.

(5) Economic hardship is not the sole justification of the variance.

Sole justification for the granting of the variance is based on the fact that the subdivision as a whole already has the more than the required COS.

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

A variance is sought for an unrestricted reserve to have a 36' ingress/egress easement in lieu of public street frontage.

Chapter 42 Section: 42-190

Chapter 42 Reference:

42-190 (c) Each reserve shall meet the following requirements for minimum size, the type and width of street or shared driveway on which it may be located, and the minimum frontage, as applicable to the type of reserve: 60 feet (50 feet in a street width exception area)

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

The subject property is located in the City of Houston, in the Greater Northside Management District boundary along Airline Drive; between Tidwell Road and IH-45. The development proposes two reserves, Reserve A, having frontage on major thoroughfare Airline Drive and Reserve B, fronting on an existing 36 ingress/egress easement. The reason for replat is to sell off different parcels. Leaving Reserve B without public street frontage as required by the ordinance. However, an existing ingress/egress easement has been put in place since the property has been partially developed. We request the commission to continue to allow these parcels to continue to co-exist with one another. The only minor change is the legal subdivision of land as required per State Code 212 & Chapter 42.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The frontage requirements by this ordinance limit how property can be subdivided in small parcels within the City of Houston. Allowing development to have other forms of access is not equitable for small business owners to build generational wealth for Houstonians.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter will be preserved and maintained. The reserves will have frontage on a public street & on an existing ingress/egress easement maintaining existing

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The two reserves will provide sufficient area for water well and septic. The proposed development will comply with all requirements per City of Houston Engineering's Office.

(5) Economic hardship is not the sole justification of the variance.

Economic hardship is not the sole justification of the variance. Ingress/egress easements are consistent with reserve access in the area and the existing character of this area of urban Greater Northside Houston.

NOTICE OF VARIANCE PROJECT NAME: A and R Investments REFERENCE NUMBER: 2023-0284

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located west and along Airline Drive, northeast of IH-45, and south of East Tidwell Road. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

SEM Services, the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting a variance to allow an unrestricted reserve to have sole access from an access easement in lieu of the required public street. Enclosed are copies of the variance request and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rights-ofway, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow for no stub street on the northwestern project boundary with a developable distance of $\pm 2,600$ '.

Chapter 42 Section: 42-128

Chapter 42 Reference:

: Chapter 42-128. - Intersections of local streets. (a) Each class III plat and each general plan that shows local streets shall provide for internal circulation by meeting either of the following requirements: (1) Each local street shall intersect with a street that meets the requirements of subsection (b) at least every 1,400 feet; or...

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

The Broze Road Tract is a proposed ±111-acre development that is located within the northern part of Houston's ETJ in Harris County. The site sits north of FM 1960 and both south and east of Broze Road which curves around the northwest corner of the tract. The tract is mostly surrounded by undeveloped land to the north with some small commercial areas both south and west of the tract. Flagstone, a proposed residential development sits east of the property but has not yet been fully developed. The subject site will primarily be used as an RV Park while also containing a small commercial section as well as detention and drainage. Per Chapter 42, a stub street would be required along the northwestern project boundary as it exceeds 1,400' in length. However, requiring a stub street on the northwestern boundary is impractical due to the proposed development of an RV park within the subject site. The RV Park is intended to be developed with private driveways, therefore a connection through this area will disrupt the operations of this site and deprive the applicant of the reasonable use of their land. Like other RV Parks, the subject site is intended to have controlled access which a public street would interfere with. Additionally, the undeveloped property to the north, between Broze Road and the northwestern GP boundary is held by the same owner and likely to be developed at once. Therefore, the provided stub street on the Western side as well as the northern site's ability to take access from Broze Road mean that a connection along the subject site's northwestern boundary would not be necessary as adequate access has been provided. The proposed stub on the western side of the subject site will provide the necessary access to the undeveloped tract to the north and the other proposed streets within the subject site will ensure proper traffic circulation and access for the development within the General Plan.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

Because the intended use of this site is an RV park, the access will need to be controlled as to not interfere with the operations. Requiring a connection to the site to the north would interfere and thus deprive the applicant of the reasonable use of their land.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter will be preserved and maintained as traffic circulation will not suffer because of the granting of this variance. The proposed stub street on the eastern side of the tract, as well as the northern tract's ability to take access from Broze Road will ensure proper access is provided.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of this variance will not create undue hardship on the proposed street pattern, nor will it create any unsafe traffic conditions, and will therefore not be injurious to the public health, safety, or welfare.

(5) Economic hardship is not the sole justification of the variance.

The intended use of this site as an RV park with controlled access being a key component is the justification for this variance.

Application Number: 2023-0134 Plat Name: Caney Crossing North Applicant: South Texas Surveying Associates, Inc. Date Submitted: 01/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow unrestricted reserves to take access from an access easement.

Chapter 42 Section: 42-190 (c)

Chapter 42 Reference:

Tracts for non-single-family use—Reserves. (c) Each reserve shall meet the following requirements for minimum size, the type and width of street or shared driveway on which it may be located, and the minimum frontage, as applicable to the type of reserve: Unrestricted reserve 5,000 sq. ft. minimum size - 60' public street (50 feet in a street width exception area)

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

na

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Strict application would create hardship for the applicant since the existing private road and access entry easement have been recorded and in use for an elongated period.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstances supporting the granting of a variance are not a result of a hardship created by the applicant. It is an existing condition and proposing essentially another access point.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purpose of this chapter will be preserved because 2 of the 3 easements that have already been recorded and paved.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Granting of the variance will not be injurious to public health and safety as 2 of the 3 easements that have already been recorded and paved.

(5) Economic hardship is not the sole justification of the variance.

Economic hardship is not the sole justification. It is an existing condition - this tract was served by the Road Easement created under Volume 738, Page 545 of Montgomery County Map Records and an existing access entry easement created under Montgomery County Clerk's File No. 2014056932

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

To reduce portions of the front building setbacks along Sherman Street, Roberts Street, and Garrow Avenue to 0 feet and to remove the requirement for visibility triangles.

Chapter 42 Section: 155, 161

Chapter 42 Reference:

Sec. 42-155. - Collector and local streets—Uses other than single-family residential. (a) The building line requirement for a tract used or to be used for other than single-family residential purposes adjacent to a street that is a collector street or local street that is not an alley shall be ten feet unless otherwise required or authorized by this chapter. Sec. 42-161. - Visibility Triangles. The building line for property adjacent to two intersecting streets shall not encroach into any visibility triangle, the triangular area adjacent to the intersection of any street established by measuring a distance of 15 feet from the point of intersection of two streets along the right-of-way of each of the intersecting streets and connecting the ends of each measured distance, to assure adequate visibility sight lines for vehicular traffic approaching the intersection. The maximum height of the visibility triangle shall be 20 feet as measured vertically from the ground.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

The applicant, Concept Neighborhood, has acquired multiple blocks in the East End District as part of an overall master planned initiative. The subject site is 1.14 acre situated at the northeast corner of Roberts Street and Garrow Avenue. The applicant is redeveloping a historic building originally constructed in 1935 for the purposes of commercial development. There will be a concurrent offstreet parking variance submitted, but it will not affect the plat's review timing as there is adequate land for an off-site parking agreement if necessary. This area is just blocks away from the newly applied Central Business District parking exemption area and most of the adjoining streets are designated as Transit Oriented Development corridors. The Navigation/Canal corridors are ideal candidates for pedestrian-focused development, but the City will need to work with applicants so they have the flexibility necessary to meet the intent of the City's regulations in order to redevelop historic buildings such as this one. The applicant is requesting a symbolic opt-in to the Walkable Places Ordinance that allows for reduced building setbacks where adequate pedestrian reals exist. Given that the applicant is providing pedestrian realms in excess of 21-feet on all adjoining rightsof-way and preserving a historic structure in the process, the building line variance request is reasonable and will be in the public's best interests.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The justifications supporting the variance are the prevailing development character of the area and the need for flexibility to achieve the design form that matches the highest and best use for the land. By granting this variance, the Commission will enable the applicant to preserve the historic footprint and character while providing much needed commercial stock.

(3) The intent and general purposes of this chapter will be preserved and maintained;

While this area is surrounded by Transit Oriented Development streets, there is no way for the existing historic structures to meet the intent of the ordinance without relief. The East End District has been trying desperately to move in a positive direction and this application represents a wonderful opportunity to help a developer that is trying to provide the type of pedestrian-friendly design that is so needed in the community.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The applicant will be providing 21-foot plus pedestrian realms along all adjacent rights-of-way. that provides for a safe and effective mode of transportation. By approving this variance request, the City will catalyze a complete renovation of a dilapidated structure that better fits the character of the East End.

(5) Economic hardship is not the sole justification of the variance.

The East End District is ideal for the type of preservation-minded, pedestrian-focused infill development that the applicant is trying to achieve. The justification is that the variance is the best path to achieve the preservation of the historic building. Without the variance, the site will continue to exist as an outdated and less than ideal warehouse use.

NOTICE OF VARIANCE PROJECT NAME: Concept Neighborhood on Roberts REFERENCE NUMBER: 2023-0449

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located north of Harrisburg Boulevard, west of York Street, and most of the block bounded by Sherman Street, Roberts Street, and Garrow Street. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

Beacon Land Services, the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting a variance for reduced building line of 0' in lieu of the ordinance required 10' along Sherman Street, Roberts Street, and Garrow Street and no visibility triangles on the corners of Sherman Street at Roberts Street and at Garrow Street and Roberts Street, for the rehabilitation of an existing structure for commercial use. Enclosed are copies of the variance request and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Adam Clent with Beacon Land Services at 346-701-5708. You may also contact Tammi Williamson with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6528. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rightsof-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

Application Number: 2023-0029 Plat Name: Daphne Applicant: BGE, Inc. Date Submitted: 01/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow a reduced building line of 2 ' for a 43'4" portion and to allow canopies to project into the 2' setback area; a 13' building line for a 4'7" portion; a 2' building line for an 18'6" portion of the site along the W.20th Street frontage; W.20th being a major thoroughfare with a 70' r.o.w..

Chapter 42 Section: 152

Chapter 42 Reference:

The portion of a lot or tract that is adjacent to a major thoroughfare shall have a building line requirement of 25 feet unless otherwise authorized by this chapter.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

n/a

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

This site is in the Heights located on the corner of W 20th Street and Ashland Street. Originally, the subdivision was platted in 1894 with no building setback lines. It was replatted as an unrestricted reserve in 2019 by the same property owner with the same intent of building a high-end boutique hotel. Small design changes to the hotel have contradicted the building setback line variance that was previously approved. The property lies within the deep-rooted small commercial area of the Heights along W 19th St. and W 20th St.. It is an area with many pedestrians. Most of the existing older buildings are located directly on the property line or set back a short distance from the street. The proposed five-story boutique hotel will provide an option not only for guests to stay within close proximity to friends and relatives, but also give them the option to be within walking distance of nearby restaurants, shops, and even a nearby theater. A nearby church and hospital within 750' of the property are also in support of this high-end boutique hotel. Currently, guests of the area are limited to staying at ordinary hotels and motels along nearby freeways. This unique hotel will give guests planning their stay in the area another option, preferably a boutique hotel with a unique character complimentary to the Heights itself. While the main building structure will be 42' from W. 20th and behind the 25' building line required from a major thoroughfare, the hotel gift/floral shop will be 2' from the front property line, creating more interaction and interest from pedestrians. This concept of being within close proximity to the street will echo the existing character of the older buildings nearby. There will be windows facing W. 20th as well as an entry door directly into the shop, allowing patrons that are not staying at the hotel to enter the gift shop. There will also be a door entering into the hotel lobby. Awnings over the windows and doors will project out towards the property line providing shelter and downward lighting for pedestrians. There are large existing oak

trees in the pedestrian realm area as well as in the courtyard area that will be preserved. New street trees will also be planted along W 20th. between the curb and the sidewalk. There will be a 15' pedestrian realm along W 20th, including existing and new street trees, a 2' landscape planting strip, a 6' unobstructed sidewalk to preserve large existing oaks, decorative bench seating, new integral colored concrete sidewalks, downward illumination from large existing trees, landscaping, and decorative lighting along the facade of the gift shop. The courtyard area will be visible from the street and includes a 4' high open wrought iron fence creating a transparent aesthetically pleasing view into the courtyard/ pool area. There will also be gates in the fence allowing direct access from the sidewalk. Beyond the courtyard there will be an 8' high pool terrace and cabana masonry privacy wall with live vines and landscaping along the exterior. This will create a privacy area for both hotel quests and nearby pedestrians. The outdoor cabana, set back 2' from the front property line, will offer shelter and privacy as a buffer from W. 20th as well for the adjacent property. The gift shop entrance area from the courtyard creates a small 4'10" portion that will be set back 13' from the property line. This entry will also have an awning to echo the awnings along W. 20th. Above the gift shop there will be a rooftop terrace allowing access to the 2nd floor of the hotel as well as the courtyard below.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The boutique hotel will take access off Ashland St. with pedestrian friendly amenities along W. 20th St., a major thoroughfare, to avoid conflicts with the bike path along 20th and lessen traffic delays from slow-moving cars turning into the parking lot. West 20th was designated as a Major Thoroughfare long after the area plat was recorded. The original plat did not include a building setback.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent of the regulations will be ensured by creating a walkable pedestrian friendly environment that respects the character of the historic commercial area and preserves the magnificent old oaks. The boutique hotel will be unique like most of the business in the area. Like the stores along 19th street, the gift shop will be able to have window displays of interest to pedestrians.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Public safety will be enhanced by providing a sidewalk along the major thoroughfare and creating a pedestrian friendly environment which encourages walking rather than driving from place to place. Public health will be encouraged by offering the hotel guests the opportunity to walk to restaurants and shops on nearby blocks.

(5) Economic hardship is not the sole justification of the variance.

The justification of the variance is the continued enhancement of this commercial area with unique, pedestrian-friendly, and small- scale businesses. This boutique hotel adds a diversified land use to the mixed-use area known as the Heights.

Dear Property Owner:

The Planning and Development Department has received three applications with variance requests for a project located at 347 W 20th Street: subdivision plat, hotel/motel, off-street parking. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42, 28, and 26 required notification areas adjacent to these variance requests.

BGE, Inc., the applicant, has filed the requests on behalf of the developer of the subject site.

- For subdivision plat: The applicant is requesting variance to allow reduced building line for the proposed structures instead of the required 25' BL along W 20th Street, a major thoroughfare.
- For Hotel/Motel: The applicant is requesting three variances: (1) to allow a hotel to be located within 750' of a church and a public health facility, (2) to allow a hotel to take access from a twolane street & public alley, and (3) to allow a hotel to be located in a residential area with less than 75 rooms.
- For Off-Street Parking: The applicant is requesting a variance to allow a proposed hotel to provide a portion of the required parking on an off-site facility less than 800 feet from the tract for a building containing over 30,000 square feet of GFA.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

Enclosed are copies of the variance requests, the proposed subdivision plat, and the site plan submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public hearing and meeting to consider these applications.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, February 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Ralph Lopez or Stephanie Hamilton with BGE, Inc. at 281-558-8700. You may also contact Aracely Rodriguez with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6600. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **CHAPTER 26**: Commonly called the "Off-Street Parking Ordinance", it is the portion of the City of Houston's Code of Ordinances that describes the rules and regulations for off-street parking within the corporate limits.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rightsof-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapters 26, 28, and 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 300 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

Application Number: 2023-0421 Plat Name: Dell Creek GP Applicant: Bowden Land Services & Consulting Date Submitted: 02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To grant a variance not to dedicate a (north/south) 60' public ROW within the boundary of the proposed plat.

Chapter 42 Section: 42-128

Chapter 42 Reference:

Sec. 42-128. - Intersections of local streets.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

 $\mathsf{N}\mathsf{A}$

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Subject site is located along Ulrich Ln, in Crosby TX west of FM 2100 Crosby Lynchburg Rd & Hwy 90, south of Church St, and north of Krenek Rd in the City of Houston's Extra Territorial Jurisdiction. Proposed Reserve A will be an extension of the existing RV Park, known as DELL CREEK. According the MyCity Map the current land use of the RV Park is labeled as Park and Open Spaces. Dedicating a north south 60' public ROW at this location is impractical based on the surrounding conditions of the property. A north south public ROW would not positively affect traffic circulation in this area due to the existing railroad tracks to the west of the subject property that run northeast/southwest. A north south public ROW would bisect the railroad tracks north of the subject property at approx. 100 to 900 linear feet to the north. The current ordinance does not require a public ROW to be created that would cross railroad tracks under 42-130(a)3; therefore, a north south public ROW would not be practical at this location. Further, A north south public ROW would not positively affect traffic circulation in this area due to the existing 100' foot drainage channel, 300' foot CenterPoint Electric Facility and Middle school to the south. The current ordinance would not require a public ROW to be created that would stub into a property owned in fee by an electric utility and used or intended for use for electric transmission facilities under 42-130(b)4. The CenterPoint property to the south is owned in fee, and currently being used as electric transmission facilities therefore a north south public ROW would not be practical at this location. The intent of the current ordinance will be preserved by complying with the ROW dedication exceptions per 42-130(a)3 & 42-130(b)4, denying the variance would create an undue hardship by depriving the landowner of reasonable use of land.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

Applicant has not created or imposed the hardship in this request. Dedicating a north south ROW within the boundary of this property would not serve the community around the dedicated row due to the railroad tracks preventing the ROW from extending north, and the CenterPoint Electric facility preventing the ROW from extending south. The existing conditions surrounding the property have been in place for many years, therefore the applicant did not create or impose the hardship for this variance request.

(3) The intent and general purposes of this chapter will be preserved and maintained;

Dedicating a 60' foot public ROW through the subject property would stub into the railroad tracks at 100' – 900' linear feet to the north and would be an exception under 42-130(a)3. Dedicating a 60' foot public ROW would stub into a 300' foot CenterPoint Electric Facility to the south and would be considered an exception under 42-130(b)4 therefore the intent and general purpose of this chapter will be preserved and maintained.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Dedicating a north south 60' foot public ROW would not significantly increase traffic flow or function within the area and would be exempt from extending further north due to the railroad tracks and exempt from extending south due to the CenterPoint Electric Facility to the south, therefore granting the variance will not be injurious to the public health, safety or welfare.

(5) Economic hardship is not the sole justification of the variance.

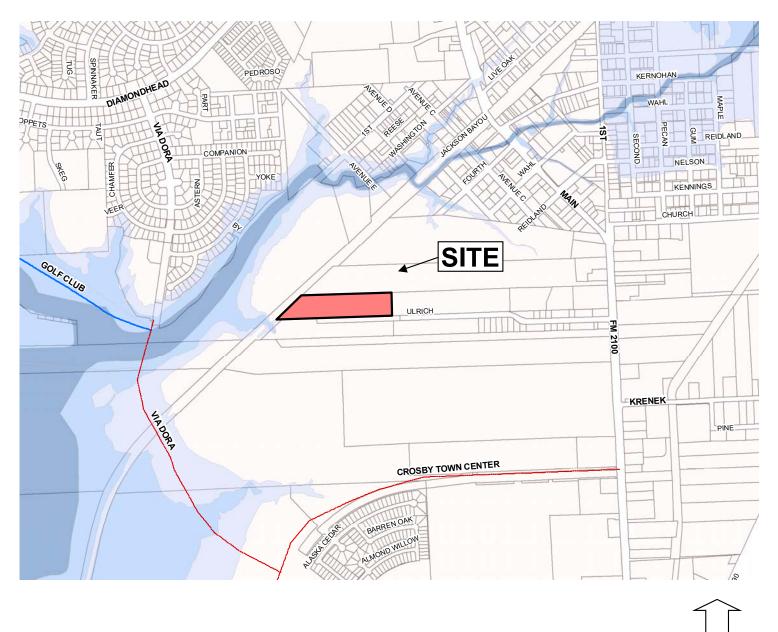

The property's hardship is due to the existing railroad tracks to the north preventing a north south public ROW from extending north and the CenterPoint Electric Facility to the south preventing the a north south public ROW from extending south. There is no economic hardship justification for requesting this variance.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

TO ALLOW FOR A PRIVATE STREET TO BE A DIRECT EXTENSION OF A PUBLIC STREET Chapter 42 Section: 42-129c

Chapter 42 Reference:

A Type 2 permanent access easement may not be a direct straight line extension of a public street.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

Subject site is located along Ulrich Ln, in Crosby TX west of FM 2100 Crosby Lynchburg Rd & Hwy 90, south of Church St, and north of Krenek Rd in the City of Houston's Extra Territorial Jurisdiction. Proposed Reserve A is 9.18 acres within a 27.5357-acre General Plan submitted separately. The land south of proposed Reserve A is currently an existing RV Park "Dell Creek RV Park" permitted in 2017, proposed Reserve A will be an extension of the existing RV Park. According to the MyCity Map the current land use of the RV Park is labeled as Park and Open Spaces. Proposed Reserve A is separated from the existing RV Park by a 60'-foot permanent access easement conveyed to Crosby MUD in 2009 under HCCF No. 20090454499. The land area that surrounds the Permanent Access Easement is owned by Marvel Assets LLC who was granted the use of the access easement within the deeds that acquired the land in 2016-2017. The 60' public ROW Ulrich Ln was dedicated to the public under HCCF No. P087064 and stops 22.45' feet before the boundary of proposed Reserve A, and the existing RV Park. In order to approve the plat, this application must request a variance to allow a private street to be a direct extension of a public street. The permanent access easement was dedicated and conveyed to Crosby MUD prior to the current landowner's acquisition of the land surrounding the easement. The private easement serves its intended purpose for the current landowner Crosby MUD by allowing access to the sanitary sewer facilities along the far west boundary of the private access easement and provides access to the land owned by Marvell Assets LLC to access the existing RV Park. The permanent access easement provides the same access width as a public ROW and the extension from a 60'-foot public ROW will not require a transition to a different ROW width. The existing railroad tracks to the west would prevent extension of the ROW therefore the permanent access easement would only serve the existing RV Park now and in the future. The access road continues west outside the boundary of the 1.4748-acre access easement and continues around the existing detention pond until it circles back reconnecting with the permanent access easement allowing emergency access vehicles sufficient ROW width to access the RV Park, and sufficient and adequate turning radius around the detention pond to allow emergency access vehicles a way to exit the RV Park. In all ways, the 60'foot permanent access easement acts as a public ROW by meeting the required 60'-foot width, allowing traffic circulation and emergency access vehicles sufficient ingress and egress to the RV Park, and provides access to public utilities specifically the sanitary sewer facilities as shown on

the face of the plat. The current landowner of the 27.5357 acres that surrounds the permanent access easement does not own the 1.4748 acres permanent access easement as described in Exhibit A of the HCCF No. 20090454499 and has no control or authority to dedicate the easement to the public, therefore we must request a variance to allow a 60' foot wide private street to be a direction extension of a 60' foot wide public street. Denying this variance would cause an undue hardship on the current landowner and deny reasonable use of land.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy; NA

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

Applicant has not created or imposed the hardship in this request. The permanent access easement was conveyed to Crosby MUD in 2009 under HCCF No 20090454499 therefore the current landowner of the 27.5357 acres that surrounds the easement does not own the land described in Exhibit A being a tract of land containing 1.4748 acres described as the permanent access easement. The landowner of the proposed Reserve A does not own or control the permanent access easement and has no authority to change the use of the easement.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The permanent access easement is currently dedicated at 60' foot wide, the same width required for a public ROW. The public street that the easement would extend from is also 60' feet wide. The private ROW continues to circle south around the existing detention pond before it reconnects with the 60' foot wide private access easement allowing passenger vehicles and emergency access vehicles sufficient ROW width and turn around to exit the existing RV Park therefore the intent and general purpose of the ordinance will be preserved and maintained.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Emergency vehicles can access the permanent access easement with a sufficient width of 60'-feet as if it the easement per a public ROW, and the turning radius of the private access road around the detention pond provide adequate room for emergency vehicles to access the RV Park if needed with a sufficient turn around radius to exit the park therefore granting this variance will not be injurious to the public health, safety or welfare.

(5) Economic hardship is not the sole justification of the variance.

The property's hardship is due to not owning the land described as the 1.4748 acres permanent access easement described in HCCF No. 20090454499, therefore not having the right or authority to change the use of the easement as conveyed to Crosby MUD in 2009 several years before acquiring the lands that surround the easement. The hardship is not economically based at all.

Application Number: 2023-0437 Plat Name: Dell Creek Sec 1 Applicant: Bowden Land Services & Consulting Date Submitted: 02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance: TO GRANT A VARIANCE NOT TO CUL-DE-SAC THE TERMINATION OF A PUBLIC ROW Chapter 42 Section: 42-134

Chapter 42 Reference:

A public street that terminates at the boundary of a plat previously approved by the commission without means of a vehicular turnaround shall be extended into the adjacent property at the time the adjacent property is platted.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

Subject site is located along Ulrich Ln, in Crosby TX west of FM 2100 Crosby Lynchburg Rd & Hwy 90, south of Church St, and north of Krenek Rd in the City of Houston's Extra Territorial Jurisdiction. Proposed Reserve A is 9.18 acres within a 27.5357-acre General Plan submitted separately. The land south of proposed Reserve A is currently an existing RV Park "Dell Creek RV Park" permitted in 2017, proposed Reserve A will be an extension of the existing RV Park. According to the MyCity Map the current land use of the RV Park is labeled as Park and Open Spaces. Proposed Reserve A is separated from the existing RV Park by a 60'-foot permanent access easement conveyed to Crosby MUD in 2009 under HCCF No. 20090454499. The land area that surrounds the Permanent Access Easement is owned by Marvel Assets LLC who was granted the use of the access easement within the deeds that acquired the land in 2016-2017. The 60' public ROW Ulrich Ln was dedicated to the public under HCCF No. P087064 and stops 22.45' feet before the boundary of proposed Reserve A, and the existing RV Park. Terminating the Public ROW with a cul-de-sac is infeasible due to the location of where the Public ROW becomes a private access easement. The current owner of the RV Park and proposed Reserve A does not own the permanent access easement and does not have the authority to dedicate the easement to the public or cul-de-sac the public ROW. Dedicating a cul-de-sac with a 50' foot radius does not make sense at this location due to the easement extending another 1064-1076 feet west. However, as you can see on the aerial photos provided, the boundary of the access easement terminates just past the sanitary sewer easement, however on the ground the easement continues as a private access road that continues west and wraps around the existing detention pond which circles back around the pond back to the permanent access easement therefore acting as a turnaround of the access easement much like a cul-de-sac. If the private access easement was dedicated to the public the street would not be required to extend west due to the existing railroad tracks that immediately abut the property to the west. The current owner of the land area surrounding the permanent access easement does not own the land described as the permanent access easement under Exhibit A in HCCF No 20090454499 and cannot make decisions regarding the permanent access easement being dedicated to the public or terminating the public row with a cul-de-sac. The land area west of

the permanent access easement is owned and controlled by Marvell Assets, LLC and currently acts as a turnaround due to the private access road circling around the existing detention pond. We believe the private access road around the detention pond preserves the intent and general purpose of the ordinance by providing a distinctive end to the access easement and sufficient radius to turn around before circling back to the private access easement. Emergency vehicles can access the permanent access easement with a sufficient width of 60'-feet as if it the easement per a public ROW, and the turning radius of the private access road around the detention pond provide adequate room for emergency vehicles to access the RV Park if needed with a sufficient turn around radius to exit the park therefore granting this variance will not be injurious to the public health, safety or welfare.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

NA

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

Applicant has not created or imposed the hardship in this request. The permanent access easement was conveyed to Crosby MUD in 2009 under HCCF No 20090454499 therefore the current landowner of the 27.5357 acres that surrounds the easement does not own the land described in Exhibit A being a tract of land containing 1.4748 acres described as the permanent access easement. The landowner of the proposed Reserve A does not own or control the permanent access easement and has no authority to change the use or configuration of the easement.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The permanent access easement's boundary terminates in terms of ownership approx. 1064-1076 feet to the west however the private access road continues on the ground and circles around the existing detention pond with a sufficient radius and width to accommodate emergency access vehicles as need to the existing RV, allowing adequate width and radius to turn around and exit the existing park therefore the intent and general purpose of the ordinance will be preserved and maintained.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Emergency vehicles can access the permanent access easement with a sufficient width of 60'-feet as if it the easement per a public ROW, and the turning radius of the private access road around the detention pond provide adequate room for emergency vehicles to access the RV Park if needed with a sufficient turn around radius to exit the park therefore granting this variance will not be injurious to the public health, safety or welfare.

(5) Economic hardship is not the sole justification of the variance.

The property's hardship is due to not owning the land described as the 1.4748 acres permanent access easement described in HCCF No. 20090454499, therefore not having the right or authority to change the use or configuration of the easement as conveyed to Crosby MUD in 2009 several years before acquiring the lands that surround the easement. The hardship is not economically based at all.

Application Number: 2023-0437 Plat Name: Dell Creek Sec 1 Applicant: Bowden Land Services & Consulting Date Submitted: 02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

42-190 to grant permission for the proposed plat not to have frontage along a public ROW and to take access from a private access easement instead of a public ROW

Chapter 42 Section: 190

Chapter 42 Reference:

Sec. 42-190. - Tracts for non-single-family use-Reserves.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

Subject site is located along Ulrich Ln, in Crosby TX west of FM 2100 Crosby Lynchburg Rd & Hwy 90, south of Church St, and north of Krenek Rd in the City of Houston's Extra Territorial Jurisdiction. Ulrich Ln is a 60' foot public ROW per HCCF NO. P087064 extending west from FM 2100 Crosby Lynchburg RD for approx. 2,763 linear feet before it becomes a 60' foot wide private access easement per 20090454499 owned by the Crosby MUD district. The private easement was conveyed to the MUD district in 2009 by the previous owner. The current owner of the land area shown in the General Plan and proposed plat, Marvel Assets LLC, was granted the use of the easement within the deeds that acquired the properties surrounding the access easement. The public ROW stops short 22.45' feet before the boundary of proposed Reserve A as depicted on both the General Plan and Plat as submitted for review. A gate with a sign that reads "Harris County Maintenance Ends Here" marks the location of where the public ROW ends. The paving section turns into a gravel road that leads to an existing RV Park "Dell Creek" currently in operation on another portion of the property not being platted. Proposed Reserve A will be an extension of the RV Park, intended to serve patrons of the RV park only. If the ROW were dedicated to the public it would be exempt from extending further west due to the Rail Road Track that directly abuts the property to the west under the current ordinance. The intent of the ordinance is being met and maintained due to the existing width of said access easement being 60' feet, and the proposed reserve's frontage along the private access easement would be well over 60' feet. The only difference between the ordinance regulation's and the private ROW on the ground is the designation of public vs. private. Dedicating the private access easement to the public would not significantly increase traffic flow or function at this sight due to the existing rail road tracks to the west preventing the ROW from being extended to the west, therefore strict application of the ordinance would create an undue hardship by depriving the current landowner reasonable use of land if the variance request is denied. The MUD district was approached with the idea of dedicating the private access easement to the public and joining the plat as an owner, however the invitation was declined based on the need for a public ROW not being necessary. The public has no destination along the private access easement that is not in direct relation to the RV park, and if the ROW was dedicated

to the public would not be required to extend across the Rail Road Track therefore there is no legitimate need for the MUD district to dedicate the easement to public.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

Applicant has not created or imposed the hardship in this request. The ROW was conveyed to Crosby MUD district in 2009 by the previous land owner. The private access easement serves the existing RV park and MUD facilities.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The private access easement is the same 60' foot in width as required per the ordinance and proposed Reserve A would have more than the required amount of frontage if the easement were a public ROW, therefore the intent and general and general purpose of this chapter will be preserved and maintained.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Dedicating the private access easement to the public would not significantly increase traffic flow or function in the, and would be exempt from extending further west due to the Rail Road Track. The private access easement would serve the patrons of the RV Park Dell Creek only, therefore the granting the variance will not be injurious to the public health, safety or welfare.

(5) Economic hardship is not the sole justification of the variance.

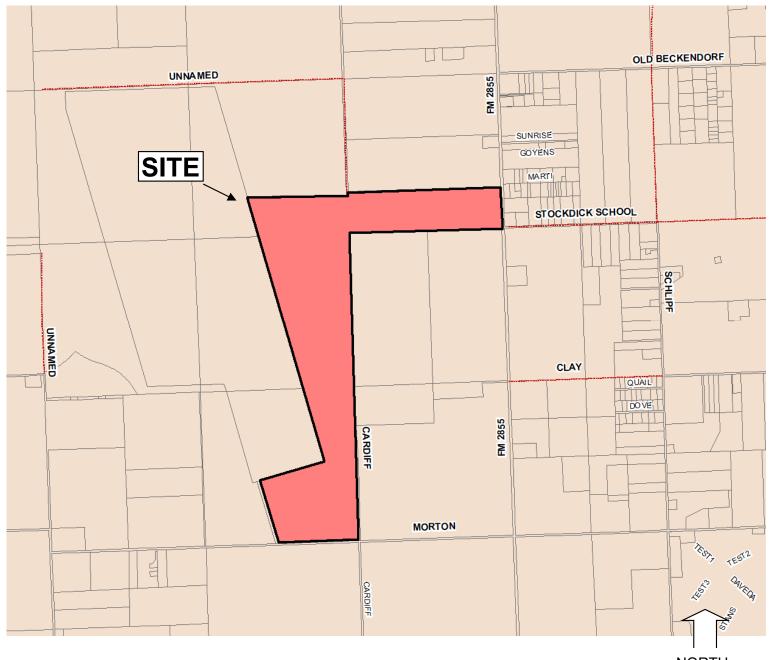

The variance request is not based on economic hardship, the hardship for this request is solely ownership of the land and the designation between private ROW and Public ROW. In this particular instance, all things are considered equal other than the designation. This is not an economic hardship.

P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To not provide a north-south street and to exceed the maximum intersection spacing measurement for a distance of approximately 4,216 feet, in lieu of the required 1,400 feet.

Chapter 42 Section: 127

Chapter 42 Reference:

Sec 42-127. Intersections of major thoroughfares. (a) A major thoroughfare shall intersect with a public local street, a collector street or another major thoroughfare at least every 2,600 feet. (b) Intersections along a major thoroughfare shall be spaced a minimum of 600 feet apart.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

The Freeland Tract is a ±814-acre master planned community in Waller County located north of Morton Road, south of F.M. 529 (Freeman Road), west of F.M. 2855, and east of F.M. 362. The project is directly bounded by Morton Road to the south, proposed Cardiff Road along the inner eastern boundary, proposed Clay Road that bisects the southern portion of the tract, and proposed Stockdick Road, a designated major thoroughfare, that bisects the northernmost portion of the tract. The project is also bounded to the west by City of Houston Airport System owned property currently used as a mitigation bank related to Houston Airport operations and to the East is primarily undeveloped agricultural land. In addition to major thoroughfares, the proposed development includes a collector street system designed to provide vehicular circulation to all portions of the proposed master planned community. The proposed design is intended to offset the access limitations created by the bifurcation of multiple pipeline easements throughout the tract as well as proposed major thoroughfare alignments. The proposed development abides by the City of Houston and Waller County Major Thoroughfare Plans' proposed alignments of Stockdick Road. This alignment diagonally bisects the northernmost portion of the tract, which creates a street layout that necessitates a variance request. The stub street proposed on the southern boundary and the proposed Stockdick Road alignment are unable to attain the required 1,400-foot intersection spacing as a result of the referenced constraints. The proposed development will provide a collector street system that runs north-south through the central portion of the proposed community. This collector intersects with the proposed alignment of Stockdick Road to the north. This collector also provides access to Cardiff Road, as well as a connection to a second collector that provides an additional access point to Cardiff Road, and a third collector that provides access to Morton Road at the project's southern boundary. In addition to this primary collector street system, the proposed

development provides two stub street connections on its northern boundary and one stub street location on its southern boundary in the northernmost portion of the tract that shows proposed local streets and single-family lots.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The proposed alignment of Stockdick Road, the bifurcation of multiple pipeline easements, and parcel ownership geometrics for the subject area create physical constraints and are therefore not a hardship created or imposed by the applicant.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The overall circulation is upheld by the planned major thoroughfares in the surrounding area. The internal circulation is provided in the form of the proposed collector street system and the additional local street connections to the major thoroughfare, thereby preserving and maintaining the intent and general purposes of this chapter.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The proposed collector street system in the subject site will provide sufficient circulation and will therefore not be injurious to the public health, safety, or welfare.

(5) Economic hardship is not the sole justification of the variance.

The existing constraints established surrounding the proposed development create limitations for local street connections, and therefore, economic hardship is not the sole justification of the variance request.

BUSINESS PARK

Application Number: 2023-0520 Plat Name: Kickapoo Industrial Park replat and extension Applicant: Hovis Surveying Company Inc. Date Submitted: 03/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

We are requesting to not provide a North-South street through this development and to allow for an overlong block length along Old Hempstead Highway and to not provide an East-West street through this development.

Chapter 42 Section: 127 & 134

Chapter 42 Reference:

42-127 (a) A major thoroughfare shall intersect with a public local street, a collector street or another major thoroughfare at least every 2,600 feet. 42-134 (a) A public street that terminates at the boundary of a plat previously approved by the commission without means of a vehicular turnaround shall be extended into the adjacent property at the time the adjacent property is platted

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

This 33.230 acre development is located on the North side of Old Hempstead Highway, 2,027.98 feet East of Kickapoo Road and 1,848.90 feet West of Kermier Road. The North line of this development adjoins a 180 foot Harris County Flood Control District Drainage Easement. The creation of a North South Street would require the road to cross the 180 foot Harris County Flood Control District Drainage Easement in order for it to extend to U.S. Highway 290. There is currently a 66 foot unimproved right-of-way and a 20 foot Harris County Road right-of-way that runs East and West through this development. There was an agreement to allow them to be abandoned upon the dedication and construction of the 180 foot Harris County Flood Control District Drainage Easement. This East West street would not be able to connect to Kermier without running through the 180 foot Harris County Flood Control District Drainage Easement. This East West street would not be able to connect to Kermier without running through the 180 foot Harris County Flood Control District Drainage Easement. This East West street would not be able to connect to Kermier without running through the 180 foot Harris County Flood Control District Drainage Easement and would not be able to provide circulation to Kickapoo Road as it would intersect Old Hempstead Highway before it reached Kickapoo Road.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant as these circumstances were in place prior to this proposed development. In exchange for the dedication and creation of the ditch within the 180 foot Harris

County Flood Control District Drainage Easement there was an agreement that the 66 foot unimproved right-of-way and the 20 foot Harris County right-of-way could be abandoned upon development. A Easterly portion of the 66 foot unimproved right-of-way is already within the constructed drainage channel which prevents extension of the road to Kermier Road.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter will be preserved and maintained because the existing major thoroughfares in the area provide for adequate circulation in the area. Kickapoo Road and Kermier Road are both major thoroughfares and would allow for a 2,600 foot intersection spacing for an East West street. U.S. Highway 290 in within 2,100 feet at right angles from the South line of this development and would meet that intersection spacing requirement.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of the variance will not be injurious to the public health, safety or welfare because this development is surrounded by major thoroughfares which provide for circulation in the area. The creation of a North South Street would not only require the crossing of the 180 foot drainage channel but would also only extend to Highway 290 which may or may not be allowed direct access. This proposed development will be industrial warehouses and will not be creating commercial or retail traffic in the area.

(5) Economic hardship is not the sole justification of the variance.

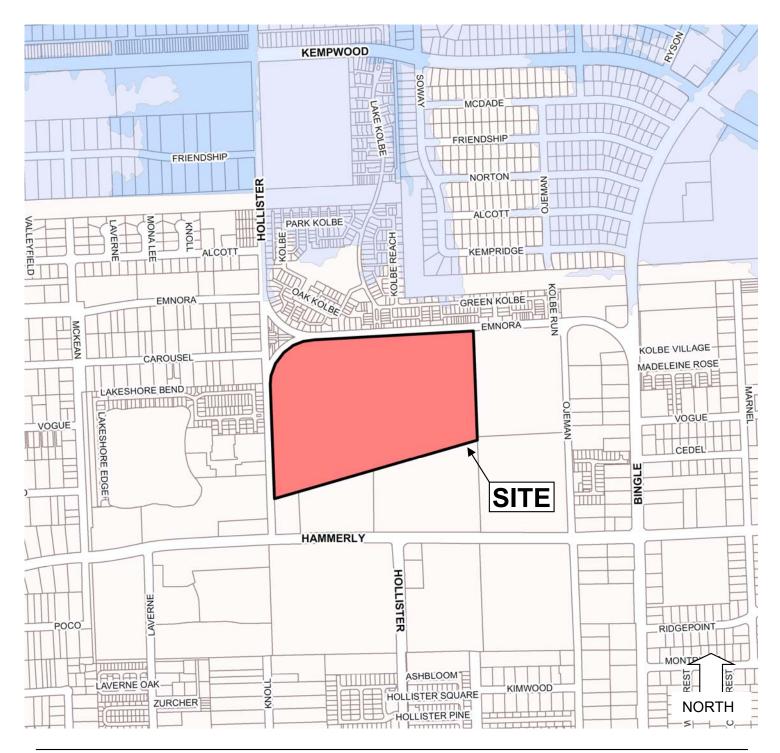

Economic hardship is not the sole justification for the variance because there were certain conditions in place prior to the development of this property. The creation of the drainage channel and easement were required to improve the overall drainage in this area and part of the agreement to create the drainage channel was that the existing unimproved 66 foot right-of-way and the 20 foot right-of-way within this development would be abandoned. In addition, the current layout of the existing streets would not allow for improvement to the circulation in the area because due to the existing development to the East and the existing drainage channel the right-of-way would not be able to extend any further East than the East line of the development. Extension of the street to the West would just extend back to Hempstead Road and not make connection with Kickapoo Road.

Application Number: 2023-0415 Plat Name: Kolbe Grove Sec 1 Applicant: Windrose Date Submitted: 02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

to have courtyard access for lots fronting on private alleys instead of a public street or shared driveway; and to not dedicate a north-south or east-west public right of way through the subject site.

Chapter 42 Section: 128, 188

Chapter 42 Reference:

Sec. 42-128. – Intersection of local streets. (a) Each class III plat and each general plan that shows local streets shall provide for internal circulation by meeting either of the following requirements: (1)Each local street shall intersect with a street that meets the requirements of subsection (b) at least every 1,400 feet; Sec. 42-188. - Lot access to streets. (a) Each lot shall have access to a street or shared driveway that meets the requirements of this chapter and the design manual, subject to the limitations of this section.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

The subject site is approximately 35 acres located at the intersection of Hollister Road and Emnora Lane. Developer plans to construct a single-family residential neighborhood serviced by a network of Permanent Access Easements (PAEs), a shared driveways, and private alleys. Reserves A, C, and D are courtyard areas restricted to open space. The Code requires these lots to be services by a public street or shared driveway. Emnora Lane and Ojeman Road are local streets, and there are approximately 2,200 feet between Hollister Street and Ojeman, over 1,400 feet between Ojeman and Hammerly Blvd. The Code requires an additional intersection between these points, running north-south and east-west through the subject parcel. The justification of this variance is the imposition of the code's various public right of way requirements is at odds single family residential character of the intended development and the surrounding area. The private alleys and permanent access easements, and the courtyard access on open space reserves provides other opportunities for residents to access their homes besides cars. Large public rights of way are intended to move a large volume of traffic at high speeds, requiring minimum widths and long curves to reduce accidents. Narrow permanent access easements and alleys provide enough mobility for residents' vehicles, but their main purpose is to build community. Neighbors can visit each other and the open spaces in the neighborhood more easily on foot and bike without the threat of vehicles using their subdivision to speed along to the next destination. Wide public rights of way are not appropriate for residential developments.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The subject property is situated such that a single family neighborhood is the highest and best use off the site. The subdivision to the north is another single-family neighborhood, Kolbe Farms (F.C. NO. 653210, H.C.M.R.), served by 28' private permanent access easements. To the west is Hillshire Lakes subdivision, which also is accessed by 28' PAEs. To the east are two elementary schools, Cedar Brook and Edgewood, providing a close and easily accessible education for children of future residents. A variance here is needed to preserve the secluded and family-friendly character of the development.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent of the intersection spacing requirements of the code is to promote the development of an orderly and safe transportation grid. Development will be served by a network of several interconnected 28' permanent access easements, with a major 60' access point on Emnora Lane and on Hollister Street. The individual homes are served by private alleys – the homes along Reserve A, C, and D also having courtyard access. The site has plenty of vehicular access – and access for foot and bike travel - provided in a manner that is appropriate to the single-family character of the area. The lots having courtyard access with frontage on a private alley are not currently allowed by the code, but are contemplated by the city's Livable Places initiative (see presentation excerpt attached). This initiative is designed to promote multiple types of housing and increased walkability for pedestrians and cyclists. The proposed street layout of the site and the variances requested are a perfect fit with this intent, which will soon become a formal part of Houston's subdivision ordinance.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

It is in the interest of future residents of the development to enclose of from the noise and danger of through traffic from collectors and major thoroughfares. Applicant is providing a transportation grid of streets appropriately scaled for human development, while making the necessary allowances for resident and emergency vehicles. Through traffic may utilize Hollister and Ojeman for northsouth travel and Hammerly and Emnora as east-west travel.

(5) Economic hardship is not the sole justification of the variance.

The reasons for the variance request are not economic in nature, but to preserve the safety and tranquility of the future residents. A public right of way dedication would bring noise and traffic near people's homes, limiting opportunities to build community and enjoy the neighborhood. Granting this variance balances the needs of the overall Houston transportation grid and the needs of the people who will live in the proposed development.

February 24, 2023

NOTICE OF VARIANCE PROJECT NAME: Kolbe Grove Sec 1 REFERENCE NUMBER: 2023-0415

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located along and south of Emnora Lane and east of Hollister Road. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

Windrose, the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting two variances: (1) to allow courtyard access for lots fronting on private alleys and (2) to not provide north/south or east/west public streets through the site. Enclosed are copies of the variance request and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Steven Henderson, with Windrose, at **713-458-2281.** You may also contact Aracely Rodriguez with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6600. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rightsof-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

Aerial

Application Number: 2023-0299 Plat Name: Linn Street Estates Applicant: Tri-Tech Surveying Co., LP/Tri-Tech Engineering, LP Date Submitted: 02/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

We are requesting a variance to not extend Staple Street as required by Sec 42-134(a), a public right-of-way that stubs into the proposed southern boundary of our proposed plat Linn Street Estates.

Chapter 42 Section: 42-134(a)

Chapter 42 Reference:

A public street that terminates at the boundary of a tract without means of a vehicular turnaround shall be extended into the adjacent property at the time the adjacent property is platted

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

Staple Street, if extended through to its terminus point, would stub into the back of lots 5 and 6, block 1 of Crane Street Woods Section 1 as recorded under Volume 18 Page 73 of the Map Records of Harris County Texas. As well, Extending Staple Street into the back of previously recorded lots would cause an undue hardship depriving the applicant of a more efficient land plan layout and would potentially be unsafe for the proposed community.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstances granting the variance are not the result of any hardship created or caused by the applicant, rather the public right-of-way of Staple Street has ended at the southern property boundary for its entire existence and was not intended to be pushed through the applicants tract.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The health, safety, and well-being of the public would be ensured by the granting of this variance. Staple Street currently serves approximately 30 homes North of the nearest cross street. Extending staples street to the North boundary of our proposed plat would not serve the existing lots with additional access. The granting of this variance would preserve and maintain the general purpose of Chapter 42.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of this variance would not be injurious to public health, safety, or welfare because of the current use of Staple Street and the terminus point being at the back of recorded lots. The granting of this variance would remain consistent with public need.

(5) Economic hardship is not the sole justification of the variance.

Economic hardship has nothing to do with the request to not dedicate the public right-of-way. Rather, this would allow for a more beneficial land plan for the City as well as continuing to serve the current properties along Staple Street.

D – Variances

Aerial

Application Number: 2023-0362 Plat Name: Lockwood South Sec 2 Applicant: Marsh Darcy Partners, Inc. Date Submitted: 02/17/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow the minimum single-family lot size to be less than 3500 square feet.

Chapter 42 Section: 183

Chapter 42 Reference:

Sec. 42-183. - Lot sizes—Single-family residential—Urban area. (a) The minimum lot size for a single-family residential lot in an urban area shall be: (1) 3,500 square feet for lots with wastewater collection service; (2) Less than 3,500 square feet for lots with wastewater collection service, but in no event less than 1,400 square feet, if the subdivision plat meets the standards of: (a.) Subsection (b); or (b.) Sections 42-184 and 42-185 of this Code;

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

N/A

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Lockwood South is a 5.4415-acre mixed housing size, single -family residential, affordable housing project being jointly developed by the Buffalo Bayou Partnership and Brinshore Development LLC. The project has received approval of funding from the City of Houston and is a high priority affordable housing project of both Mayor Sylvester Turner and the City of Houston. The project is located near the south side of Buffalo Bayou west of Lockwood Drive as a part of the Buffalo Bayou East Master Plan prepared by the Buffalo Bayou Partnership and a re-development of previous industrial warehouse use with considerable support and input from the City of Houston, Harris County, and the adjacent residential neighborhoods. This affordable residential development will consist of 76 units, of which a minimum of 50 units (non-designated) will be sold to homeowners who qualify for affordable housing as a result of a maximum annual income of 80% to 120% of the Average Median Income (AMI) in Houston. The buildings will be single unit, free-standing; two units attached; three units attached; or four units attached on individual unit for-sale lots with most of the units being 3-story. The developers will make every attempt to keep the necessary qualifying income as low as possible. The development will have the minimum amount of public street right-ofway required for development circulation and utilize shared private driveways to minimize driveway and street paving requirements. This effort will include the need to keep the purchased lot size to the very minimum required for construction of the home. As a result, all of the lots within the development will be less than 3500 square feet in area and will not qualify for the compensating open space option that requires a maximum of 60% of lot coverage (42-183 b 1) nor 42-184 or 42185. This reduced lot size will allow the density to be increased to approximately 14 units per acre (still less than the maximum 27 gross units per acre) and subsequently allow the per unit cost to be substantially reduced allowing the greater probability of affordable housing qualification. Not allowing a minimum lot size less than 3500 square feet would make this affordable housing project infeasible and contrary to sound public policy. Non-compensating open space will be provided within the Lockwood South Sec 2 development. This non-compensating open space will be maintained by a Homeowners Association relieving each homeowner of the direct responsibility of maintenance for a larger private lot. While the development will meet the required on-site residential parking space requirement, one of the significant project features will be a major north/south greenway pedestrian "spine" with smaller connecting east/west greenway "fingers" to provide a maximum amount of open space and allow greenspace front door courtyard entries to a majority of the units. Additionally, residents in the development will be able to directly access the Buffalo Bayou East Multi-Use Trail. the Lockwood Trailhead with public parking under the Lockwood Drive bridge, a dog park, and children's playground, along with enhanced greenspace areas within the Lockwood South development and the residents will be able to access by foot and by bicycle, additional green space areas along Buffalo Bayou (see the Lockwood on Buffalo Bayou Lockwood Park Plan). This direct access will allow residents of Lockwood South to enjoy significant public open space amenities along Buffalo Bayou and provide direct pedestrian and bicycle access to downtown Houston. As a result of this landscape and park design, Lockwood South Sec 2 will be a significant positive for the environment and the City of Houston. Supporting this variance will allow this vision to take place.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The hardship that requires this variance was not the result of a hardship created or imposed by the applicant. Instead, the applicant desires to provide affordable housing for citizens of the City of Houston as supported by both Mayor Sylvester Turner and the City of Houston administration. That need for affordable housing creates the hardship to not comply with the minimum 3500 square feet lot size. This type of affordable housing project is needed by the City of Houston and the Houston Planning Commission should seek a solution to that need by supporting this variance.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent to provide safe, adequate housing for the citizens of Houston will be maintained. Additionally, the added benefit of providing affordable housing will be added to the intent and general purposes of this chapter. Adequate housing and adequate open space will both be provided by this development. Approval of this variance will allow the Lockwood South Sec 2 affordable single-family housing development to go forward for the benefit of all citizens of the City of Houston and will enhance economic equity.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The provision of non-compensating open space within the Lockwood South Sec 2 development plus allowing access to a significant area of adjacent public open space and an expanded Tony Marron Park will be more than adequate compensation for the proposed reduced lot size. As a result, the granting of this variance will not be injurious to the public health, safety of welfare.

(5) Economic hardship is not the sole justification of the variance.

Not granting this variance will deny the needed availability of quality affordable housing for the citizens of the City of Houston. Any economic hardship will fall on the shoulders of the future affordable housing homeowners as a result of the denial of this variance. As a result of not granting this variance, this project will be infeasible and not in the best interest of sound public policy which will include a significant use of public investment of the City of Houston if the variance is granted.

Application Number: 2023-0362 Plat Name: Lockwood South Sec 2 Applicant: Marsh Darcy Partners, Inc. Date Submitted: 02/17/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow less than 60 feet of public street right-of-way width for public streets adjacent to non-residential use.

Chapter 42 Section: 122

Chapter 42 Reference:

Sec. 42-122. - Right-of-way widths. The minimum right-of-way required for each of the following types of streets or public alleys shall be as follows, subject only to the street width exception areas established pursuant to section 42-123 of this Code: Local streets (1) 50 feet if adjacent to exclusively single-family residential lots; or (2) 60 feet if adjacent to any other development

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

N/A

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Lockwood South is a 5.4415-acre mixed housing size, single -family residential, affordable housing project being jointly developed by the Buffalo Bayou Partnership and Brinshore Development LLC. The project has received approval of funding from the City of Houston and is a high priority affordable housing project of both Mayor Sylvester Turner and the City of Houston. The project is located near the south side of Buffalo Bayou, west of Lockwood Drive as a part of the Buffalo Bayou East Master Plan prepared by the Buffalo Bayou Partnership and a re-development of previous industrial warehouse use with considerable support and input from the City of Houston, Harris County, and the adjacent residential neighborhoods. This affordable residential development will consist of 76 units, of which a minimum of 50 units (non-designated) will be sold to homeowners who qualify for affordable housing as a result of a maximum annual income of 80% to 120% of the Average Median Income (AMI) in Houston. The buildings will be single unit, free-standing; two units attached; three units attached; or four units attached on individual unit for-sale lots with most of the units being 3-story. The developers will make every attempt to keep the necessary qualifying income for affordable housing as low as possible. The development will have the minimum amount of public street right-of-way required for development circulation and utilize shared private driveways to minimize driveway and street paving requirements. This effort will include the need to keep the maximum number of developed lots to reduce unit cost and provide the maximum number of affordable housing units. The revised Lockwood South General Plan indicates an irregular shaped tract at the southeast corner of the general plan that is slightly larger than 1 acre in size.

The future land use of this tract is proposed to be mixed-use (see the Lockwood on Buffalo Bayou Lockwood Park) that will include non-residential service commercial use for neighborhood services in addition to the generation of customers outside the Lockwood South development. This location is at the intersection of Lockwood Drive and Tony Marron Parkway at the Lockwood Drive entry into the Lockwood South development. This tract will be adjacent to Lockwood Trailhead Drive with 99.53 feet of frontage and E. Lockwood Park Lane with approximately 200 feet of frontage with the width of right-of-way for each of these two streets proposed to be 50 feet. The north or south side of Lockwood Trailhead Drive is not proposed to be residential in use and the east side of E. Lockwood Park Lane is not proposed to be residential in use. Harris County is currently preparing for their construction of the roadway within the Lockwood Trailhead Drive/E. Lockwood Park Lane/Tony Marron Parkway loop connecting with Lockwood Drive in two locations. The proposed paving width for this construction does not require 60 feet of right-of-way width. Typically, a minimum 60-feet wide right-of-way is required for non-residential frontage for commercial use tracts that encourage a high level of vehicle trips generated by the higher intensity use. While the exact use or design of this tract is not feasible at this time, this tract will not be of sufficient size to generate a significant increase in vehicle trips with a significant portion of the traffic generation expected to be Lockwood South residents on these streets. The location of Lockwood Trailhead Drive is based on access to redevelopment of the below-bridge area for vehicle parking and will not encourage increased traffic to use Lockwood Trailhead Drive as this street will only be access to vehicle parking below the Lockwood Drive bridge. The additional 10 feet of right-of-way width for these two short streets will negatively impact the remaining allowable area for services development, will increase the cost of the remainder of the development reducing the number and increasing the cost of the affordable housing units. It is impractical and not in the interest of sound public policy. Granting this variance will allow the provision for an affordable housing community with the maximum available area for potential commercial services.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The hardship that requires this variance was not the result of a hardship created or imposed by the applicant. Instead, the applicant desires to provide affordable housing for citizens of the City of Houston as supported by both Mayor Sylvester Turner and the City of Houston administration. That need for affordable housing creates the hardship to provide a maximum area for possible commercial service to allow for a complete affordable housing community. This type of affordable housing project is needed by the City of Houston and the Houston Planning Commission should seek a solution to that need by supporting this variance.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent to provide safe, adequate, commercial service facilities for the affordable housing homeowners and for the citizens of Houston will be maintained. Additionally, the benefit of providing affordable housing as a compete community will support the intent and general purposes of this chapter. Adequate affordable housing and adequate commercial services will both be provided by this development. Approval of this variance will allow the Lockwood South Sec 2 affordable single-family housing development to go forward for the benefit of the affordable housing homeowners and of all citizens of the City of Houston and will enhance economic equity.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The minimum area and location of this proposed neighborhood service tract will not have a negative impact on the affordable housing community. Whereas the additional, unnecessary right-of-way width for these two streets will have a negative impact on the ability to provide as many affordable housing units for the citizens of Houston as possible. As a result, the granting of this variance will not be injurious to the public health, safety of welfare.

(5) Economic hardship is not the sole justification of the variance.

Not granting this variance will deny the needed availability of quality affordable housing for the citizens of the City of Houston. Any economic hardship will fall on the shoulders of the future affordable housing homeowners as a result of the denial of this variance. As a result of not granting this variance, this project will be infeasible to provide the maximum number of affordable housing units and not in the best interest of sound public policy which will include a significant use of public investment of the City of Houston if the variance is granted.

NOTICE OF VARIANCE PROJECT NAME: Lockwood South Sec 2 REFERENCE NUMBER: 2023-0362

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located west and along Lockwood Drive, north of Navigation Boulevard, and south of Buffalo Bayou. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

Marsh Darcy Partners, Inc., the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting two variances: 1) to allow single-family lots to have less than the ordinance required minimum lot size of 3500 square feet; and 2) to allow public right-of-way width of 50' for non-residential uses. Enclosed are copies of the variance request, site plan and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 16, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call J Kent Marsh with Marsh Darcy Partners, Inc. at 713-647-9880. You may also contact Tammi Williamson with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6528. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rights-ofway, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

Application Number: 2023-0249 Plat Name: Victory Cottage Applicant: Pioneer Engineering, LLC Date Submitted: 02/03/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

To avoid extending Cora street, north to south, through this development property and to terminate with alternate turnaround instead of a cul-de-sac.

Chapter 42 Section: 134 (a)

Chapter 42 Reference:

A public street that terminates at the boundary of a plat previously approved by the commission without means of a vehicular turnaround shall be extended into the adjacent property at the time the adjacent property is platted.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Property is located 165 feet east from Dyer Street and 599 feet west from Bradmar Street. S Victory, a major thoroughfare, is abutting north of the property and Cora, a local street, is abutting south of the property. The northwest portion of Cora Street, a local street, terminates along the southeast property line of this development site. Extending public street through this parcel would cause incompliance with the 600' intersection spacing requirement along major thoroughfares, such as S Victory Drive. Cora Street is currently 45' wide right-of-way and needs to be widened to be 50' wide per City Ordinance. Proposing cul-de-sac would impact and depend on the abutting east property to dedicate necessary street widening and area for proper turnaround design. The time for street dedication by abutting owner and construction of cul-de-sac is undetermined. However, by providing an alternate vehicular turnaround instead of a cul-de-sac, immediate development and use of turnaround which would be beneficial for safety and better traffic circulation for the residents and emergency vehicles.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant. The circumstances are the result of the existing surrounding street design.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter will be preserved and maintained because the intersecting spacing will not present as an issue when the properties east and west continue to develop along S Victory Street.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of the variance will not be injurious to the public health and safety or welfare; there is adequate circulation in the area with the existing street design. The turnround around proposed will be available immediately for use instead of waiting for the east neighboring property to develop the rest of the cul-de-sac.

(5) Economic hardship is not the sole justification of the variance.

Economic hardship is not the sole justification of the variance. Variance is based on both existing street layout and avoiding street intersection problems.

P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

Not to dedicate to the public right-of-way for a street designated in a subdivision plat as a public right-of-way (Garapan Street) or to provide a cul-de-sac for Garapan Street.

Chapter 42 Section: 42-121

Chapter 42 Reference:

(a) The applicant shall dedicate to the public the right-of-way for any street or alley designated in a subdivision plat as a public right-of-way in accordance with the requirements of this chapter and applicable state law. (b) When an existing public street with a right-of-way width that does not meet the requirements of section 42-122 of this Code is adjacent to and forms a boundary of a subdivision plat or development plat, the owner of the property within the proposed subdivision or development shall dedicate sufficient additional right-of-way within the proposed subdivision or development adjacent to the existing right-of-way to provide one-half of the total right-of way width necessary to meet the requirements of section 42-122 of this Code. In the case of a subdivision plat, the dedication shall be made by plat. In the case of a development plat, the dedication shall be made by separate instrument. The commission shall waive the requirement to dedicate right-of-way upon finding that the applicant has made a satisfactory showing that the proposed subdivision or development will not contribute to a significant increase in traffic on the street. (c) When the commission finds that it is necessary for the proper subdivision of land and it is in the public interest to locate a new public street right-of-way centered on a property line, the commission shall approve the dedication of one-half of the land needed for the right-of-way. Any subdivision plat that provides for a partial street dedication pursuant to this subsection shall include a one-foot reserve along the proposed centerline with appropriate notations restricting access from any right-of-way so dedicated to adjacent property until the required additional adjacent right-of-way is dedicated.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

The subject site fronts directly onto north-south street, Wheatley Street, which is a designated major thoroughfare. East-west local street, Homer Street, is approximately 170 feet south of the southern plat boundary. East-west local street, Wilburforce Street, is approximately 350 feet from the northern plat boundary. These two east-west streets are approximately 855 feet apart from one another. Directly to the east of the subject subdivision tract are other lots that were platted with

Highland Heights Annex No. Three (Vol. 7, Pg. 6 HCMR). Those lots take access from an east-west public street, Garapan Street, which is approximately 475 feet south of east-west public street, Wilburforce Street. Garapan Street is approximately 380 feet north of Homer Street. Requiring the extension of Garapan Street would create an impractical development and is contrary to sound public policy because: (1) East-west circulation already has been addressed by Homer Street and Wilburforce Street. (2) 1,400 foot intersection spacing requirements are already met by the existing street pattern. (3) Existing Garapan Street has limited access. It is only 453 feet long. (4) Garapan Street is only a 30 foot right-of-way. Requiring the a cul-de-sac on Garapan Street would create an impractical development and is contrary to sound public policy because: (1) Existing Garapan Street has limited access. (2) Requiring a cul-de-sac within the subject site would create impractical development of the site. (3) (4) Because existing Garapan Street is only 30 feet, there would be a number of complications arising from its extension into the subject site including: a. Connecting the proposed Type II PAE system to Garapan Street would cause cut-through traffic on Garapan Street, as well as through the proposed Type II PAE development. b. The dedication of a cul-de-sac in the middle of a relatively small blockface along the major thoroughfare would result in unwanted traffic movements along Garapan Street, creating confusion in the existing street pattern. c. Engineering of a cul-de-sac street at this location would result in a clumsily-designed right-of-way that would be contrary to sound public policy

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The street circulation pattern in this block was established in the early volumes of the Harris County map records (Volume 4 and Volume 7, respectively). This was done many decades prior to the applicant becoming involved with this property.

(3) The intent and general purposes of this chapter will be preserved and maintained;

Area traffic circulation for the surrounding properties will not be affected and has been adequate for many years. Granting this variance request will have no additional impact to traffic circulation on Garapan Street, as all lots in this Type II PAE development will ultimately gain access from Wheatley Street, which is a designated major thoroughfare. As indicated, the proposal meets the intent and general purposes of this Chapter as the development otherwise meets the performance standards of Chapter 42-134. Additionally, area circulation already is addressed by the public street system, which already meets intersection spacing requirements.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of this variance does not alter the existing traffic conditions of the surrounding areas, nor is it injurious to the public health, safety or welfare of this area. There is enough room for future residents to enter and exit to/from Wheatley Street, a designated major thoroughfare, in and out of the proposed development in a forward direction. There are sufficient streets to serve the existing neighborhood. Often, there are requests presented to the Planning Commission for variances to allow access to major thoroughfares in ways that do not meet the normal provisions of Chapter 42. This request is not one of those. Instead, granting of this request would allow for the proposed subdivision to take access to / from the designated major thoroughfare in the manner contemplated by Chapter 42. The result of granting this variance request would not be injurious to the public health, safety or welfare because it otherwise meets the spirit of the ordinance with respect to neighborhood preservation and traffic circulation.

(5) Economic hardship is not the sole justification of the variance.

Imposition of the standards of this chapter would result in undue hardship that would deprive the applicant reasonable use of the land. Existing conditions led to the configuration of the property, and the general intent and purpose of this chapter would be maintained.

February 9, 2023

NOTICE OF VARIANCE PROJECT NAME: Views at Wheatley REFERENCE NUMBER: 2023-0049

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located along and north of Wheatley Street between Wilburforce Street and Homer Street. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

PLS Construction Layout, Inc the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting a variance to not extend nor terminate in a cul-de-sac Garapan Street. Enclosed are copies of the variance request, site plan and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 2, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Uriel Figueroa with PLS Construction Layout at 713-480-4075. You may also contact Geoff Butler with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6528. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rightsof-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

NUIES

- 1. ALL WORK TO BE PLACED IN STRICT CONFORMANCE WITH FEDERAL, STATE AND LOCAL BUILDING CODES AND REGULATIONS.
- 1.1.1. CODE COMPLIANCE: INTERPRETATIONS AND APPLICATIONS OF THE HOUSTON ADOPTED CODES. 2. MECHANICAL, ELECTRICAL AND PLUMBING WORK REQUIRED OF THIS PERMIT
- APPLICATION TO BE PERFORMED BY SUBCONTRACTORS LICENSED BY THE STATE AND COUNTY IN WHICH WORK IS BEING PERFORMED. 3. CONTRACTOR SHALL COORDINATE AND/OR OBTAIN ALL BUILDING PERMITS
- REQUIRED FOR CONSTRUCTION AND CERTIFICATES OF OCCUPANCY.
- 4. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR ALL CONSTRUCTION MEANS, METHODS, TECHNIQUES AND PROCEDURES.
- 5. CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR ALL ASPECTS OF SAFETY DURING BUILDING CONSTRUCTION AND SHALL PROVIDE ADEQUATE SHORING AND BRACING TO ENSURE SUCH SAFETY.
- 6. ALL DIMENSIONS AND SITE CONDITIONS TO BE FIELD VERIFIED AND SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR. NOTIFY ARCHITECT OF ANY DISCREPANCY PRIOR TO COMMENCEMENT OF WORK. 7. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY LOCATION
- OF ALL EXISTING UTILITIES WHETHER INDICATED ON THE PLANS AND TO PROTECT THEM FROM DAMAGE.
- 8. ALL DETAILS, SECTIONS, NOTES, AND REFERENCE TO OTHER DRAWINGS ARE INTENDED TO BE TYPICAL. 9. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO OBTAIN
- APPROVAL FROM BUILDING OFFICIALS AND/OR GOVERNING BODIES PRIOR TO PROCEEDING WITH WORK THAT VARIES FROM WHAT IS DEPICTED IN THESE DRAWINGS.
- 10. ALL MATERIALS SHALL BE INSTALLED PER THE MANUFACTURER RECOMMENDED INSTALLATION METHODS UNLESS OTHERWISE NOTED OR DETAILED BY THESE DRAWINGS.
- 11. GENERAL CONTRACTOR SHALL BE RESPONSIBLE FOR ALL WORK THAT IS SHOWN OR REASONABLY IMPLIED BY THESE DRAWINGS AND OR SPECIFICATIONS.
- 12. ARCHITECT NOT RESPONSIBLE FOR EQUIPMENT OR MATERIALS NOT SHOWN ON THESE PLANS.
- 13. DRAWINGS SHALL NOT BE SCALED. CONTRACTOR TO UTILIZE LABELED DIMENSIONS TO WITHIN 1/4"
- 14. EFFORTS HAVE BEEN MADE TO UTILIZE INDUSTRY RECOGNIZED CONSTRUCTION STANDARDS AND MATERIALS. IN SOME CASES, GENERIC TERMS HAVE BEEN USED WITHIN THESE DRAWINGS. OWNER AND CONTRACTOR ASSUME RESPONSIBILITY FOR MATERIALS AND THEIR PERFORMANCE IF NOT SPECIFICALLY CALLED OUT WITHIN THE DRAWINGS. 15. SLOPE EXTERIOR GRADE 5% TO DRAIN AWAY FROM BUILDING.
- 16. REMOVE 6" MINIMUM OF EXISTING TOPSOIL AND STABILIZE SOILS USING 8% LIME BY DRY WEIGHT.
- 17. AT LEAST 95% OF MAXIMUM STANDARD PROCTOR DENSITY IN ACCORDANCE W ASTM D698.
- 18. ALL FILL SHALL BE FREE OF DEBRIS, SHALL HAVE A PLASTICITY RATING OF 15 OR LESS AND SHALL BE COMPACTED TO AT LEAST 95% MAX DENSITY AS DETERMINED BY STANDARD PROCTOR TEST AT OPTIMUM MOISTURE CONTENT.
- 19. ALL CONCRETE SHALL BE REG WEIGHT, SAND AND GRAVEL CONCRETE WITH AN ULTIMATE COMPRESSIVE STRENGTH OF 3000 PSI AT 28 DAYS AGE. CONCRETE SHALL BE PROVIDED IN CONFORMANCE WITH ACI-301 SPECS. MAX TEMP OF CONCRETE AT DISCHARGE TO BE 95 DEG FAHRENHEIT.

- 20. RESTEEL TO BE NEW BILLET STEEL ASTM A-615, GRADE 60ASTM, PLACED IN
- CONFORMANCE WITH LATEST ACI SPECS.
- 21. CONTRACTOR TO PROVIDE PROTECTION AGAINST SUBTERRANEAN TERMITES THROUGH A LICENSED PEST CONTROL COMPANY
- 22. PROVIDE DRIP EDGE FLASHING (TURNED OUT) OVER ALL OPENINGS IN
- EXTERIOR WALLS, INCLUDING UNDER PORCHES. 23. ALL EXTERIOR WALL AND ROOF PENETRATIONS SHALL BE FLASHED AS PER CODE AND/OR INDUSTRY RECOGNIZED CONSTRUCTION TECHNIQUES. PROVIDE
- STEP FLASHING AT ALL ROOF WALL CONDITIONS
- 24. WOOD PROTECTION: ALL WOOD FRAMING MEMBERS SHEATHING AND PLYWOOD IN CONTACT WITH GROUND TO BE BORATE PRESSURE TREATED. 25. PROVIDE 1X 18" DEEP SHELF AND ROD AT ALL CLOSETS AND AT OTHER LOCATIONS SHOWN. COORDINATE MASTER CLOSET REQUIREMENTS WITH
- OWNER. 26. PROVIDE 4X 14" DEEP SHELVES AT PANTRY CLOSETS. 27. PROVIDED ALL BATHROOM WITH EXHAUST FANS THAT VENT TO THE
- EXTERIOR. 28. PROVIDE RANGE HOOD WITH EXHAUST FANS THAT VENT TO THE EXTERIOR. 29. PROVIDE CAPPED AND SCREENED DRYER VENT THAT IS SLOPED AND VENTS
- TO THE EXTERIOR.
- 30. PROVIDE SMOKE DETECTORS WITHIN 12" OF EVERY BEDROOM ENTRY DOOR, LAUNDRY ROOM, HALL, AND LIVING AREA, HARDWIRED AND BATTERY BACKUP.
- 31. INSTALL CARBON MONOXIDE DETECTORS OUTSIDE EACH SLEEPING AREA HARDWIRED AND BETTERY BACKUP.
- 32. COMBINE PLUMBING VENTS IN ATTIC SO AS TO MINIMIZE ROOF
- PENETRATIONS 33. PROVIDE TYPE X FIRECODE GYPSUM BOARD ON GARAGE WALLS AND
- CEILINGS 34. CONFRIM WINDOW OPENING FOR LOCAL EGRESS REQUIREMENTS AND MIN
- LIGHT AND VENTING. 35. THE MECHANICAL AND ELECTRICAL LAYOUTS ARE SUGGESTED ONLY. CONSULT YOUR MECHANICAL AND ELECTRICAL CONTRACTORS FOR EXACT
- SPECIFICATIONS, LOCATIONS, AND SIZES. 36. ATTIC VENTILATION TO BE PROVIDED AT A RATE OF 150 SF/VENTILATION AREA.
- 37. SEE IRC 2012 FOR FASTENER SCHEDULE FOR STRUCTURAL MEMBERS AND ALTERNATE CONSIDERATIONS FOR WIND RATING PROVIDED IN IRC 2015 38. NO SUPERVISION OR INSPECTIONS ARE PROVIDED BY THE ARCHITECT UNLESS OTHERWISE PROVIDED BY SEPARATE CONTRACT. EVERY EFFORT HAS BEEN MADE TO ENSURE ALL DIMENSIONS, SPECIFICATIONS, CALCULATIONS CONFIGURATIONS, AND DETAILS ARE CORRECT, AND THAT ALL LOCAL CODES, ORDINANCES, AND GOVERNMENT REGULATIONS HAVE BEEN MET. IF AN ERROR OR OMISSION DOES OCCUR IT IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR AND/OR OWNER TO CORRECT AT HIS/HER OWN EXPENSE AND
- NOT THE RESPONSIBILITY OF THE ARCHITECT. 39. PROVIDE MIN R-8 INSULATION AT ALL RETURN AND SUPPLY AIR DUCTS AND INSTALL IN ACCORDANCE WITH IRC 2012. PROVIDE MIN 14 SEER RESIDENTIAL HVAC EQUIPMENT W/ 80% EFFICIENT GAS FURNACE AND INSTALL IN ACCORDANCE WITH IRC 2012. PROVIDE 40 GALLON TANK GAS WATER HEATER WITH MIN .62 ENERGY FACTOR AND INSTALL IN ACCORDANCE WITH IRC 2012

DRAWN BY: J.G.

Application Number: 2023-0201 Plat Name: Views of Downtown Applicant: PLS CONSTRUCTION LAYOUT, INC Date Submitted: 01/23/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance:

To allow a reduced BL of 10' instead of the required 25'

Chapter 42 Section: 1529a)

Chapter 42 Reference:

(a) The portion of a lot or tract that is adjacent to a major thoroughfare shall have a building line requirement of 25 feet unless otherwise authorized by this chapter. (b) A building line requirement of ten feet is authorized for that portion of a single-family residential lot that backs onto a major thoroughfare, provided that the subdivision plat contains a notation that: (1) The area 15 feet behind the building line along the major thoroughfare is restricted to use as a one-story, uninhabited garage; and (2) Vehicular access cannot be taken from the major thoroughfare.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

The subject site lies at the intersection of Solo Street (40' R.O.W.) and I-10E Feeder (a.k.a. King Street). Strict adherence to Chapter 42 regarding a twenty-five foot (25') building line along the Interstate I 10 property line would place an undue hardship on the applicant due to the relatively small size of the tract. The subject site only has a depth of one hundred feet (100') with an even smaller width of approximately seventy (70') feet. In regards to the width, the subject site is already dedicating 5 feet (10') along Solo Street and 10 feet building line. To require a twenty five foot (25') the South property line would be unnecessary, the proposed structure would be located 10 feen inside the property line and 31 feet from the back of curb of the Feeder road. With our proposed 10' foot building line, the line of construction would be more than 31' from the intersection curve leaving enough open and free space as to not inhibit or disturb current traffic flow. The subject site buildings also intend to take access from a shared driveway, and not either intersecting right-ofway, substantially eliminating any unintended traffic/parking/obstacles near the frontage of the property. Due to the small nature of the lot, and the fact that the owner of the subject tract does not own any adjacent property, quantifies and emphasizes the deprivation of the applicant's reasonable use of the land should this section of Chapter 42 be enforced. Requiring dedication of an additional fifteen feet (15') for an unnecessary building line would create an undue hardship and would deprive the applicant reasonable use of the land.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The street circulation pattern has been maintained utilizing the existing major thoroughfare network, local collector street network, and local street network. In the future, public streets may be dedicated outside of the plat boundary that meet the future intersection spacing requirements. The configuration of the parcel additionally was not a factor created or imposed by the applicant.

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purpose of this chapter will be preserved and maintained by the existing local streets, which are adequate to serve the handful of properties that already use it for public access and frontage. Area traffic circulation for the surrounding properties will not be affected and has been adequate for many years. This plat will not have any measurable additional impact to the area traffic circulation affecting the immediate residential area on Solo Street, nor the I-10E Feeder.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of this variance will not inhibit the existing street or traffic conditions of the surrounding areas, nor is it injurious to the public health, safety or welfare of this area. The proposed site creates no concerns that would be injurious to public health, safety, or welfare.

(5) Economic hardship is not the sole justification of the variance.

Imposition of the standards of this chapter would result in undue hardship that would deprive the applicant reasonable use of the land, rendering the project infeasible due to the intersecting frontage, a predated characteristic of the land. Strict application of this chapter also would result in unsound public policy. Existing conditions led to the configuration of the property, and the general intent and purpose of this chapter would be maintained should the Planning Commission grant the requested variance.

Application No: 2023-0201 Agenda Item: 141 PC Action Date: 03/02/2023 Plat Name: Views of Downtown Applicant: PLS CONSTRUCTION LAYOUT, INC

Staff Recommendation: Defer Applicant request

Chapter 42 Sections: 1529a)

Specific variance is being sought and extent of variance: (Sec. 42-47 and Sec. 42-81)

To allow a reduced BL of 10' instead of the required 25';

Basis of Recommendation:

The site is located within Houston's corporate limits in Harris County, north and along Interstate Highway 10 (East Freeway), between Waco Street and Lockwood Drive. The applicant is proposing two single-family residential lots and is requesting a reduced building line along IH-10 of 10 feet in lieu of the ordinance required 25 feet. Staff recommends to defer the application for two weeks per the applicant's request. The applicant is looking into other design ideas.

Statement of Facts

February 9, 2023

NOTICE OF VARIANCE PROJECT NAME: Views of Downtown REFERENCE NUMBER: 2023-0201

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a variance request for a property located at the northeast intersection of Solo Street and Interstate 10. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

PLS Construction Layout, Inc the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting a variance to allow a 10ft building line along Interstate 10, instead of the required 25ft building line. Enclosed are copies of the variance request, site plan and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 2, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Uriel Figueroa with PLS Construction Layout at 713-480-4075. You may also contact Geoff Butler with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6528. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rightsof-way, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

SCALE

Application Number: 2023-0530 Plat Name: Nanes Road GP Applicant: Meta Planning + Design LLC Date Submitted: 03/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-48 and Sec. 42-82) Specific requirement for which the special exception is being sought:

To allow for no stub street on the western project boundary between Cypress Creek Parkway and existing Butterfield Road with a developable distance of $\pm 1,860$ '.

Chapter 42 Section: 42-128

Chapter 42 Reference:

Chapter 42-128. - Intersections of local streets. (a) Each class III plat and each general plan that shows local streets shall provide for internal circulation by meeting either of the following requirements: (1) Each local street shall intersect with a street that meets the requirements of subsection (b) at least every 1,400 feet; or...

Statement of Facts

(1) Special circumstances exist that are unique to the land or the proposed subdivision or development and that are not generally applicable to all other land, subdivision for development in the city or its extraterritorial jurisdiction that justify modification of the standards that would otherwise apply;

The Nanes Tract is a proposed ±59.1-acre single-family development located south of Cypress Creek Parkway and east of Ella Boulevard. The site borders the Houston City Limits but is wholly located in the ETJ and within Harris County. The subject site is surrounded by a multitude of uses including commercial, multifamily, utility uses, and undeveloped property. On the western boundary, the property is bordered by a large commercial shopping center as well as undeveloped property owned by Harris County and a utility site for Harris County MUD No. 86. Across Ella Boulevard is a large, gated apartment complex as well as more commercial uses. A stub street along the western boundary is not practical. The surrounding area has developed in a way that eliminates the need for a stub street, as it would not aid in improving traffic circulation in the surrounding area or internal to the development. A stub street cannot be built into the adjacent commercial use as the existing buildings back up to the property line. Furthermore, a stub street from the subject site would terminate at Ella Boulevard regardless of its placement because the developments across the street, the Lakeview apartments and the commercial site to the north of the apartments, have provided no street to connect into on that side of the block. A street from the subject site would not be extended through the existing developments and would only parallel Butterfield Road without providing significant interconnection for the area. A stub street is therefore of no benefit and serves no purpose to the larger circulation network. Internally, the proposed subdivision will be served by a collector running north to south and will take access from Cypress Creek Parkway and the partiallyexisting Butterfield Road, giving it ample access and meeting the intent of Chapter 42. The distance from Cypress Creek Parkway to the extension of Butterfield Road is approximately 1,860', making this a 33% deviation from the requirements of Chapter 42. This special exception will not deny any of the adjacent properties access, as they all can (and do) take access from Ella Boulevard.

(2) The proposed special exception will achieve a result contemplated by the standard in article III of Chapter 42 (Planning Standards);

The special exception will allow a deviation of approximately 33% and will achieve a result contemplated by the standard in Article III of Chapter 42.

(3) The modification of the standard requested is not disproportionate to the requirement of the standard;

The proposed modification is a 33% deviation from the standard, allowing for an increase in intersection spacing, which is not disproportionate to the requirements of the standard.

(4) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter are preserved and maintained by the sufficient access given to the development and surrounding area.

(5) The granting of the special exception will not be injurious to the public health, safety or welfare.

The granting of the special exception will not frustrate local traffic circulation nor greatly exceed the expectations contemplated by the standards of this ordinance, and is therefore not injurious to the public health, safety, and welfare.

Application Number: 2023-0530 Plat Name: Nanes Road GP Applicant: Meta Planning + Design LLC Date Submitted: 03/06/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-48 and Sec. 42-82) Specific requirement for which the special exception is being sought:

To allow for no stub street on the eastern project boundary between Cypress Creek Parkway and proposed Butterfield Road with a developable distance of ±1605'.

Chapter 42 Section: 42-128

Chapter 42 Reference:

Chapter 42-128. - Intersections of local streets. (a) Each class III plat and each general plan that shows local streets shall provide for internal circulation by meeting either of the following requirements: (1) Each local street shall intersect with a street that meets the requirements of subsection (b) at least every 1,400 feet; or...

Statement of Facts

(1) Special circumstances exist that are unique to the land or the proposed subdivision or development and that are not generally applicable to all other land, subdivision for development in the city or its extraterritorial jurisdiction that justify modification of the standards that would otherwise apply;

The Nanes Tract is a proposed ±59.1-acre single-family development located south of Cypress Creek Parkway and east of Ella Boulevard. The site borders the Houston City Limits but is wholly located in the ETJ and within Harris County. The subject site is surrounded by a multitude of uses including commercial, multifamily, utility uses and undeveloped property. On the eastern boundary, the property is bordered by several commercial uses including a large shopping center, a large office building, and what looks to be a warehouse. South of that is a tract of undeveloped property that terminates at the border of the future Butterfield Road extension. The distance from Cypress Creek Parkway and the proposed Butterfield Road is 1,605' making this a 15% deviation from the block length requirements of Chapter 42. The existence of commercial uses and the future Butterfield Road extension justify this special exception as a stub street would not improve traffic circulation while the existing and proposed streets maintain the intent of Chapter 42. The commercial property to the north was developed in a way that does not allow for a stub street and the undeveloped property to the south will be served by both Butterfield Road and the existing Red Oak Drive giving it ample access. Internally, the subdivision will be served by a collector running north to south and will take access from Cypress Creek Parkway and the existing Butterfield Road.

(2) The proposed special exception will achieve a result contemplated by the standard in article III of Chapter 42 (Planning Standards);

The special exception will allow a deviation of just 15% and will achieve a result contemplated by the standard in Article III of Chapter 42.

(3) The modification of the standard requested is not disproportionate to the requirement of the standard;

The proposed modification is a 15% deviation from the standard, allowing for a decrease in intersection spacing, which is minor and is not disproportionate to the requirements of the standard.

(4) The intent and general purposes of this chapter will be preserved and maintained;

The intent and general purposes of this chapter are preserved and maintained by the insignificant nature of the proposed special exception.

(5) The granting of the special exception will not be injurious to the public health, safety or welfare.

The granting of the special exception will not frustrate local traffic circulation nor greatly exceed the expectations contemplated by the standards of this ordinance, and is therefore not injurious to the public health, safety, and welfare.

DRAFTED BY: CM

Application No:	2023-0238	
Plat Name:	Dice Duplexes	
Applicant:	CAS Consultants, LLC	
Date Submitted:	02/03/2023	

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific requirement or condition being sought:

To not extend or terminate with a cul-de-sac Bring Hurst Street.

Chapter 42 Section: 42-122 & 134

Chapter 42 Reference:

Sec. 42-122 - Rights-of-way widths. The minimum right-of-way required for each of the following types of streets or public alleys shall be as follows, subject only to the street width exception areas established pursuant to section 42-123 of this Code: Local Streets: (1) 60 feet if adjacent to any other type of development other than single-family residential lots. 42-134 states a public street that terminates at the boundary of a plat previously approved by the commission without means of a vehicular turnaround shall be extended into the adjacent property at the time the adjacent property is platted unless (1) The existing stub street is a local street and is not designated as a collector or major thoroughfare on the major thoroughfare and freeway plan (2) The existing stub street is not shown as a through street on a current general plan approved by the commission for the subdivision in which the existing street is located or the subdivision that is the subject of the application (3) The existing stub street is only one lot in depth. (4) The proposed subdivision will not extend residential development; and (5) The extension of the street is not required to meet the intersection spacing requirements of this chapter.

If this request requires a variance or special exception, the applicant must comply with the Plat Submittal Requirements and provide a completed Variance Request Information Form or Special Exception Information Form.

STATEMENT OF FACTS:

We understand the intent and general purposes of this chapter and our intent is to of the requirements to require additional ROW for Bring Hurst Street or provide a cul-de-sac to terminate Bring Hurst Street. However, please note there are only 3 residences taking access off this 90-degree bend to Bring Hurst Street. In addition, the community would not benefit by the extension of a street that currently dead-ends. This street has remained in the same configuration since the 1950's and the extension to another collector street is not possible due to this street not having an ROW on the east side of the property. The strict imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land. Requiring dedicating ROW or provide termination of Bring Hurst Street with a cul-de-sac will take approximately 1/3 of the property.

Application Number: 2023-0238 Plat Name: Dice Duplexes Applicant: CAS Consultants, LLC Date Submitted: 02/03/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific Variance is being sought and extent of variance: To not extend or terminate with cul-de-sac Bringhurst Street Chapter 42 Section: 42-122

Chapter 42 Reference:

Sec. 42-122 - Rights-of-way widths. The minimum right-of-way required for each of the following types of streets or public alleys shall be as follows, subject only to the street width exception areas established pursuant to section 42-123 of this Code: Local Streets: (1) 60 feet if adjacent to any other type of development other than single-family residential lots.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

The strict imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land. Requiring dedicating ROW or provide termination of Bring Hurst Street with a cul-de-sac will take approximately 1/3 of the property.

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy; N/A

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The variance requests are not the result of hardship created or imposed by the applicant. This street does not currently carry a lot of traffic and there is no continuance since there is no dedicated ROW on the east side of the property.

(3) The intent and general purposes of this chapter will be preserved and maintained;

We understand the intent and general purposes of this chapter and our intent is to of the requirements to require additional ROW for Bring Hurst Street or provide a cul-de-sac to terminate Bring Hurst Street. However, please note there are only 3 residences taking access off this 90-degree bend to Bring Hurst Street. In addition, the community would not benefit by the extension of a street that currently dead-ends. This street has remained in the same configuration since the

1950's and the extension to another collector street is not possible due to this street not having an ROW on the east side of the property.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

Granting of the requested variances will not be injurious to the public health, safety, or welfare. The extension of Bring Hurst Street will not improve mobility or restrict fire access to existing street network since the area already provides adequate vehicular access for residents and fire apparatus vehicles.

(5) Economic hardship is not the sole justification of the variance.

The conditions supporting the variance are the existing physical characteristics of the site and current access.

NOTICE OF VARIANCE PROJECT NAME: Dice Duplexes REFERENCE NUMBER: 2023-0238

Dear Property Owner:

The Planning and Development Department has received a subdivision plat application with a reconsideration of requirement variance request for a property located at the north intersection of Lucille Street and Bleker Street, south of Collingsworth Street and east of US-59. You are receiving this letter because you are listed in the Harris County Appraisal District records as a neighboring owner for property that falls within the Chapter 42 required notification area adjacent to this variance request.

CAS Consultants LLC, the applicant, has filed the request on behalf of the developer of the subject site. The applicant is requesting a variance to not extend nor terminate with a cul-de-sac Bringhurst Street. Enclosed are copies of the variance request, site plan and the proposed subdivision plat submitted by the applicant.

The Planning and Development Department staff is currently reviewing this application and will present a recommendation to the Houston Planning Commission. The Commission is the non-legislative body authorized to review and render decisions on subdivision applications and requests. A sign with this information has also been posted on the project site. The Houston Planning Commission will hold a public meeting to consider this application.

PLANNING COMMISSION MEETING INFORMATION:

Thursday, March 2, 2023, beginning at 2:30 p.m. City Hall Annex Building, 900 Bagby Street City Council Chamber, Public Level, Houston, Texas

Members of the public may make comments or express concerns about the proposed project by either attending the meeting at City Council Chamber listed above or attending the meeting via Microsoft Teams at the time listed above. The Microsoft Teams meeting will allow for a two-way video/ audio communication with the Houston Planning Commission. For instruction on how to join the Microsoft Teams meeting, interested persons are advised to check our website 72 hours prior to the Planning Commission meeting: www.houstonplanning.com or Call: 832-393-6624.

Council Members: Amy Peck Tarsha Jackson Abbie Kamin Carolyn Evans-Shabazz Dave Martin Tiffany D. Thomas Mary Nan Huffman Karla Cisneros Robert Gallegos Edward Pollard Martha Castex-Tatum Mike Knox David W. Robinson Michael Kubosh Letitia Plummer Sallie Alcorn Controller: Chris Brown

You may also submit comments or sign up as speakers in the following ways:

1. Send email to: speakercomments.pc@houstontx.gov,

Please submit written comments or sign up as speakers at least 24 hours in advance of the meeting, so staff may compile them in order of the agenda items. ALL comments submitted will be made part of the meeting record. Speakers who signed up to speak will be allowed to make their comments during the meeting.

2. Call the Planning Department at: 832-393-6624 at least 24 hours in advance of the meeting to sign up to speak.

For additional information regarding this project, please call Juan Castillo with CAS Consultants LLC at 281-300-6874. You may also contact Geoff Butler with the Planning and Development Department regarding this notice via email at planning.variances@houstontx.gov or call (832)393-6528. To view the complete Planning Commission meeting agenda, go to www.houstonplanning.com. Information on the reverse side of this page explains more about the terminology used in this letter.

THE PLAT MAY BE DEFERRED. THE NEW DATE FOR COMMISSION ACTION WILL BE INDICATED ON THE POSTED SIGN(S) THE MONDAY MORNING FOLLOWING THE PLANNING COMMISSION DEFERRAL.

Para más información acerca de este documento, favor de llamar al Departamento de Planificación y Desarrollo al 832-393-6659.

TERMINOLOGY

- **CHAPTER 42:** The City of Houston's, Code of Ordinances that describes the rules and regulations for subdividing property within the corporate limits and the extraterritorial jurisdiction.
- **EXTRATERRITORIAL JURISDICTION (ETJ):** Represents the area extending beyond Houston's corporate limits approximately five miles into the unincorporated areas of Harris, Fort Bend, Liberty, Montgomery, and Waller counties.
- **SUBDIVISION PLAT:** A graphical presentation of a particular surveyed tract of land laying out street rights-ofway, lots and reserves, building setback lines, and easements which must comply with the development requirements of the City of Houston's, Code of Ordinances, Chapter 42. These regulations, adopted by City Council, are intended to promote the safe, orderly and healthy development of the City and its extraterritorial jurisdiction. The approved map subsequently may be filed and recorded with the appropriate county clerk's office as the official map of record for this property.
- **SUBDIVISION REPLAT:** Is simply a subdivision plat that further subdivides an existing subdivision plat. Typically, a replat will make changes to the layout of lots, reserves, building setback lines and easements.
- **VARIANCE:** A deviation from strict compliance with the rules and regulations of Chapter 42. The applicant must document a reasonable hardship that staff can evaluate.
- **SPECIAL EXCEPTION:** A commission-approved adjustment to the certain standards of Chapter 42. The applicant must document existing special circumstances unique to the land that justify modification of the development standards.

PLANNING COMMISSION BODY, AUTHORITY AND OBLIGATION

• The Houston Planning Commission is a non-legislative body authorized to govern the subdivision rules and regulations described in Chapter 42. The Commission consists of 25 members and meets every two weeks per their adopted Commission meeting schedule.

PLANNING DEPARTMENT STAFF, AUTHORITY AND OBLIGATION

• Development Services Division reviews subdivision plats, replats and development plats for compliance with the rules and regulations described in Chapter 42. Development plats must also comply with Chapter 26 (Off-street Parking and Loading) and Chapter 33 (Trees, Shrubs and Screening Fences).

CITY OF HOUSTON SEC. 42-82 AND 42-83

• Notification to property owners within 250 feet of certain proposed development applications with a requested variance is required. The proposed development must be located within the city limits.

PROPERTY OWNERSHIP INFORMATION

- For notification purposes, property ownership information and property owner mailing addresses are obtained from the most recent property tax rolls of the county in which the property is located.
- Addressed envelopes and postage are provided by the applicant.

Application No:	2023-0426
Plat Name:	Innglo Global Places Sec 1
Applicant:	Houston Platting
Date Submitted:	02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81) Specific requirement or condition being sought:

We are seeking to be allowed to proceed with the dedication of half (south 30 feet) of the proposed road. The north 30 feet to be dedicated when the owner to the north decides to plat. **Chapter 42 Section: 128**

Chapter 42 Section: 128

Chapter 42 Reference:

Sec. 42-128. - Intersections of local streets. (1)Each local street shall intersect with a street that meets the requirements of subsection (b) at least every 1,400 feet; or

If this request requires a variance or special exception, the applicant must comply with the Plat Submittal Requirements and provide a completed Variance Request Information Form or Special Exception Information Form.

STATEMENT OF FACTS:

See variance request.

Application Number: 2023-0426 Plat Name: Innglo Global Places Sec 1 Applicant: Houston Platting Date Submitted: 02/20/2023

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(Sec. 42-47 and Sec. 42-81)

Specific Variance is being sought and extent of variance:

We are seeking a variance to allow us to dedicated the south 30 feet of the required 60 foot public road. The north 30 feet to be dedicated from the owner to the north, when they decide to plat. **Chapter 42 Section: 42-128**

Chapter 42 Reference:

Sec. 42-128. - Intersections of local streets.

Statement of Facts

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; OR

(1b) Strict application would make this project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

To start, the city ordinance states that there should be a "road" up to every 1400 feet. And the measurement starts seventy-five feet (75') north of the intersection of Old Richmond Road and Gaines Road. The distance along the west line of the subject parcel is 1,222.29 feet, so if you subtract the said 75' feet, that leaves only a distance of 1,147.29 feet. That is 252.71 feet short of the 1,400-foot caveat that is required for the "public road" to be dedicated. Furthermore, if a sixty-foot road was to be placed in the middle of the subject tract, the road would end up being a stub street (a dead-end street). There are multiple developed properties east of the subject tract, so a road in the middle of the subject tract would create an impractical development. We want to follow chapter 42 and are willing to dedicate the proposed road along the north end line of our subject tract, BUT we would like to ask for a variance so we can dedicate the south thirty feet of the adjacent property owner to the north decides to replat. Normal public policy when dedicating right of way widenings is to allow both sides of the "street" to dedicate their halves of the required additional right of way. We feel that is consistent with normal public policy.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

When we acquired the property, we were not aware that the city would or could impose the intersection spacing over 250 feet short of the 1400-foot spacing requirement for a street. Supporting our variance request is not due to a created hardship because there is nothing, we could have done to avoid the city of Houston's intersection spacing requirement.

(3) The intent and general purposes of this chapter will be preserved and maintained;

By allowing us to dedicate half of the required sixty-feet proposed road, the general purpose of this chapter will be preserved and maintained, and will also allow the continued growth and development of the office warehouse to proceed as needed.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The granting of this variance would not be injurious to the public health, safety, or welfare, but would actually be of help to the public because if the street is actually dedicated in the future, in the area indicated above (the north line end of our subject tract) it would allow future access in and out of the community and in addition, granting the variance will also allow the building of a large office warehouse that will help bring development and revitalization to the area.

(5) Economic hardship is not the sole justification of the variance.

Naturally, giving up any portion for right-of-way purposes without any financial compensation does create financial hardship, and although a lot of funds have been spent on already approve drawings and plans by Fort Bend, economic hardship is not the sole justification for the variance. To justify the variance, we would like to simply follow the current requirements of right-of-way, and if both sides of the property owner are both required to dedicate their halves of the proposed street dedication. We are asking the city of Houston to please grant our variance to dedicate just the south thirty feet of the proposed sixty-feet required right-of-way dedication, so we can help with the future building and revitalization of the area.

PURPOSE OF VARIANCE REQUEST: Reduced 20' side building line on Studewood, a Major Thoroughfare, and for a lot to take access from Studewood.

CHAPTER 42 REFERENCE(s): 42-152(a): Building line requirements along major thoroughfares. The portion of a lot or tract that is adjacent to a major thoroughfare shall have a building line requirement of 25' unless otherwise authorized by this chapter.

42-188: Lot access to streets. (b) A single-family residential lot shall not have direct vehicular access to a major thoroughfare unless: 1) the lot is greater than one acre in size; and (2) the subdivision plat contains a notation adjacent to the lot requiring a turnaround on the lot that prohibits vehicles from backing onto the major thoroughfare.

Meeting Date: 03/16/23

Houston Planning Commission

APPLICANT'S STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE):

Per Chapter 42, lots fronting on a Major Thoroughfare are to have a building line of 25'. The subject tract, 1133 East 7th ½ Street, is proposing a redevelopment of the current single-family dwelling unit. The existing dwelling unit and garage take access from Studewood Street, and the existing garage is setback approximately 15.8'. The redevelopment of the lot proposes a side building line of 20', and the garage is proposed to be set back approximately 22' and the remainder of the single-family dwelling is proposed to be set back 20'. Additionally, it is proposed that the redeveloped home will take access from Studewood, as well.

The applicant must clearly identify how the requested variance meets the criteria in either (1a) or (1b) and ALL items (2) through (5). The information provided will be used to evaluate the merits of the request. An electronic copy of any supporting documentation reference within the "Applicant's Statement of Facts" should be emailed to the Planning Department at <u>planning.variances@houstontx.gov</u>.

(1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; or

The applicant is requesting a reduction of the side building line to 20' (as opposed to 25'). The reduction of the side building line will allow for the applicant to develop the lot to its fullest potential and in keeping with the neighborhood character and the existing development pattern. The proposed single-family dwelling will be set back 20' from Studewood Street, and the adjoining garage will be setback approximately 22' from Studewood Street. This is an improvement from the current conditions on the lot. The existing detached garage (to be demolished) is only set back 15.8' from Studewood Street and the existing single-family dwelling is set back 18.5' from Studewood Street. The proposed redevelopment will have the building footprints set back farther from Studewood Street than the existing conditions.

All the original homes on East 7th ½ Street have garages in the rear, with a single-lane driveway on one side of the house. This means the garages are not prominently visible along East 7th 1/2 Street. To maintain the character of the neighborhood, the new house should also have a garage in the rear, not directly facing East 7th ½ Street. The lot is about 66' wide at the front along East 7th ½ Street. The 20' side setback on Studewood Street and the 5' interior side setback will give the developer approximately 41' of developable land. Because of this configuration, a driveway taking access from East 7th ½ Steet will be difficult to achieve. If the driveway were to be placed on the west side of the home, the driveway would be too close to the intersection of East 7th ½ Street and Studewood Street. This is not ideal, as traffic at the stop sign at East 7th ½ Street could potentially block the driveway of the subject property. If the driveway were to be placed east of the home, the buildable area of the lot would be significantly reduced. By placing the driveway on Studewood Street, the neighborhood character is maintained, the homeowner is not unreasonably deprived of the buildable width of their lot, and the driveway is farther from the intersection of Studewood Street and East 7th ½ Street.

Meeting Date: 03/16/23

Houston Planning Commission

Even with the reduction in the side building line on Studewood Street, the driveway is still long enough to fit vehicles without any overhang onto Studewood Drive or the sidewalk. The length of the driveway will ensure that no vehicles parked in the subject tract's driveway block any public rights-of-way or public sidewalks. In addition to this, the site plan proposes including a turnaround off of the driveway. This turnaround will ensure that no vehicle will need to back out onto Studewood Drive. This is an improvement to the current conditions, as the current driveway does not provide any internal turnaround and is about 7' shorter than what is proposed.

Additionally, the reduction in side building lines is common along this segment of Studewood Street. Numerous nearby buildings along Studewood Street have a reduced side building lines which is consistent with what is being proposed by the applicant. The reduction of the side building line on the subject tract will not be out of the ordinary in the neighborhood.

- (1b) Strict application of the requirements of this chapter would make a project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;
- (2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstances of this variance were not the result of a hardship created or imposed by the applicant. The original Norhill plat (platted in 1922) dictated the building lines and the right-of-way of Studewood. The Norhill plat predates the proposed redevelopment of this site.

(3) The intent and general purposes of this chapter will be preserved and maintained; The intent and general purpose of Chapter 42 will be preserved and maintained, as the garage will be set back farther than the proposed 20', and a minimum of 2 vehicles could comfortably park in the driveway with no overhang onto Studewood Street and sidewalk. Despite the reduction in the side building line, the driveway will not adversely impact Studewood Street or the sidewalk- the vehicles will be self-contained within the lot. Additionally, a turnaround will be provided as part of the driveway. This will allow for the drivers to safely turnaround when leaving the lot. Drivers will not need to back onto Studewood Street.

(4) The granting of the variance will not be injurious to the public health, safety or welfare; As vehicles will not overhang onto Studewood Street and an internal turnaround will be provided, the granting of this variance will not be injurious to the public health, safety, or welfare. The vehicles will be contained within the driveway and not block any sidewalks or streets due to overhang. Additionally, no vehicles will be forced to back onto Studewood Street.

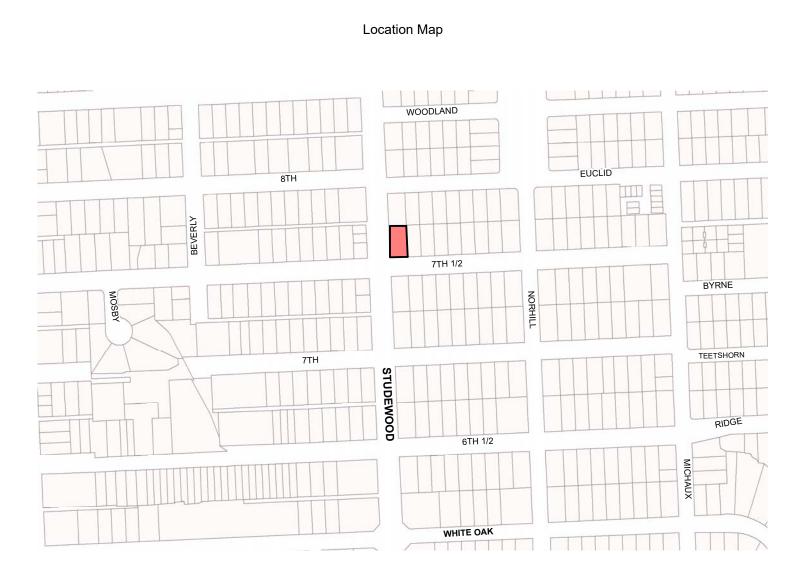

(5) Economic hardship is not the sole justification of the variance.

Economic hardship is not the sole justification of this variance. The reduction of side building lines is consistent throughout the neighborhood and additional measures have been provided to ensure the safety of vehicles exiting the lot.

PURPOSE OF VARIANCE REQUEST: A variance is requested for a 10-foot side building line on Studewood Street, which is a major thoroughfare.

CHAPTER 42 REFERENCE(s): 42-152(a): Building line requirements along major thoroughfares. The portion of a lot or tract that is adjacent to a major thoroughfare shall have a building line requirement of 25' unless otherwise authorized by this chapter.

Meeting Date: 03/16/23

Houston Planning Commission

APPLICANT'S STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE):

Studewood Street is a major thoroughfare that was platted between Sixth Street (now White Oak Drive) and Stude Street in the Usener Addition in 1921. Studewood Street has a variable right-of-way with a paved section that varies from 53.8' – 52.2' along the west side of the property, which is located at the corner of Stude Street and Studewood Street. The property faces Stude Street. The owner is proposing to construct a one-story house with garage access from Stude Street.

The applicant must clearly identify how the requested variance meets the criteria in either (1a) or (1b) and ALL items (2) through (5). The information provided will be used to evaluate the merits of the request. An electronic copy of any supporting documentation reference within the "Applicant's Statement of Facts" should be emailed to the Planning Department at <u>planning.variances@houstontx.gov</u>.

- (1a) The imposition of the terms, rules, conditions, policies and standards of this chapter would create an undue hardship by depriving the applicant of the reasonable use of the land; or
- (1b) Strict application of the requirements of this chapter would make a project infeasible due to the existence of unusual physical characteristics that affect the property in question, or would create an impractical development or one otherwise contrary to sound public policy;

Sometime before 1960, approximately 1,437 sf of the property as originally platted was conveyed to the City of Houston for street widening purposes. This created an abnormally shaped lot upon which the application of the City of Houston's building line setback:

- does not further public interest objectives.
- imposes significantly greater restriction on use of the property than similarly situated properties in the surrounding area the 25' setback on the reduced-size lot takes up almost 40% of the property.; and
- makes it impractical to develop the property consistent with the size and scale of existing development in the surrounding area.

The owners wish to build a one-story house with an interior courtyard to provide a protected outdoor space and to mitigate the noise, dust and fumes from the four lanes of traffic on Studewood Street.

(2) The circumstances supporting the granting of the variance are not the result of a hardship created or imposed by the applicant;

The circumstance supporting the granting of this variance is the configuration of the lot which is a result of the conveyance to the City of Houston for road expansion. The applicant was not a party to that transaction. Although a previous owner of the property did grant the conveyance, it was effectuated by the surrounding traffic conditions requiring the road expansion which were not within their control.

Meeting Date: 03/16/23

Houston Planning Commission

(3) The intent and general purposes of this chapter will be preserved and maintained;

The intent and purpose of the City of Houston building setback is not explicitly stated in the ordinance. When read within the context of the prevailing 10' building setback provided to single-family residential properties on less-heavily-trafficked roads and non-single family residential properties, it can be concluded that the additional setback exists to address safety and aesthetic concerns.

The aforementioned conveyance affords the City of Houston ample ROW to address any safety concerns to pedestrians, cyclists and drivers. Along the Studewood Street side of the property, the distance from the roadway to the property line varies from 23.4' - 24.4' and Studewood Street itself measures between 53.8' and 52.2' wide. In total, the City of Houston holds 50.3' of ROW from the centerline of Studewood Street to 1114 Stude's property line. Assuming symmetrical ROW from the centerline, this results in significantly more ROW than the 86' required under the 2021 MTFP Street Hierarchy Classification Table.

There is currently a proposal for a dedicated bike lane along Studewood. In line with the City of Houston Street Paving Design Requirements, the City of Houston's 50.3' of ROW can conceivably accommodate: two 11' lanes, a 6' separated bike lane and 12' of Pedestrian Realm with 10' to spare (22' of potential Pedestrian Realm). With the proposed 10' setback, the side wall of the house would measure 32' from the road. The Pedestrian Realm could include a 3' Safety Buffer from the bike lane and a 6' sidewalk resulting in a 23' setback from the proposed side wall of the house to the sidewalk.

		Commer	cial/Mixed Use A	venue Des	signation		
Minimum R.O.W (feet)	Pedestrian Realm* (feet)	Tree Well or Swale	On-Street Parking (feet)	Bike Lane (feet)	Median Width (ft)	Lane Widths (feet)	ADT (vpd)
	2 X 21 = 42	TW	2 X 8 = 16	N/A	N/A	2 X 11 = 22	1,500 - 15,000
	2 X 11 = 22	TW	2 X 18 = 36**	N/A	N/A	2 X 11 = 22	1,500 - 15,000
	2 X 15 = 30	TW	2 X 8 = 16	2 X 6 = 12	N/A	2 X 11 = 22	1,500 - 15,000
	2 X 15 = 30	TW	N/A	2 X 6 = 12	N/A	2 X 11 = 22	1,500 - 15,000
	2 X 22 = 44	TW	N/A	N/A	N/A	2 X 11 = 22 + 1 X 14 (CLTL ^{***}) = 36	5,000 - 20,000
80	2 X 14 = 28	TW	2 X 8 = 16	N/A	N/A	2 X 11 = 22 + 1 X 14 (CLTL ^{***}) = 36	5,000 - 20,000
	2 × 46 - 22		21/2	27.6-12		2 X 11 = 22 + 1 X 14 (CLTL ^{***})	5 000 00 000
	2 X 16 = 32	TW	N/A	2 X 6 = 12	N/A	= 36	5,000 - 20,000
	2 X 18 = 36	TW	N/A	N/A	N/A	$4 \times 11 = 44$	10,000 - 30,000
	2 X 10 =20	TW	2 X 8 = 16	N/A	N/A	$4 \times 11 = 44$	10,000 - 30,000
	2 X 12 = 24	TW	N/A	2 X 6 = 12	N/A	$4 \times 11 = 44$	10,000 - 30,000

Strict application of the requirements of this chapter would be at odds with the intent and purpose of promoting the safety and health of the residents at 1114 Stude. To limit the drawbacks of developing next to a major road, the proposed single-family residence is designed around an interior courtyard. Safety and health risks associated with the road are highest when enjoying the outdoor space of the property. Without this variance, the residents would be unable to preserve the outdoor courtyard which will provide safe enjoyment of the outdoor space on the property. There is no vehicular access from the Studewood side of the property and the residents plan to building a solid wall along the west side of the property line for noise control and security.

Meeting Date: 03/16/23

Houston Planning Commission

Regarding aesthetic concerns, the 10' setback is consistent with the prevailing setback of existing properties in the area and results in less setback from the roadway. Particularly:

- 533 Studewood front of building 28' from roadway,
- 535 Studewood front of building 24.5' from roadway,
- 537 Studewood front of building 26' from roadway,
- 543 Studewood front of building 29.5' from roadway,
- 545 Studewood front of building 27' from roadway,
- 549 Studewood front of building 34.5' from roadway, and
- Proposed 1114 Stude front of building 34.5' from roadway at its narrowest point.

(4) The granting of the variance will not be injurious to the public health, safety or welfare;

The general intent and purpose of the building line setback ordinance appears primarily aimed at preserving public health, safety and welfare. As described above in section 3, the granting of this variance will not be injurious to public health, safety, or welfare.

This is further evidenced by the fact that the Houston Planning Commission has previously granted reduced side building setbacks to other similar properties along Studewood Street. At 835 Algregg Street, the Commission approved a 12' side setback along Studewood Street in 2020, at 747 East 6 1/2th Street, the Commission approved an 11'-10" side setback along Studewood Street in 2018 and at 133 East 7th Street, the Commission approved a 20' side setback in 2017. Accordingly, this application is consistent with approved variances for similar properties that were found by the Commission as not injurious to public health, safety, or welfare.

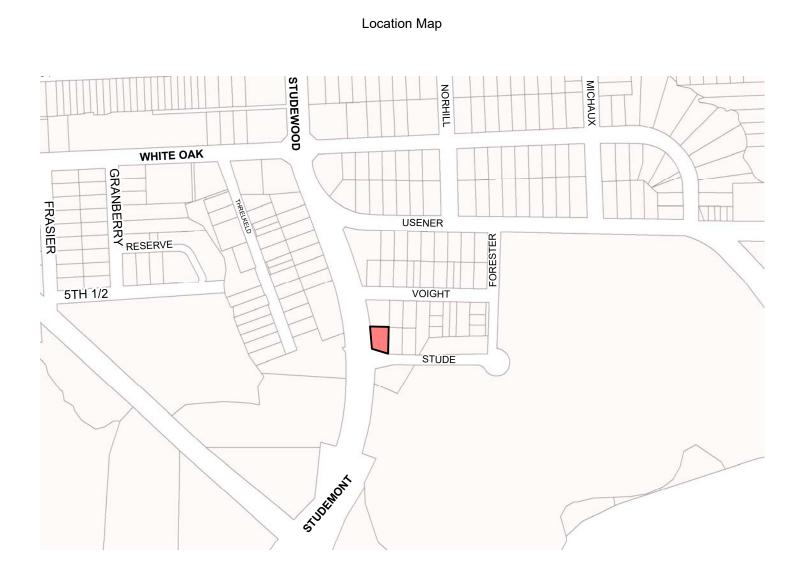

To make the area safer for pedestrian activity we are proposing to install a new 6' wide sidewalk along the Studewood Street side of the property to align with the wider sidewalk at the Mutiny Wine Room at 1124 Usener Street. We are also proposing to add a new 5' wide sidewalk on the Stude Street side of the property. Currently there are no sidewalks at all along the length of this block and pedestrians accessing Stude Park are forced to walk in the street. We are also proposing to add new trees in the right of way along Studewood Street to provide a more attractive appearance to the streetscape.

(5) Economic hardship is not the sole justification of the variance.

The reduced building line will allow for reasonable use of the land and for a house that is consistent with other houses in the immediate vicinity which cannot be achieved by financial means alone.

PURPOSE OF VARIANCE REQUEST: To allow 13 off-street parking spaces in lieu of the 18 required spaces (required for class 5(b) use of nursery school or day care center).

CHAPTER 26 REFERENCE(S): Sec. 26-492, Class 5, Religious and Educational, paragraph b, Nursery school or day care center, "1.0 parking space for every employee on duty during the largest shift, plus 1.0 parking space for every 10 children in attendance when the facility is operating at maximum capacity if a drop-off, drive-in or drive-through facility is provided"

Houston Planning Commission

APPLICANT STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE): The applicant is requesting to reduce the number of required off-street parking spaces from 17 spaces to 7 spaces to account for the lack of a reasonable use classification in Chapter 26 of the City's Code of Ordinances. Because there is no use classification for dog daycare facilities, staff has informed the applicant that they should utilize the nursery school or day care center classification.

APPLICANT'S STATEMENT OF FACTS:

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(1) The imposition of the terms, rules, conditions, policies and standards of this article would deprive the owner or applicant of the property of reasonable use of the land or building;

The building located at 2311 Washington Drive has been operating as International Billiards for several decades and as a Shopping Center use since it was built in 1940 with the 13 existing parking spaces. The building is being leased to a dog daycare facility which will occupy the entire building, which goes all the way south to the Union Street frontage. The Parking Ordinance does not specify a classification for dog daycare facilities, so the childcare center facility use has been applied to the property. This use requires 1 parking space for every five children (dogs) plus one for every employee on-site. There is not sufficient parking at the building to meet this use classification requirements, or any other use requirements that exists in the code today. Nor is there the opportunity to acquire "offsite parking" that meets the outlined requirements stated in the Code. Therefore, this building can no longer comply with the current code parking requirements.

The proposed use is consistent with a low-impact traffic retail use that should not eliminate the vested use as opposed to a high-impact institutional traffic use such as a human daycare. In a dog daycare facility, animals are dropped off curbside at staggered times and may stay multiple days as opposed to a human daycare where children are dropped off at the same during peak travel hours. Applying this standard to a dog daycare is not reasonable and results in a hardship for the applicant that precludes reasonable use of the property.

Houston Planning Commission

(2) That the circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant and that in granting the variance the general purposes of this article are being observed and maintained;

The property owner is requesting an off-street parking variance to allow them to achieve a more reasonable parking requirement of thirteen spaces as they dogs are dropped-off using a curb-side drop-off/pick-up program. The variance will enable the business owner to operate a successful business and make appropriate use of a historical building to provide the community a service it needs. The request is based on securing the best possible solution in the face of a technicality and unreasonable application of the City's Codes as opposed to a self-created hardship by the applicant.

(3) The intent of this article is preserved;

By granting the variance, the general purpose of **Sec. 26-492 and Sec. 26-494** are being observed and maintained as more than adequate parking is provided as evidenced by an analysis of similar uses in the Houston Metro and observation of historical precedence (see following case studies). In practice, the proposed use of a doggie day care is highly compatible with the existing development conditions of the subject site and the surrounding areas specifically because of its incredibly low on-site parking demand.

(4) The parking provided will be sufficient to serve the use for which it is intended;

A total of thirteen off-street parking spaces will be provided for employees and customers. Dog daycares do not operate like childcare centers and therefore require much fewer parking spaces for a successful operation that is convenient for consumers (see appendix examples of Houston dog daycares with limited parking available). On average, customers spend 75 seconds either dropping off or picking up their pets throughout the day. To accommodate this quick drop off/pick up, the use of pull through "curbside" spaces provide the greatest convenience to consumers. Dogtopia offers "curbside" service for drop off and pick up by request through their customer mobile app. While observing existing Dogtopia daycares of similar sizes, it was observed that there were never more than 3 customers in the lobby at one time. On average, there were only 3 customers in the lobby twice/day and there were only 2 customers in the lobby at a time 9 times per day. By these observations, the "curbside" spaces will be sufficient for customer parking.

(5) The granting of such a variance will not be injurious to the public health, safety or welfare; and

The proposed variance and intended dog daycare use will lessen the negative impacts to traffic circulation and parking demand as opposed to the retail use which is currently allowed on the subject site. The proposed variance represents that best possible outcome for the benefit of the public's health, safety, and welfare. It also is the only reasonable outcome that allows the dog daycare operator viable use of the property without unnecessarily disrupting or negating the vested retail use on the property.

(6) For a development that is subject to the requirements of article VII, chapter 33, of this Code, the granting of the variance is necessary to accomplish the purposes of a certificate of appropriateness issued pursuant to article VII, chapter 33, of this Code.

Houston Planning Commission

STANDARDS FOR VARIANCES

(a) The commission is authorized to consider and grant variances from the provisions of this article by majority vote of those members present and voting, when the commission determines that the first five of the following conditions exist, and if applicable, the sixth condition, exists:

(1) The imposition of the terms, rules, conditions, policies and standards of this article would deprive the owner or applicant of the property of reasonable use of the land or building;

(2) That the circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant and that in granting the variance the general purposes of this article are being observed and maintained;

- (3) The intent of this article is preserved;
- (4) The parking provided will be sufficient to serve the use for which it is intended;
- (5) The granting of such a variance will not be injurious to the public health, safety or welfare; and

(6) For a development that is subject to the requirements of article VII, chapter 33, of this Code, the granting of the variance is necessary to accomplish the purposes of a certificate of appropriateness issued pursuant to article VII, chapter 33, of this Code.

(b) In addition, if the variance involves an off-site parking facility, the commission must determine that a proposed off-site parking facility will be located so that it will adequately serve the use for which it is intended. In making this determination, the following factors, among other things, shall be considered:

- (1) The location of the proposed building and the proposed off-site parking facility.
- (2) Existing and potential parking demand created by other occupancies in the vicinity.

(3) The characteristics of the occupancy, including employee and customer parking demand, hours of operation, and projected convenience and frequency of use of the off-site parking.

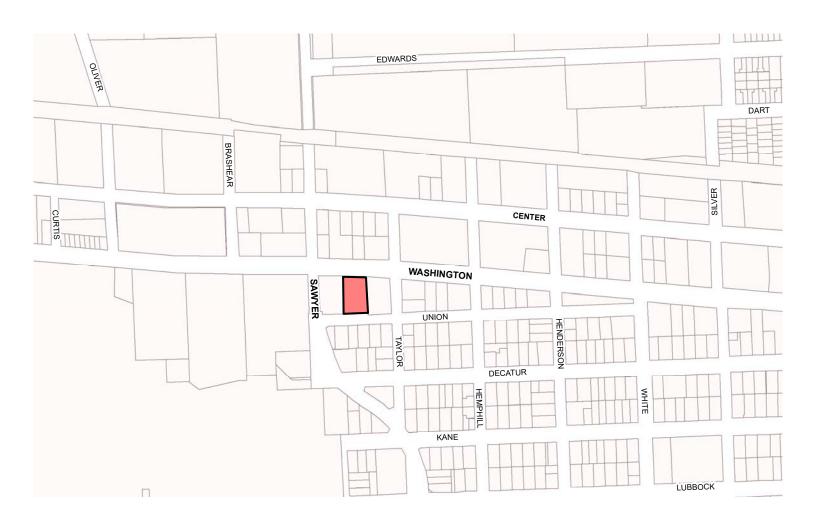

- (4) Adequacy, convenience, and safety of pedestrian access between off-site parking and the occupancy.
- (5) Traffic patterns on adjacent streets, and proposed access to the off-site parking.
- (6) The report and recommendation of the director and the traffic engineer.

Any variance granted under the provisions of this section will apply only to the specific property and use upon which the commission was requested to grant a variance by the applicant and shall not constitute a change of this article or any part hereof. All variances as granted shall be in writing shall be signed by the secretary of the commission and maintained as a permanent record of the commission.

APPLICANT STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE):

A small, high-end, boutique hotel to be called 'The Daphne' is proposed in the business area of the Heights on W 20th St., a designated 70' major thoroughfare. 16 parking spaces will be provided on-site and located on the same tract as the hotel; 14 spaces will be located to the west across Ashland St.; 7 spaces will be located across the public alley to the north connecting with the hotel parking lot; 9 spaces (12.25% of required parking spaces) will be provided along Rutland St.

This proposed 5-story hotel will have most of its required parking on-site or within 70' of the hotel. The remaining 9 spaces on Rutland are 565' from the hotel. The hotel plans to use the spaces along Rutland for additional guest, valet, and/or employee parking, dependent upon demand, convenience, and frequency. The clientele of the hotel will mainly be friends and relatives of nearby residents in the Heights, including wedding parties. Hotel guests will more than likely be walking to the growing number of restaurants and businesses in the area.

The Heights is composed of many small parcels of land. A large parking lot is not consistent with the character of the area.

APPLICANT'S STATEMENT OF FACTS:

The applicant bears the burden of providing factual, material, and compelling evidence to support a variance request in the Statement of Facts ("SOF") below. The applicant must write a response to each of the statements as part of their application. Failure to do so will result in the application being deemed incomplete and not placed before the Planning Commission. The applicant may attach additional supporting documents to the application. P&D will not correct, revise, or edit the applicant's information. P&D will formulate its recommendation by evaluating the SOF's information, the additional information provided and any relevant information available to the Department.

(1) The imposition of the terms, rules, conditions, policies and standards of this article would deprive the owner or applicant of the property of reasonable use of the land or building;

Parcels of land in the Heights are small and a derivative of the character of development in the past decades. Many of the existing businesses do not comply with the requirements of the parking ordinance, which did not go into effect until 1989. There are few large parking lots, such as the ones for the nearby hospital, which seem out of scale to the development in the area and discourage pedestrian activity.

Parking for the hotel will be in four locations. 16 spaces will be located on the same tract of land as the hotel and 14 spaces located directly across the street to the west. There will be 7 spaces located directly to north across the alley from the hotel. The two parking lots will have aligned ingress to increase connectivity between the main parking lot and the additional 7 spaces. The remaining 9 spaces along Rutland are located 565 feet away from the hotel and will be utilized as employee, valet parking, and/or guest parking spaces, dependent upon factors such as the parking demand determined by hours of operation of the hotel and clientele needs. Access to this lot will be at the intersection of Rutland St. and the public alley. Ingress

Houston Planning Commission

and egress will be taken off of the existing 38' public alley. The alley has a 12.8' paving section, with parking directly south of the proposed lot serving existing businesses along W. 19th St. A bike station exists at the intersection of Rutland and W. 19th St., allowing employees and or guests the option to bike to work or take advantage of the 18 bike spaces proposed for the main site. There are already existing sidewalks along both W. 20th and Rutland alongside an existing shared bike lane along W. 20th.

This 43,307 s.f. five-story hotel will also include a lounge, gift shop, library, courtyard, pool, and cabana. The small scale of these lots will allow large existing trees to be preserved and the lots will be in scale with the Heights commercial area. The hotel is expected to attract guests directly related to activities in the Heights, such as weddings, or those who are visiting relatives that live nearby. It is not expected to cater to business travelers, who make up most hotel guests. The hotel is to have expensive décor and specialized services, including a gift shop offering floral arrangements. Many guests are expected to arrive without personal cars and to be transported by friends or relatives to events or to depend upon ride-share services such as Uber or Lift. They will also be able to walk to numerous nearby restaurants and shops or to use bikes to travel area trails.

(2) That the circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant and that in granting the variance the general purposes of this article are being observed and maintained;

The Heights contains land parcels that are small, with dimensions that are not sized for parking lots.

(3) The intent of this article is preserved;

The intent of the ordinance is to provide parking off the public streets that meets the needs of various uses rather than relying on parking along the street. This is particularly important when the street paving widths are narrow and/ or there is open ditch drainage. Most of the required parking is on-site or directly across the street. The remaining 9 spaces are within walking distance of the hotel located in the established commercial area of the Heights, where many urban pedestrians already walk and bike.

(4) The parking provided will be sufficient to serve the use for which it is intended;

The number of parking spaces provided is sufficient and there is one additional parking space available even after the bicycle space reduction allowance is met. The developer has acquired ownership of nearby small parcels to meet the use classification parking requirements, even though there are very few available.

The number of proposed parking spaces will be sufficient considering the exclusive nature of the hotel, which will cater to people related in some way to the area and likely to have transportation furnished to them by area residents. With the growing use of ride share services, the need for individual cars is less than it has been in previous decades. The need is also lessened by the walkable nature of the immediate area, with restaurants and shops within easy walking distance.

After a submittal of a "Form A" and review from City of Houston Public Works, the traffic impact of new peak hour trips was less than 100 per day and will not require a Traffic Impact Analysis. The proposed access to the site and parking lots, as well as daily traffic patterns, have been reviewed and the parking is sufficient to serve the use in which it is intended.

Houston Planning Commission

(5) The granting of such a variance will not be injurious to the public health, safety or welfare; and

The improvements of the pedestrian realm on W 20th St. and Ashland St., as well as the preservation of the large existing live oaks will increase the public safety in this already walkable area. The main site as well as the parcels to be used for parking will meet the requirements of the Tree and Shrub Ordinance.

(6) For a development that is subject to the requirements of article VII, chapter 33, of this Code, the granting of the variance is necessary to accomplish the purposes of a certificate of appropriateness issued pursuant to article VII, chapter 33, of this Code.

The proposed building is not subject to Article VII of Chapter 33. It will be new construction on a currently vacant site.

Houston Planning Commission

STANDARDS FOR VARIANCES

(a) The commission is authorized to consider and grant variances from the provisions of this article by majority vote of those members present and voting, when the commission determines that the first five of the following conditions exist, and if applicable, the sixth condition, exists:

(1) The imposition of the terms, rules, conditions, policies and standards of this article would deprive the owner or applicant of the property of reasonable use of the land or building;

(2) That the circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant and that in granting the variance the general purposes of this article are being observed and maintained;

- (3) The intent of this article is preserved;
- (4) The parking provided will be sufficient to serve the use for which it is intended;
- (5) The granting of such a variance will not be injurious to the public health, safety or welfare; and

(6) For a development that is subject to the requirements of article VII, chapter 33, of this Code, the granting of the variance is necessary to accomplish the purposes of a certificate of appropriateness issued pursuant to article VII, chapter 33, of this Code.

(b) In addition, if the variance involves an off-site parking facility, the commission must determine that a proposed off-site parking facility will be located so that it will adequately serve the use for which it is intended. In making this determination, the following factors, among other things, shall be considered:

- (1) The location of the proposed building and the proposed off-site parking facility.
- (2) Existing and potential parking demand created by other occupancies in the vicinity.

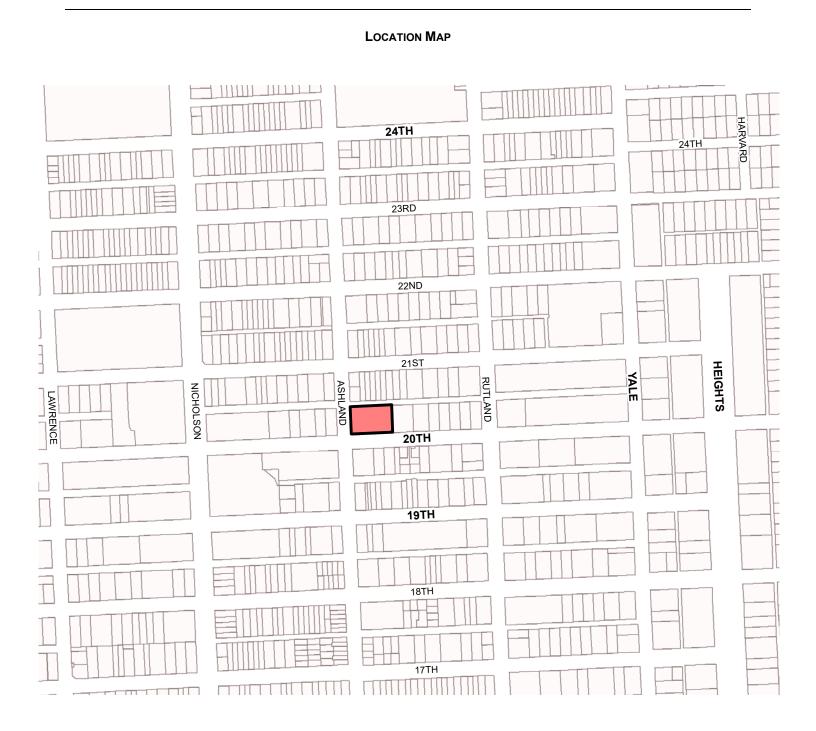

(3) The characteristics of the occupancy, including employee and customer parking demand, hours of operation, and projected convenience and frequency of use of the off-site parking.

- (4) Adequacy, convenience, and safety of pedestrian access between off-site parking and the occupancy.
- (5) Traffic patterns on adjacent streets, and proposed access to the off-site parking.
- (6) The report and recommendation of the director and the traffic engineer.

Any variance granted under the provisions of this section will apply only to the specific property and use upon which the commission was requested to grant a variance by the applicant and shall not constitute a change of this article or any part hereof. All variances as granted shall be in writing shall be signed by the secretary of the commission and maintained as a permanent record of the commission.

September 5, 2022

Margaret Wallace Brown, Director Planning Department City of Houston 611 Walker, 6th Floor Houston, Texas 77002

Director Brown,

On behalf of the Baptist Temple, located at 230 West 20th Street, Houston 77008, I am writing to express our full support of the proposed hotel at the corner of West 20th Street and Ashland Street, a project proposed by Mr. Ben Ackerley of Wood Lane Partners, Ltd.

We are not only happy with the design of the proposed project, but we also believe this project fits the needs of the neighborhood and fits with other development happening right now in this part of The Heights. As you know, our community is historic, diverse, and ever-evolving. This hotel would complement the many restaurants, housing, and other attractions already developed. We would value the inclusion of a boutique hotel here in the neighborhood.

Thank you for your consideration, and please consider this letter a full endorsement of this project, from the faithful people of the Baptist Temple, established here on West 20th Street in 1908.

Please feel free to contact me if any further elaboration would assist you.

With my warmest regards, and God's richest blessings on you and your work,

Edward Crowell, *Executive Director* eddie@baptisttemple.org / 713.628.2468 (voice and text)

Houston Planning Commission

CHAPTER 28 REFERENCE(S):

28-202. (a)(1)(a); (a)(1)(c); (a)(2); (a) (5)

APPLICANT'S STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE):

This high-end boutique hotel offers visitors to the Heights an alternative option to the common hotel experience. It is located in the commercial center of the Heights.

The entrance is proposed from Ashland St. rather than W. 20th to avoid any conflicts with the existing bike lane on W. 20th and to decrease any traffic congestion. West 20th is only a two-lane road with one moving lane in each direction. The main driveway location is located in between two large existing Oak trees on Ashland St. There are other large existing Oak trees along the perimeter of the property which will be preserved and limit driveway entrance locations.

The hotel will be managed by a Texas based group that specializes in boutique hotels across the country.

The applicant must clearly identify how the requested variance meets the criteria in ALL items (1) through (4). The information provided will be used to evaluate the merits of the request. An electronic copy of any supporting documentation reference within the "Applicant's Statement of Facts" should be emailed to the Planning Department at <u>planning.hotel-motel@houstontx.gov</u>.

(1) The imposition of the terms, rules, conditions, policies and standards of this article would create an undue hardship by depriving the applicant or owner of the property of the reasonable use of the land;

The site is located in the Heights at the intersection of W 20th St. and Ashland St. It is originally a part of the Carter Reserve of Houston Heights, platted in 1894. The proposed five-story high-end boutique hotel lies within what has traditionally been the small retail and commercial area of the Heights, primarily located along W. 19th and W. 20th. This site is within short walking distance of many shops and restaurants, as well as the restored theater. While some portions of the Heights are exclusively single-family, this area has long been mixed-use. Not only do the businesses echo the small-scale size and character of the area, but they are also significantly smaller than standard contemporary commercial areas, creating a unique place in an otherwise big modern city.

Overnight accommodations for visitors in the immediate Heights area have been minimal to only a few bed and breakfasts. Typically, visitors have limited options and resort to staying in hotels and motels located along nearby freeways. Having another option for visitors and guests that desire a quaint and unique stay

Meeting Date: 03/16/2023

Houston Planning Commission

would be ideal in this small commercial area. The Heights has long been a distinctive area within a large city, and would benefit by adding a hospitality component to the ongoing and trending redevelopment of the area.

Ashland St. is a local street with a 70' right-of -way and a paving width of 31 feet. Hotel driveways are located on Ashland rather than on 20th to avoid conflicts with bike traffic on the 20th Street bike route. It will also avoid delaying traffic on 20th caused by slow moving cars turning into a private parking facility. There is only one travel lane in each direction on 20th. The entry and exit lanes from Ashland are split in order to preserve the large oaks that line the street.

The north side of this block of Ashland, across the alley, contains both commercial and townhomes. The hotel will create a landscape screen of trees and shrubs along the alley. There will be a 20' 3 ¾ " pedestrian realm along Ashland, and 15' along 20th. Both will have 6' unobstructed sidewalks, separated from the street paving by planting strips.

(2) The circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant;

This area was platted with small blocks and lots without land use restrictions. It has long been established a small mixed-use area in the Heights.

(3) The intent and general purposes of this article will be preserved and maintained; and

The intent of the Hotel Motel ordinance governing the location of hotels was to make certain that the operation in its entirety would not negatively impact nearby residents and major civic institutions. This highend boutique hotel will not adversely affect the intent of the regulations and will be in accordance with the mixed-use character already defined in this area.

The hotel will be managed and maintained by a Texas management group founded twenty years ago, which specializes in high-end boutique hotels. The ordinances will be preserved and maintained by high standard operation by management.

(4) The granting of the variance will not be injurious to the public health, safety or welfare.

The public welfare will be protected by creating a pedestrian realm along both W. 20th St. and Ashland St., creating an improved safe and walkable area in an established mixed-use area. Allowing the entry to the hotel to take access from Ashland St. will prevent traffic conflict with the existing bike lane as well as the two lane 70' wide right-of way of W. 20th St.

APPLICANT'S STATEMENT OF FACTS

SUMMARY OF VARIANCE CONDITIONS (BE AS COMPLETE AS POSSIBLE):

To meet locational requirements for the motel

The applicant must clearly identify how the requested variance meets the criteria in ALL items (1) through (4). The information provided will be used to evaluate the merits of the request. An electronic copy of any supporting documentation reference within the "Applicant's Statement of Facts" should be emailed to the Planning Department at planning.hotel-motel@houstontx.gov.

(1) The imposition of the terms, rules, conditions, policies and standards of this article would create an undue hardship by depriving the applicant or owner of the property of the reasonable use of the land;

The owner of the property would not be able to use the land for its intended commercial use.

(2) The circumstances supporting the granting of the variance are not the result of a hardship imposed or created by the applicant;

his is an unnecessary hardship created not at all imposed or created. This property has been sitting in area for years and the owners would like to use it make the area more beautiful. We would like to use the land for private use and we meet all other requirements to do so.

- (3) The intent and general purposes of this article will be preserved and maintained; and All items will remain as stated and increase the value of this site and surroundings.
- (4) The granting of the variance will not be injurious to the public health, safety or welfare.

This property and development will not be a hindrance in any way to the safety of the public. It will beautify the property with landscaping with development to enhance growth to the location.
